Understanding police intelligence work - Adrian James 2016-04-27

Although police intelligence is becoming increasingly reliant on technology, it remains a human activity. This is the first textbook to offer a comprehensive and uptodate account of police intelligence work based on current research, and to assess how

intelligence may be used wisely and ethically to influence policing policy and practice. After explaining the basic tenets of intelligence, the author, who has extensive experience in the field, critically examines the development of intelligence structures and governance of contemporary intelligence collection. He goes on to assess the threats and

opportunities to policing in the digital age, including the widespread use of social media and the emergence of 'Big Data'. Part of a new series for students and practitioners designed to reflect the importance of incorporating 'evidence based policing' within the curriculum and practice, this muchneeded textbook covers not only the technical aspects of intelligence work but also encourages reflexivity in practice.

Police Use of Force - James F. Albrecht 2023-03-01

This volume provides a comprehensive examination and analysis of the concepts and issues related to police use of force, particularly the use of deadly force with a firearm, from multi-faceted and international perspectives. It explores innovative training, protocols, policies, tactical options for de-escalation, and recommendations for the restriction of the use of force by law enforcement officers in an effort to reduce the likelihood of injury to police, the public and criminal suspects. Additionally,

it outlines tactics for effective crowd control at demonstrations and during riots. This book specifically delineates practical policy implications suggested from highly recognized professionals with extensive experience in policing, training and related research. It is ideal for graduate and upper level undergraduate students, scholars, academics, researchers, government and community leaders, and criminal justice and law enforcement administrators and policy makers.

Securing Development -

Bernard Harborne 2017-03-01

Securing Development: Public Finance and the Security Sector highlights the role of public finance in the delivery of security and criminal justice services. This book offers a framework for analyzing public financial management, financial transparency, and oversight, as well as expenditure policy issues that determine how to most appropriately manage security and justice services. The interplay among security, justice, and public finance is still a relatively unexplored area of development. Such a perspective can help security actors provide more professional, effective, and efficient security and justice services for citizens, while also

strengthening systems for accountability. The book is the result of a project undertaken jointly by staff from the World Bank and the United Nations, integrating the disciplines where each institution holds a comparative advantage and a core mandate. The primary audience includes government officials bearing both security and financial responsibilities, staff of international organizations working on public expenditure management and security sector issues, academics, and development practitioners working in an advisory capacity.

Property Crime - Amy Burrell
2020-02-26

Property Crime: Criminological and Psychological Perspectives pulls together expertise from a wide range of academics and practitioners who focus on

preventing and investigating property crime. From car theft and vandalism to burglary and robbery, this book provides an insight into the motivations and pathways of crime, as well as how it is investigated and what happens to offenders when they are caught. This book aims to highlight the extent, nature, and impact of property crime as well as providing an overview of different topics such as: offender crime scene behaviour, motivations, the decision process that underpins a range of property-related offences, prosecution, rehabilitation, and prevention. In addition, the processes and challenges involved in investigating and prosecuting property offences are discussed from a range of perspectives, including crime analysts, police detectives, forensic crime scene investigators, and prosecutors. This is an essential read for students, applied researchers, and practitioners working across the criminal justice system. It is a 'one-stop-shop' for anyone interested in this pervasive form of criminal

behavior.

Anglo-European Intelligence Cooperation - Hager Ben Jaffel
2019-09-26

This book investigates everyday practices of intelligence cooperation in anti-terrorism matters, with a specific focus on the relationship between Europe and Britain. The volume examines the effective involvement of British anti-terrorism efforts in European cooperation arrangements, which until now have been overshadowed by the UK-US 'special relationship' and by political debates that overstate the divide between Britain and continental Europe. In arguing that British intelligence has always had a European dimension, it provides a distinct perspective to the study of intelligence cooperation and the role of British intelligence therein. Mobilizing a 'field theory' approach, the book provides an original contribution to the understanding of intelligence cooperation by investigating everyday bureaucratic

practices of 'ground-level' security professionals and police forces, embedded in a European 'field' structured around the exchange of anti-terror intelligence. It also accounts for the drivers behind cooperation by using 'field analysis,' which explains the trajectory and positioning of actors according to their 'capitals' rather than necessities dictated by threats or state decisions. This book will be of much interest to students of Security Studies, International Political Sociology, Intelligence Studies, and International Relations in general.

The Borders of "Europe" -
Nicholas De Genova
2017-08-18

In recent years the borders of Europe have been perceived as being besieged by a staggering

refugee and migration crisis. The contributors to *The Borders of "Europe"* see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement. Addressing the new technologies and technical forms European states use to curb, control, and constrain what contributors to the volume call the autonomy of migration, this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe. They also outline how from Istanbul to London, Sweden to Mali, and Tunisia to Latvia, migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders. Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears, this timely volume demonstrates how the enforcement of Europe's borders is an important

element of the worldwide regulation of human mobility. Contributors. Ruben Andersson, Nicholas De Genova, Dace Dzenovska, Evelina Gambino, Glenda Garelli, Charles Heller, Clara Lecadet, Souad Osseiran, Lorenzo Pezzani, Fiorenza Picozza, Stephan Scheel, Maurice Stierl, Laia Soto Bermant, Martina Tazzioli
Care of the Mentally Disordered Offender in the Community - Alec Buchanan 2017-10-05
This revised and updated edition of *Care of the Mentally Disordered Offender in the Community* provides a comprehensive, evidence-based guide to theory and practice. The social and clinical context within which mental health care is provided to offenders in community settings has changed significantly in recent years. An increasing proportion of all mental health care is provided in the community and our knowledge of the links between violence and mental illness has advanced. Existing psychological and pharmacological treatments

have been refined and new treatments have been introduced. Epidemiological and intervention-based research has evaluated these changes and suggested new avenues for clinical development. Over three sections, the second edition of *Care of the Mentally Disordered Offender in the Community* explores the key areas of the field. Part 1 describes the social, administrative and clinical context within which care is now given. Part 2 discusses treatment and the evaluation of violence risk when determining the most appropriate treatment. Part 3 explores psychiatric services and their relationship with other agencies. The text has been updated to cover recent developments in theory and practice. New chapters have been added that cover US provision for people with mental disorders leaving prison, the community management of sexual offenders, the relationship between care and coercion and the treatment of personality disorders. Written

by a global team of experts, the book provides critical insights into the social, clinical, and institutional aspects of an increasingly important part of psychiatric community care. [International Developments and Practices in Investigative Interviewing and Interrogation](#) - David Walsh 2017-09-19 Techniques in the investigative interviewing and interrogation of victims, witnesses and suspects of crime vary around the world, according to a country's individual legal system, religion and culture. Whereas some countries have developed certain interview protocols for witnesses (such as the ABE Guidelines and the NICHD protocol when interviewing children) and the PEACE model of interviewing suspects, other countries continue to use physical coercion and other questionable tactics to elicit information. Until now, there has been very little empirical information about the overall interview and interrogation practices in non-western countries, especially the Middle

and Far East. This book addresses this gap, bringing together international experts from over 25 countries and providing in-depth coverage of the various interview and interrogation techniques used across the globe. Volume 1 focuses on the interviewing of victims and witnesses, aiming to provide the necessary information for an understanding of how law enforcement agencies around the world gain valuable information from victims and witnesses in criminal cases. Together, the chapters that make up this volume and the accompanying volume on interviewing suspects, draw on specific national case studies and practices, examine contemporary challenges and identify best practice to enable readers to develop an international, as well as a comparative, perspective of developments worldwide in this important area of criminal investigation. This book will be an essential resource for academics and students engaged in the study of

policing, criminal investigation, forensic psychology and criminal law. It will also be of great interest to practitioners, legal professionals and policymakers around the world. The Future of Policing - Jennifer M. Brown 2013-10-08

The police service in England and Wales is facing major challenges in its financing, political oversight and reorganisation of its structures. Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services. In the context of these proposed changes Lord Stevens, formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing. The Commission has a wide ranging remit and the papers in this book offer up-to-date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission. Bringing

together contributions from both key academic thinkers and police professionals, this book discusses new policing paradigms, lays out a case for an evidence-based practice approach and draws attention to developing areas such as terrorism, public order and hate crime. Policing is too important to be left to politicians, as the health of a democracy may be judged by the relationship between the police and the public. The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo. It will be of interest to both academics and students in the fields of criminology and policing studies, as well as professionals in the policing service, NGOs and local authority organisations.

Securing Sierra Leone, 1997-2013 - Peter Albrecht
2015-06-19

Between 1991 and 2002, Sierra Leone was wracked by a devastating civil war and the

complete collapse of state institutions. Since then, however, the UK's contribution to post-war reconstruction has been widely held up as an example of successful stabilisation and state-building – particularly of the country's security and justice institutions. *Securing Sierra Leone, 1997-2013* examines how the process of state-building through security-sector reform developed in Sierra Leone, and the impact of this experience on international conceptualisations of such reform as well as on international interventions more broadly. The study is the most detailed of its kind, based on a comprehensive analysis of UK engagement in Sierra Leone between 1997 and 2013, including a host of first-hand accounts from key local and international actors. This monograph shows why the UK intervention in Sierra Leone has been a relative success. However, it also questions the sustainability of state-building efforts that are driven by concepts of the liberal state. In

Sierra Leone, critical challenges remain, not least in the combination of a particular vision of what a state should look like and the unrealistic expectations of progress on the part of the international community.

Law, Policy and the Internet

- Lilian Edwards 2018-11-29

This comprehensive textbook by the editor of Law and the Internet seeks to provide students, practitioners and businesses with an up-to-date and accessible account of the key issues in internet law and policy from a European and UK perspective. The internet has advanced in the last 20 years from an esoteric interest to a vital and unavoidable part of modern work, rest and play. As such, an account of how the internet and its users are regulated is vital for everyone concerned with the modern information society. This book also addresses the fact that internet regulation is not just a matter of law but increasingly intermixed with technology, economics and politics. Policy developments are closely

analysed as an intrinsic part of modern governance. Law, Policy and the Internet focuses on two key areas: e-commerce, including the role and responsibilities of online intermediaries such as Google, Facebook and Uber; and privacy, data protection and online crime. In particular there is detailed up-to-date coverage of the crucially important General Data Protection Regulation which came into force in May 2018.

Deaths After Police Contact -

David Baker 2016-10-18

This book investigates death after police contact in England and Wales in the twenty-first century. It examines how regulatory bodies construct accountability in such cases. Cases of death after police contact have the potential to cause deep unease in society. They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life. People who are from Black, or Minority Ethnic backgrounds, or have mental health issues, or

are dependent on substances are disproportionately more likely to die in these cases, and this emphasises the sensitive nature of many of these deaths to society. Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases. The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases, rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths. It will be of great interest to scholars and upper-level students of policing and criminal justice.

Police Suicide - Richard Armitage 2017-06-21

This text makes a primary and informed contribution to a subject that is under-researched in the UK — the suicide of those who work in the UK police service — by offering an analysis of UK case studies of officers and staff who have either completed suicide or experienced suicide ideation, and referring to the likely prime

suicide precipitators in these situations. This analysis is followed by an examination of literature that discusses general and police-specific suicide. The text then examines intervention measures and support mechanisms that are currently offered to those working in the police service, as well as other measures that might be introduced in the future. Designed for criminal justice professionals and affected laypeople, including the families of those in the police service, *Police Suicide* is a crucial text for any who have an interest in the holistic and psychological welfare of police officers and staff.

Crime, Justice and Society in Scotland - Hazel Croall 2015-08-20

Crime, Justice and Society in Scotland is an edited collection of chapters from leading experts that builds and expands upon the success of the 2010 publication *Criminal Justice in Scotland* to offer a comprehensive and critical overview of Scottish criminal justice and its relation to wider

social inequalities and social justice. This new volume considers criminal justice in the context of the Scottish politics and the recent referendum on independence and it includes a discussion of the complex relationships between criminal justice and devolution, nationalism and nation building. There are new chapters on research and policy, sectarianism, gangs, victims and justice, organised crime and crimes of the powerful in Scotland, as well as chapters reflecting on the use of electronic monitoring, desistance and practice, and major changes in the structure of Scottish policing. Comprehensive and topical, this book is essential reading for academics and students in the fields of criminal justice, criminology, law, social science and social policy. It will also be of interest to practitioners, researchers, policymakers, civil servants and politicians.

Policing and Public Trust -

Eccy de Jonge 2020-11-24

The treatment of victims and complainants by the police is examined in this pioneering new work. Case studies, based on interviews carried out at the University of Portsmouth's Institute of Criminal Justice Studies, in the United Kingdom, reveal that victims and complainants are routinely discredited by police agencies. Whilst in the United States, victims may include anyone subjected to police interrogation, particularly those of African-American origin, complainants across the globe may include victims of rape, bereaved families, and individual officers. The reason why certain victims and complainants are targeted by policing agencies is complex and leads to an investigation

into police bias, covert practices, and one of the most common areas of policing: road death investigations.

Consequently, other members of the criminal justice system, such as prosecutors, coroners, and hospital pathologists (medical examiners) are shown to often corroborate the police's version of events compromising victims' rights and the very nature of justice. Given recent miscarriages of justice and public relation campaigns on behalf of the police, Eccy de Jonge argues that never before has a greater openness on the inner workings of the police been needed to fully support the interests of those the criminal justice system is meant to serve.

Police Services - Paresh Wankhade 2015-06-11

This volume provides fresh insights and management understanding of the changing role of policing against the backdrop of massive cuts in public expenditure experienced and the changing landscape of policing. The challenges of funding, training, online-crimes and cultural transformation are now felt globally. The need to learn and adapt from suitable models of police service delivery have never been greater. The book offers critical insights into the theory and practice of strategic and operational management of police services and the related professional and policy aspects. One of the highlights of this volume is to bring together scholarship using experts-academics, practitioners and professionals in the field, to each of the chosen topics. The

chapters are based in the practical experiences of the authors and are written in a way that is accessible and suitable for a range of audiences. We are confident that this book will cater to a wider audience to inform policy and practice, both in the UK and internationally. Sir Peter Fahy QPM, Chief Constable, Greater Manchester Police Policing across the world is facing an increasing complexity of demand and public expectation creating new challenges for leadership and management. The contributors to this work are among the leading thinkers in policing and present important new insights into both the past and the way forward. It will be welcomed by all those convinced that radical new approaches are required across the public services. Bill Skelly, Deputy Chief Constable, Devon and Cornwall Police, UK At times it feels that the focus on leadership in the police service is all about what went wrong; the negative influences of a tightly-knit culture; and the almost inevitable rise of the

technocrat. It is refreshing to read a book that seeks new insights into the positive influences of police leadership and offers the prospect of a more emotionally aware and spiritually rich approach as to how those insights may be practically employed for the benefit of all in the police family and the communities we serve.

Digital Lawyering - Emma Jones 2021-11-30

In today's rapidly changing legal landscape, becoming a digital lawyer is vital to success within the legal profession. This textbook provides an accessible and thorough introduction to digital lawyering, present and future, and a toolkit for gaining the key attributes and skills required to utilise technology within legal practice effectively. Digital technologies have already begun a radical transformation of the legal profession and the justice system. Digital Lawyering introduces students to all key topics, from the role of blockchain to the use of digital evidence in courtrooms, supported by contemporary

case studies and integrated, interactive activities. The book considers specific forms of technology, such as Big Data, analytics and artificial intelligence, but also broader issues including regulation, privacy and ethics. It encourages students to explore the impact of digital lawyering upon professional identity, and to consider the emerging skills and competencies employers now require. Using this textbook will allow students to identify, discuss and reflect on emerging issues and trends within digital lawyering in a critical and informed manner, drawing on both its theoretical basis and accounts of its use in legal practice. Digital Lawyering is ideal for use as a main textbook on modules focused on technology and law, and as a supplementary textbook on modules covering lawyering and legal skills more generally.

Asylum - A Right Denied -

Helen O'Nions 2016-04-15

In recent decades, asylum has emerged as a highly politicized European issue. The term 'asylum seeker' has suffered a

negative perception and has been associated with notions of illegality and criminality in mainstream media. These misconceptions have been supported by politicians as a distraction from economic and political uncertainties with the result that asylum seekers have been deprived of significant rights. This book examines the effect of recent attempts of harmonization on the identification and protection of refugees. It considers the extent of obligations on the state to admit and protect refugees and examines the 1951 Refugee Convention. The motivations of European legislators and legislation concerning asylum procedures and reception conditions are also analysed. Proposals and initiatives for refugee movements and determinations are examined and assessed. The author makes suggestions for better protection of refugees while responding to the security concerns of States, and questions whether European law and policy is doing enough to uphold the

fundamental right to seek and enjoy asylum as set out in the Universal Declaration of Human Rights. This book takes a bold look at a controversial issue and generates discussion for those involved in the fields of human rights, migrational and transnational studies, law and society and international law.

The New York City Police Department - John A. Eterno
2014-10-13

Studying the flagship New York City Police Department is critical to understanding policing and democratic society. An examination of the department by experts who have been studying it for years, The New York City Police Department: The Impact of Its Policies and Practices provides a frank and open discussion about the NYPD from an elite group of scholars with varying viewpoints and concerns. The authors in this book are uniquely qualified to discuss and analyze the intricacies of policies and their impact. Researchers working the streets of Brooklyn expose

stop-and-frisk policies. An expert academic covers marijuana arrest policies and their implications on citizens. The impact of the NYPD's development of innovative technology is demonstrated by a recently retired captain who worked on developing the department's real-time crime center. Presenting the insight of these and other experts, the book explores critical questions such as: How are victims of crime faring in the NYPD's performance management system? Does the NYPD manipulate crime reports to make them appear better? How does the NYPD handle mass demonstrations? How does the community view the NYPD? How can an individual start a grassroots movement to influence policy and practices? The book explores hiring, firing, and retention; analyzes crime-fighting strategies; discusses the drop in homicide rate in recent years; and reviews legal concerns and the response to public demonstrations such as the Occupy Wall Street movement. The final chapter

evaluates implications of the policies the NYPD follows and analyzes how it affects policing worldwide. A scintillating exposé on police culture and resistance to change, the book is destined to encourage enhanced social discourse on the topic for years to come.

Journalism in the Data Age -

Jingrong Tong 2022-03-05

This book is your guide to understanding what journalism is and could be in an age of digital technology and datafication. Journalism today is entwined with the digital.

Stories can come from crowdsourcing and content farms. They can incorporate data visualisations and virtual reality. Journalists can find themselves working as self-employed digital entrepreneurs or for tech giants like Google and Facebook. This book explores the development of journalism in this era of digital tech, and big and open data. It explores the crucial new developments of online journalism, data journalism, computational journalism and entrepreneurial journalism, and

what this means for our understanding of journalism as a profession, and as a part of society. Using a wealth of international case studies, Jingrong Tong explores contemporary issues such as: AI, Automated news, 'robot reporters', and algorithmic accountability. Digital business models, from venture capital to tech start-ups to crowd-funding. Audiences and dissemination in and age of platform capitalism. Questions of censorship, democracy and state control. Digital challenges to journalistic autonomy and legitimacy. With clear explanations throughout, *Journalism in the Data Age* introduces you to a range of ideas, debates and key concepts. It is essential reading for all students of journalism. Dr Jingrong Tong is Senior Lecturer in Digital News Cultures at the University of Sheffield.

The Routledge International Handbook of Human

Aggression - Jane L. Ireland
2018-01-03

Drawing upon international expertise, and including some of the most well-known academics and practitioners in the field, The Routledge International Handbook of Human Aggression is the first reference work to fully capture how our understanding of aggression has been refined and reconceptualised in recent years. Divided into five sections, the handbook covers some of the most interesting and timely topics within human aggression research, with analysis of both indirect and direct forms of aggression, and including chapters on sexual aggression, workplace bullying, animal abuse, gang violence

and female aggression. It recognises that, in many cases, aggression is an adaptive choice rather than a moral choice. Providing practitioners and academics with an up-to-date resource that covers broad areas of interest and application, the book will be essential reading for students, researchers and practitioners associated with a range of social science disciplines, including psychology, criminology, social work and sociology, particularly those with an interest in developmental, organisational, forensic and criminal justice allied disciplines.

Protest Policing and Human Rights - Michael Smith
2022-12-30

This book examines protest policing and the toolbox of options available to police commanders in response. The right to peacefully protest is intrinsic to democracy and embedded in British history and tradition. The police are responsible for managing public order and facilitating peaceful protest and this has not been

without criticism. On occasions, the police have found themselves in opposition to protest groups and there have been incidents of disorder as a result. In response, the development of Police Liaison Teams in the UK has presented the police with a gateway for dialogue between themselves and those involved in protest. Drawing on two contrasting case studies, the policing of the badger cull in South West England and an English Defence League (EDL) march in Liverpool, this book explores the experiences of police commanders, police liaison officers, protesters, counterdemonstrators, members of local businesses and other interested parties. It explores how a dialogical approach with all those engaged in or affected by a protest has assisted the police in balancing human rights and reducing conflict for all. An accessible and compelling read, this book will appeal to students, scholars and practitioners of policing, politics, criminology, sociology,

human rights and all those interested in how protests are policed.

Modern Police Leadership -

Mark Roycroft 2021-09-01

This edited textbook covers a range of key operational and strategic aspects of police administration, from experts who have both an academic and practitioner background. It sets out the modern challenges and demands facing the police and then covers the theory and practice of how to deal with such issues, including the leadership skills which are required at every level. These challenges are covered in sections on the use of force, international policing, investigation of new crimes and forensic investigation, counter-terrorism, intelligence, mental well-being, and community policing. Some of the key themes discussed include dealing with public demand for police services, diversity and

partnership/interoperability working locally, regionally and internationally. This book is designed at all levels of warranted officer and speaks to

undergraduate and postgraduate policing students with a range of pedagogic features including seminar and exam questions.
