Epilepsy and Pregnancy - Torbjörn Tomson 1997
Epilepsy in pregnancy poses a serious threat to the mother and to her developing child. Even in previously well-controlled epilepsy, physiological changes in the mother during

pregnancy and also during labour and delivery can alter the pharmacokinetic drug (AED) therapy causing increased seizure frequency.

Pregnant Girl - Nicole Lynn Lewis 2021-05-04
An activist calls for better support of young families so they can thrive and reflects on her experiences as a Black mother and college student fighting for opportunities for herself and her child. *Pregnant Girl* presents

the possibility of a different future for young mothers--one of success and stability--in the midst of the dismal statistics that dominate the national conversation. Along with her own story as a young Black mother, Nicole Lynn Lewis weaves in those of the men and women she's worked with to share a new perspective on how poverty, classism, and systemic racism impact teen pregnancy and on how effective programs and equitable policies can help teen parents earn college degrees, have increased opportunity, and create a legacy of educational and career achievements in their families. After Nicole became pregnant during her senior year in high school, she was told that college was no longer a reality--a negative outlook often unfairly presented to

teen mothers. Nicole left home and experienced periods of homelessness, hunger, and poverty. Despite these obstacles, she enrolled at the College of William & Mary and brought her three-month-old daughter along. Through her experiences fighting for resources to put herself through college, she discovered her true calling and founded her organization, Generation Hope, to provide support for teen parents and their children so they can thrive in college and kindergarten-- driving a two-generation solution to poverty. Pregnant Girl will inspire young parents faced with similar choices and obstacles that they too can pursue their goals with the right support.

Chronicles Of A Gynaecologist - Tripti Sharan 2016-10-18

India has a high maternal mortality rate, a staggering 174 per 100,000 live births (2015). 'Women are not dying because of diseases we cannot treat. They are dying because societies have yet to make the decision that their lives are worth saving.' -Mahmoud Fathalla, past president of the International Federation of Gynecology and Obstetrics.

Pregnancy is not only an altered physiology, but also has profound psychological and social implications. Sometimes, these changing body dynamics are far reaching. *Chronicles of a Gynaecologist*, written by a celebrated doctor and inspired by the stories of real women, explores issues ranging from the largely preventable complications experienced during pregnancies, the myths

and superstitions surrounding them, to emotionally wrenching situations like postpartum depression. These compelling stories also touch upon topics that society tries to hide under the carpet, such as domestic violence, perversions, sexual orientation, rape and incest. The author tries to decipher the conundrum of women's lives at every step. Every story raises a curtain and promises to be a revelation.

Industrial Networks and Cinemas of India -

Monika Mehta 2020-12-13

This volume points to the limits of models such as regional, national, and transnational, and develops 'network' as a conceptual category to study cinemas of India. Through grounded and interdisciplinary research, it shows how film industries located

in disparate territories have not functioned as isolated units and draws attention to the industrial traffic – of filmic material, actors, performers, authors, technicians, genres, styles, sounds, expertise, languages, and capital, across trans-regional contexts -- since the inception of cinema. It excavates histories of film production, distribution and exhibition, and their connections beyond regional and national boundaries, and between places, industrial practices, and multiple media. The chapters in this volume address a range of themes such as transgressive female figures; networks of authors and technicians; trans-regional production links and changing technologies, and new media geographies. By tracking manifold changes in the

contexts of transforming media, and inter-connections between diverse industrial nodal points, this book expands the critical vocabulary in media and production studies and foregrounds new methods for examining cinema. A generative account of industrial networks, this volume will be useful for scholars and researchers of film studies, cinema studies, media studies, production studies, media sociology, gender studies, South Asian studies, and cultural studies.

Counselling for Maternal and Newborn Health Care

- World Health

Organization 2010

The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants

(SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. Counselling for Maternal and Newborn Health Care is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined.

Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labor; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a review at the end of

each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

came back with a bang. The way to success is not an overnight journey. Failures are inevitable and rejections are obvious. It is about hitting the iron again and again until it breaks, keeping the spirit indomitable unless you explore the invincible. This book brings to the readers stories of all those who have made it big in the Bollywood. It includes the struggle story of those who got cinema in inheritance and saga of outsiders for who the road was impregnable. Read it on to know how Amir Khan evolved as the perfectionist Khan, how tough it was for Raj Kapoor to set up the plinth of what is known today as the 'first family of Bollywood'. It covers the journey of the angry young man Amitabh Bachchan, the rejections he encountered, near fatal

accident he met, corruption allegations he battled and how he earned it all back on the eve of being pronounced bankrupt. Stars of Bollywood exemplify determination and dedication and are living legends. Each of them has worked extremely hard to make it where they are today. We bring to you their inspiring journey to motivate you to hit the milestone in your life. It mentions the days of penury spent by A.R. Rahman, the struggle taken up by Asha Bhosle with a child in her womb, Jackie Shroff's days in a chawl in Teen Batti and so on. The book is a valued possession, a memoir of your loved stars and can definitely be a great gift of wisdom for your loved ones.

the trade-off between maternal and child health created by variation in gestational weight gain has become more difficult to reconcile. *Weight Gain During Pregnancy* responds to the need for a reexamination of the 1990 Institute of Medicine guidelines for weight gain during pregnancy. It builds on the conceptual framework that underscored the 1990 weight gain guidelines and addresses the need to update them through a comprehensive review of the literature and independent analyses of existing databases. The book explores relationships between weight gain during pregnancy and a variety of factors (e.g., the mother's weight and height before pregnancy) and places this in the context of the health of the infant and the mother, presenting

specific, updated target ranges for weight gain during pregnancy and guidelines for proper measurement. New features of this book include a specific range of recommended gain for obese women. *Weight Gain During Pregnancy* is intended to assist practitioners who care for women of childbearing age, policy makers, educators, researchers, and the pregnant women themselves to understand the role of gestational weight gain and to provide them with the tools needed to promote optimal pregnancy outcomes.

international comparative analysis of law and practice relating to maternity protection at work in 185 countries and territories, comprising leave, cash benefits, employment protection and non-discrimination, health protection, breastfeeding arrangements at work and childcare. Expanding on previous editions, it is based on an extensive set of new legal and statistical indicators, including coverage in law and in practice of paid maternity leave as well as statutory provision of paternity and parental leave and their evolution over the last 20 years. The report also takes account of the recent economic crisis and austerity measures. It shows how well national laws and practice conform to the ILO Maternity Protection

Convention, 2000 (No. 183), its accompanying Recommendation (No. 191) and the Workers with Family Responsibilities Convention, 1981 (No. 156), and offers guidance on policy design and implementation. This report shows that a majority of countries have established legislation to protect and support maternity and paternity at work, even if those provisions do not always meet the ILO standards. One of the persistent challenges is the effective implementation of legislation, to ensure that all workers are able to benefit from these essential labour rights.

third gendered or trans populations, have been an enduring presence in the South Asian imagination—in myth, in ritual, and in everyday life, often associated in stigmatized forms with begging and sex work. In more recent years hijras have seen a degree of political emergence as a moral presence in Indian electoral politics, and with heightened vulnerability within global health terms as a high-risk population caught within the AIDS epidemic. *Hijras, Lovers, Brothers* recounts two years living with a group of hijras in rural India. In this riveting ethnography, Vaibhav Saria reveals not just a group of stigmatized or marginalized others but a way of life composed of laughter, struggles, and desires that trouble how we read queerness,

kinship, and the psyche. Against easy framings of hijras that render them marginalized, Saria shows how hijras makes the normative Indian family possible. The book also shows that particular practices of hijras, such as refusing to use condoms or comply with retroviral regimes, reflect not ignorance, irresponsibility, or illiteracy but rather a specific idiom of erotic asceticism arising in both Hindu and Islamic traditions. This idiom suffuses the densely intertwined registers of erotics, economics, and kinship that inform the everyday lives of hijras and offer a repertoire of self-fashioning beyond the secular horizons of public health or queer theory. Engrossingly written and full of keen insights, the book moves from the small pleasures of the everyday—laughter,

flirting, teasing—to impossible longings, kinship, and economies of property and substance in order to give a fuller account of trans lives and of Indian society today.

Transcultural Humanities in South Asia - Waseem Anwar 2022-03-16

This volume looks at the implications of transcultural humanities in South Asia, which is becoming a crucial area of research within literary and cultural studies. The volume also explores various complex critical dimensions of transculturation, its indeterminate periodisation, its temporal and spatial nonlinearity, its territoriality and intersectionality. Drawing on contributors from around the globe, the entries look at literature and poetics, theory and praxis, borders and nations, politics, Partition, gender and sexuality, the environment,

Title IX and the Protection of Pregnant and Parenting College

Students - Catherine L. Riley 2022-05-18

This book explores the discrepancies among what protections Title IX provides to pregnant and

parenting students, what colleges communicate, and what pregnant and parenting students actually experience. To actually protect pregnant and parenting students, the authors argue that a school must provide multifaceted support that is effectively communicated to an entire campus community, including students who are parenting, who are pregnant, and who may become pregnant. The first part of the book portrays the realities of pregnancy and parenting in college.

The chapters illuminate related Title IX applications, population demographics, how unplanned pregnancies in college occur, and physical and mental health challenges that these students often experience. The authors then discuss what compliance with Title IX

legally entails and why meeting it is often an afterthought. In the second half of the book, the authors use mixed-methods research to map the compliance landscapes of three schools in the southeast as examples: a large state school, a mid-size private university, and a small private college. Offering eye-opening interviews with pregnant and parenting students, interdisciplinary research, and proposals for multifaceted support and communication on college campuses, this volume will engage students, scholars, and activists with an interest in higher education administration, educational policy, reproductive health, bioethics, gender studies, and rhetoric. *The Fiji Fertility Survey* - 1975

The Goddess as Role Model - Heidi R.M. Pauwels 2008-10-09
This book seeks to understand the major mythological role models that mark the moral landscape navigated by young Hindu women. Traditionally, the goddess Sita, faithful consort of the god Rama, is regarded as the most important positive role model for women. The case of Radha, who is mostly portrayed as a clandestine lover of the god Krishna, seems to challenge some of the norms the example of Sita has set. That these role models are just as relevant today as they have been in the past is witnessed by the popularity of the televised versions of their stories, and the many allusions to them in popular culture. Taking the case of Sita as main point of reference, but comparing

Downloaded from
info.ucel.edu.ar on by

throughout with Radha, Pauwels studies the messages sent to Hindu women at different points in time. She compares how these role models are portrayed in the most authoritative versions of the story. She traces the ancient, Sanskrit sources, the medieval vernacular retellings of the stories and the contemporary TV versions as well. This comparative analysis identifies some surprising conclusions about the messages sent to Indian women today, which belie the expectations one might have of the portrayals in the latest, more liberal versions. The newer messages turn out to be more conservative in many subtle ways. Significantly, it does not remain limited to the religious domain. By analyzing several popular recent and

classical hit movies that use Sita and Radha tropes, Pauwels shows how these moral messages spill into the domain of popular culture for commercial consumption. *The Unofficial Joke Book of Midnight Sms* - Kuldeep Saluja

Nutrition During Pregnancy - Institute of Medicine 1990-01-01
In Part I of *Nutrition During Pregnancy*, the authors call for revisions in recommended weight gains for pregnant women. They explore relationships between weight gain during pregnancy and a

variety of factors (e.g., the mother's weight for height before pregnancy) and places this in the context of the health of the infant and the mother. They present specific target ranges for weight gain during pregnancy and guidelines for proper measurement. Part II addresses vitamin and mineral supplementation during pregnancy, examining the adequacy of diet in meeting nutrient needs during pregnancy and recommending specific amounts of supplements for special circumstances. It also covers the effects of caffeine, alcohol, cigarette, marijuana, and cocaine use and presents specific research recommendations.

THE F**K- UP CHRONICLES

- Sahiba Bawa 2020-01-13

"What can you say about a 22-year-old girl who saves an accidental druggo from killing himself and a whole batch of nincompoops from getting arrested by risking her own life? A hero, isn't it? Well, I call her an idiot, a stupid fool, a gorgeous, fabulous, bubbly, happy, talkative, bold chick! I call her my best friend... The one who helped me, a stupid phobic douchebag, recover from all his problems during his MBA. She never gave up on me. But today, she gave up on herself. She is dying, and if I don't make it in time we might just lose her forever." Inspired by a true story, the book deals with the tale of an odd group of friends – one girl and four boys – who studied together at a top B-school in India in

2009; now in 2019, the girl attempts suicide. Her best friend rushes to see her. He informs the other friends and they gather from different cities, cooking up stories to their wives. The story flies back and forth between two time periods – 2009 and 2019. It draws a sea of contrast between our tough, responsibility-laden married years of the 30s and the break-ups, make-ups, pressures of studies and placements of the 20s – an 'American Pie' like college life full of vivacity, parties, bakar, swirling rainbows in the head of an accidental druggo and a secret society of lesbians and bisexuals. A life that leads to a suicide attempt, unraveling an UNSAID story of wild DOMESTIC VIOLENCE existing across urban India. This story

Care - World Health**

Organization 2003

This guide provides a full range of updated, evidence-based norms and standards that will enable health care providers to give high quality care during pregnancy, delivery and in the postpartum period, considering the needs of the mother and her newborn baby. All recommendations are for skilled attendants working at the primary level of health care, either at the facility or in the community. They apply to all women attending antenatal care, in delivery, postpartum or post abortion care, or who come for emergency care,

and to all newborns at birth and during the first week of life (or later) for routine and emergency care. This guide is a guide for clinical decision-making. It facilitates the collection; analysis, classification and use of relevant information by suggesting key questions, essential observations and/or examinations, and recommending appropriate research-based interventions. It promotes the early detection of complications and the initiation of early and appropriate treatment, including time referral, if necessary. Correct use of this guide should help reduce high maternal and perinatal mortality and morbidity rates prevalent in many parts of the developing world, thereby making pregnancy and childbirth

My Name Is . . . - Sudha

Bhuchar 2014-06-18

When Gaby disappears from her Scottish home, it is assumed that her Pakistani father, Farhan, has kidnapped her. The spiralling headlines are only momentarily silenced when it emerges that Gaby may have fled of her own accord, choosing to spend her life in Pakistan. To the distress of her Scottish mother, Suzy, Gaby declares, "My name is Ghazala?", turning her back on "Gaby" and, seemingly, the West. This moving verbatim play reveals a cross-

cultural love story that began in late-seventies Glasgow, a world away from the frantic "tug of love" well documented in the world's press. A captivating new play about love, family and ever-shifting identities, **My Name Is . . .** tells the story behind an event that fleetingly hit headlines in 2006 and continues to resonate throughout the UK and beyond. It was first produced by Tamasha at the Arcola Theatre, London, on 30 April 2014, before the production transferred to the Tron Theatre, Glasgow, on 29 May 2014. **Cumulated Index Medicus** - 1999
