Many parents and teachers will tell you that for some children, remembering what they have learned during English lessons is a real challenge, especially if the words are totally out of context. Unless you have reviewed them repeatedly, your child will probably have trouble remembering the colors or farm animals that seemed so easy during the English course. So what are the best ways to enrich the English vocabulary of elementary school children and help them remember and reuse words when they need it?

Children proficient in other languages also show signs of enhanced creativity and mental flexibility. There is a "critical period" or "window of opportunity" when children learn languages best. Studies have shown that this is when children are between birth and six years old. The younger children are, the easier they will learn a second language. As they get older that ability diminishes. These easy and fun flashcards aim to help parents as a useful educational tool for kids to learn a new language.
