Virtual Strangers - Lynne Barrett-Lee
2014-05-05

Fed up, frustrated and fast approaching forty, Charlie Simpson hasn't had many high points in her life just lately. The only peak on the horizon is her ambition to climb Everest, if she could only get organised and save up the cash. Unfortunately, though, she has more pressing things to deal with; her eldest son moving out, her father moving in, and her best friend moving two hundred miles away. She finds solace, however, via her newly acquired modem, when she stumbles upon a stranger who's a like-minded soul. Like-minded, perhaps, but no fantasy dream date. Though virtual, he's of the real-life variety - he may be a hero, but he has a wife. Charlie hasn't got a husband, but she certainly has principles, and they're about to be hauled up a mountain themselves. And, of course, her mum's always said she shouldn't talk to strangers. The question is, is now the time to start breaking the rules? 'A fantastic book that gets you hooked from the first page' New Woman 'It's wonderfully funny and rather inspiring...I enjoyed it hugely and I confess I read it all in one go, wolfing it down like a delicious box of chocolates' Judy Astley 'A charming and optimistic novel about modern love' - Hello Magazine 'A laugh out loud read' - Real magazine 'I absolutely loved it - hooray for

Bezimena - Nina Bunjevac 2019-05-29
The author's jumping-off point is the myth of Artemis and Siproites, in which a young man is turned into a woman as a punishment for the attempted rape of one of Artemis's virgin cohorts. Bunjevac's retelling follows Benny, a sexually deviant man who, coming across an alluring former classmate, concocts an elaborate, disturbing rape fantasy. Inked in her lush, stippled, illustrative style, Bunjevac crafts a gripping, noirish, Nabokovian tale, by turns surreal and harrowing, that turns the male gaze inside-out. *Bezimena* is both a radical examination of the misconceptions surrounding rape culture and an artistic and psychological tour de force.

The Millionaire Master Plan - Roger James Hamilton 2014-07-29

The Millionaire Master Plan is a unique and fresh approach as to how individuals can not only get a sense of where they stand on the spectrum of personal wealth, but more importantly, how they can learn to ascend from their present state to a higher level. Roger James Hamilton, himself a highly successful entrepreneur and successful investor, has designed nine steps - from barely surviving - all the way to the highest level of ultimate wealth for life - and he lays out his nine steps in an easy-to-understand color-coded manner that ranges from red (barely living paycheck-to-paycheck) all the way to ultra-violet (where generating income is simply no longer a worry). Along the way, the reader first takes a quick test to determine where one is on the financial spectrum, and then Hamilton provides key insights and practical tips as to how one can progress to the next level. You track your progress by ascending from one

color to the next.

Carl Barks - Carl Barks 2003

Interviews with the Disney artist who created Scrooge McDuck and many well-loved comic books. Disney artist Carl Barks (1901-2000) created one of Walt Disney's most famous characters, Scrooge McDuck. Barks also produced more than 500 comic book stories. His work is ranked among the most widely circulated, best-loved, and most influential of all comic book art. Although the images he created are known virtually everywhere, Barks was an isolated storyteller, living in the desert of California and preferring to labor without public fanfare during most of his career. He created work of such exceptional quality that he was accorded the greatest autonomy of any Disney artist. He is the only comic book artist ever to receive a Disney Legends award. The influence of Barks's work on such filmmakers as George Lucas and Steven Spielberg and on such artists as Gottfried Helnwein has extended Barks's significance far beyond the boundaries of comics. After Barks's death at the age of ninety-nine, Roy Disney praised him for his "brilliant artistic vision." *Carl Barks: Conversations* is the only comprehensive collection of Barks's interviews. It ranges chronologically from the very first one (with Malcolm Willits, the fan who uncovered Barks's identity) to the artist's final conversations with Donald Ault in the summer of 2000. In between are interviews conducted by J. Michael Barrier, Edward Summer, Bruce Hamilton, and others. Several of these interviews are published here for the first time. Ault's friendship with Barks, ranging over a period of thirty years, provides an unusually intimate resource not only for standard q&a interviews but also for casual conversations in informal settings. *Carl Barks: Conversations* reveals previously unknown information about the life, times, and opinions of one of the master storytellers of the twentieth century. Donald Ault, a professor of English at the University of Florida, is the author of *Narrative Unbound: Re-Visioning William Blake's The Four*

Zoas and Visionary Physics: Blake's Response to Newton. His work has been published in *Studies in Romanticism*, *The Wordsworth Circle*, *Modern Philology*, and *The Comics Journal*.

Open Space Technology - Harrison Owen 2009-03

This book, like all books, comes to an end, but that is by no means the end of the story of Open Space. In fact it is safe to say that we have barely begun. The total simplicity of Open Space (sit in a circle, create a bulletin board, open a marketplace, and go to work) contrasts radically

with the quality of results and speed of achievement. Th...

Comics in Translation - Federico Zanettin 2015-12-22

Comics are a pervasive art form and an intrinsic part of the cultural fabric of most countries. And yet, relatively little has been written on the translation of comics. *Comics in Translation* attempts to address this gap in the literature and to offer the first and most comprehensive account of various aspects of a diverse range of social practices subsumed under the label 'comics'. Focusing on the role played by translation in shaping graphic narratives that appear in various formats, different contributors examine various aspects of this popular phenomenon. Topics covered include the impact of globalization and localization processes on the ways in which translated comics are embedded in cultures; the import of editorial and publishing practices; textual strategies adopted in translating comics, including the translation of culture- and language-specific features; and the interplay between visual and verbal messages. *Comics in translation* examines comics that originate in different cultures, belong to quite different genres, and are aimed at readers of different age groups and cultural backgrounds, from Disney comics to Art Spiegelman's *Maus*, from Katsuhiro Ōtomo's *Akira* to Gosciny and Uderzo's *Astérix*. The contributions are based on first-hand research and exemplify a wide range of approaches. Languages covered include English, Italian, Spanish, Arabic, French, German, Japanese and Inuit. The volume features illustrations from the works discussed and an extensive annotated bibliography. Contributors include: Raffaella Baccolini, Nadine Celotti, Adele D'Arcangelo, Catherine Delesse, Elena Di Giovanni, Heike Elisabeth Jüngst, Valerio Rota, Carmen Valero-Garcés, Federico Zanettin and Jehan Zitawi.
