Nimzo-Indian - Reinaldo Vera 2008

Chess Explained is a new series of books about chess openings. They are not theoretical works in the traditional sense, but more a series of lessons from a chess expert with extensive over-the-board experience with an opening. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what

specific knowledge you need to have. The Nimzo-Indian is one of the most important of all chess openings, and popular at all levels of play. The Nimzo has provided the backbone of the opening repertoire of a large portion of the world's top players over the last 80 years. It is considered a fully reliable defense, and provides winning chances for both sides as it leads to structures of great strategic variety and complexity. Key battlegrounds in the Nimzo include the blockade, IQP positions, the handling of unbalanced pawn-structures, and the struggle between bishop and knight. All these topics are covered in depth in this book, and an understanding of them will prove valuable in a much broader context than just the Nimzo-Indian.

Monet's Cat - Lily Murray 2021-08-31

Join artist Claude Monet as he chases his cat through his greatest works! Claude Monet's iconic house was

also home to a small white pottery cat. When this cat awakes from its nap and comes to life, it jumps into one of Monet's famous paintings! The cat can't be caught as it frolicks and meanders through Monet's greatest works, always just too far out of Monet's reach. Inspired by the actual porcelain cat that was prominently displayed in Monet's studio, this book offers a fun feline perspective and is a great way to teach kids about Monet's art.

War and Peace - Jacques Berchtold 2019-10-14
- Published on the occasion of the 100th anniversary of the creation of the League of Nations in 1919 - With a

preface by Antonio Guterres, Secretary General of the United Nations - Accompanies an exhibition at the Fondation Martin Bodmer, Geneva, in partnership with the United Nations Organization in Geneva and the Red Cross, from 5 October, 2019, to 16 February, 2020 Mankind has never ceased to think about, justify, prepare for, conduct and glorify war. Alongside this, there has always been a parallel endeavor to limit war's worst abuses, condemn it for its ravages, and imagine and work towards building a more just and peaceful world. The Martin Bodmer Foundation, a Swiss institution in UNESCO's 'Memory of the World' register, in partnership with the Red Cross and the United Nations Organization, is staging a show devoted to the contemporary realities of war and peace. The exhibition invites the public to reflect on how we think about war, and how peace

can be built. Under the direction of Pierre Hazan - a former war reporter and diplomatic correspondent, now an advisor in the mediation of armed conflicts - the exhibition and its catalogue are structured in three parts: the rise of conflict, war and the law, and the construction of peace. War & Peace brings together insights from literature, fine arts, anthropology, philosophy, psychoanalysis, law, and politics. Literary works, propaganda posters, photography, paintings, engravings, and archival documents illuminate the dialogue between humankind's warlike nature and the desire for peace.

Jacky Daydream -

Jacqueline Wilson
2008-09-04

Lots of Jacqueline Wilson's characters are well-known and well-loved by thousands of readers: Hetty Feather, Ruby and Garnet, Pearl and Jodie, Elsa, Lily and, of course, the brilliant Tracy

Beaker! But how much do you know about Jacqueline herself? Jacqueline takes a look back at her own childhood and teenage years in this captivating story of friendships, loneliness, books, family life and much more. She explores her past with the same warmth and lightness of touch that make her novels so special. Best of all, she reveals how she was always determined to be a writer; from the very first story she wrote, it was clear that this little girl had a very vivid imagination! But who would've guessed that she would grow up to be the mega-bestselling, award-winning Jacqueline Wilson? With original photographs and new illustrations by Nick Sharratt, this book is a delight for all of Jacky's fans, and a treat for any new readers too.

Divorce Sucks - Mary Jo Eustace 2009-09-18
Hock the platinum. Take down the vacation photos. Cancel the joint checking

account. There's no question . . . **Divorce Sucks**. And perhaps no one knows that better than author Mary Jo Eustace, whose ex-husband Dean McDermott married Tori Spelling a mere thirty days after their divorce was finalized. One part tell-all and one part guide to get readers on their feet after a bitter breakup, this hilarious addition to the bestselling **Sucks** series tells everything readers don't want to know about divorce - from what a phone call with a lawyer will cost; to how to handle your newer, younger replacement; to what Hollywood divorcees are actually thinking when they watch their ex walk the red carpet with a millionairess. Sometimes horrifying, sometimes gratifying, and never merciful, this book will give readers an inside look at one of today's most public divorces while reminding them - hey, it could always be worse.

Drew Struzan - Drew Struzan 2004

Drew Struzan is the best-kept secret in Hollywood. Over the last thirty years, he's created many of Hollywood's most memorable posters. His art touched generations of filmgoers with unforgettable images for The Star Wars Trilogy, Raiders of the Lost Ark, Indiana Jones and the Temple of Doom, The Phantom Menace, Bladerunner, First Blood, The Thing, Back to the Future I - III, Harry Potter and the Sorcerers Stone, and hundreds more. Finally, these posters, in addition to paintings from Drew's private collection, several limited edition works, book and album covers and more have been collected into one stunning full color volume, Drew Struzan: Oeuvre. Authors Jessie and Amy Horsting examine the unique forces shaping Struzan's career, his rise as an illustrator, and the perseverance required to succeed and thrive in a notoriously fickle industry.

Featuring a foreword by George Lucas, the book also focuses on the history of some ground-breaking posters, relates a few celebrity encounters, and offers commentary from Harrison Ford, Frank Darabont, Alice Cooper, Robert Zemekis, Jim Henson, and many others who have had close encounters with this giant talent.

Murder by Injection -
Eustace Clarence Mullins
2016-04-21

The present work, the result of some forty years of investigative research, is a logical progression from my previous books: the expose of the international control of monetary issue and banking practices in the United States; a later work revealing the secret network of organizations through which these alien forces wield political power-the secret committees, foundations, and political parties through which their hidden plans are implemented; and now; to the most vital issue of all, the manner in which these depredations affect the daily lives and health of American citizens. Despite the great power of the hidden rulers, I found that only one group has the power to issue life or death sentences to any American-our nation's physicians. I discovered that

these physicians, despite their great power, were themselves subjected to very strict controls over every aspect of their professional lives. These controls, surprisingly enough, were not wielded by any state or federal agency, although almost every other aspect of American life is now under the absolute control of the bureaucracy. The physicians have their own autocracy, a private trade association, the American Medical Association. This group, which is headquartered in Chicago, Illinois, had gradually built up its power until it assumed total control over medical schools and the accreditation of physicians. The trail of these manipulators led me straight to the same lairs of the international conspirators whom I had exposed in previous books. I knew that they had already looted America, reduced its military power to a dangerously low level, and imposed

bureaucratic controls on every American. I now discovered that their conspiracies also directly affected the health of every American. This conspiracy has resulted in a documented decline in the health of our citizens. We now rank far down the list of civilized nations in infant mortality and other significant medical statistics. I was able to document the shocking record of these cold-blooded tycoons who not only plan and carry out famines, economic depressions, revolutions and wars, but who also find their greatest profits in their manipulations of our medical care. The cynicism and malice of these conspirators is something beyond the imagination of most Americans. They deliberately mulct our people of millions of dollars each year through "charitable" organizations and then use these same organizations as key groups to bolster their Medical

Monopoly. Fear and intimidation are the basic techniques by which the conspirators maintain their control over all aspects of our health care, as they ruthlessly crush any competitor who challenges their profits. As in other aspects of their "behavioural control" over the American people, their most constantly used weapon against us is their employment of federal agents and federal agencies to carry out their intrigues. The proof of this operation may be the most disturbing revelation of my work.

The Rejection of Consequentialism - Samuel Scheffler 1994-08-11

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment,

he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

A Guide to the Birds of East Africa - Nicholas

Drayson 2009-03-05

For lovers of Alexander McCall Smith, Nicholas Drayson introduces the charming Mr Malik and the East African Ornithological Society in A Guide to the Birds of East Africa. Reserved, honourable Mr Malik. You wouldn't notice him in a Nairobi street - except, perhaps, to comment on his carefully sculpted comb-over - but beneath his unprepossessing exterior lie a warm heart and a secret passion. Not even his closest friends know it, but Mr Malik is head-over-heels in love with the leader of the local

Tuesday-morning bird walk, Rose Mbikwa. Little can he imagine the hurdles that lie before him. Even as he plucks up the courage to ask for Rose's hand, thieves, potential kidnappers and corrupt officials, not to mention one particularly determined love rival, seem destined to thwart Mr Malik's chances. Will an Indian gentleman in the heart of Africa be defeated by the many obstacles that stand between him and his heart's desire? Or will honour and decency prevail? 'A funny, ingenious and touching love story' Joanne Harris, The Times 'A delightful comedy... It invites comparison to The No.1 Ladies' Detective Agency books, but it's original and, if anything, has more depth' Daily Mail 'Sweet, charming and utterly wonderful on the subject of birds' Metro Nicholas Drayson was born in England and has lived in Australia since 1982, where he studied zoology and a PhD in 19th century

Australian natural history writing. He has worked as a journalist in the UK, Kenya and Australia, writing for publications such as the Daily Telegraph and Australian Geographic. He is the author of three other novels, Confessing a Murder, Love and the Platypus and A Guide to the Beasts of East Africa.

Law and Politics in Aztec Texcoco - Jerome A. Offner
1984-02-23

This book addresses two important deficiencies in the fields of Aztec studies and the anthropology of law. It is the first modern analysis of the legal system of any Aztec state and the first comprehensive study of the history and culture of Texcoco, the second most important Aztec city. Law controlled the institutions and processes that were of central importance in all Aztec societies, such as land tenure, inheritance, kinship relations, business, trade, and local and imperial administration. This analysis

of the Aztec legal system provides a guide to the poorly understood social and political structures of the various Aztec states and the political dynamics within these states. Legal change, internal factionalism, and Texcocan jurisprudence are examined as important indicators of social and cultural transformations. Offner has concentrated on discovering relationships inherent in the Aztec data rather than interpreting data in terms of externally derived evolutionary theories. By presenting Texcocan legal systems within the context of other major sociocultural subsystems, this work should provide students of Aztec society and of the anthropology of law with new and reliable findings for further substantive and theoretical elaboration.
