Classic Imaging Signs - Bo Gao 2020-11-06

This book systematically summarizes classic imaging signs' characteristics and theory for whole body imaging, serving as a clinical guide for the understanding, prevention, and diagnosis of miscellaneous entities. In recent years, with the rapid evolution of modern imaging modalities, radiology has secured an irreplaceable role in diagnosis within standard clinical practice and being familiar with radiological signs has become essential. The book provides a multimodality review of more than 300 commonly utilized radiologic signs in radiography, CT, MRI, US, angiography, and nuclear medicine, including PET-CT. It is designed to enhance recognition of specific imaging patterns and enable the image interpreter to confidently reach an accurate diagnosis. Divided into ten chapters dedicated to different anatomic areas, each sign includes detailed discussion that explains the history and meaning of the descriptive or metaphoric sign, alongside illustrative photos for memory aid and clarification. Uniquely written from a practical point of view, each case leads you through a radiology expert's thought process in analyzing the classic signs with considerations of common misinterpretations and imaging pitfalls. The cases then highlight clinical presentation, relevant pathology, anatomy, physiology, and pertinent imaging features of common disease processes. Key information is distilled into succinct, bulleted points with detailed illustrations and images. This book is an ideal reference and review for practicing radiologists, as well as trainees preparing for licensing examinations.

La raison des signes - Stella Georgoudi 2011-12-09

Le recueil compare les procédures de fabrication et d'interprétation des signes dans les sociétés polythéistes ou monothéistes de la Méditerranée ancienne. Il analyse les rites ou l'argumentation critique visant à endiguer les signes et à préserver l'initiative humaine face aux injonctions du destin. The essays compare the procedure of fabrication and interpretation of signs in the polytheistic and monotheistic societies of the ancient Mediterranean Sea. The writers analyze the rites or the critical argumentation intending to stem the signs and to preserve the human initiative facing the injunctions of destiny.
