*Evil Eye, Jinn Possession, and Mental Health Issues* - G. Hussein Rassool 2018-08-16

Evil Eye, Jinn Possession, and Mental Health Issues raises awareness of the cultural considerations, religion and spirituality involved in the assessment of Muslim patients with mental health problems. The belief that Jinn spirits can cause mental illness in humans through affliction or possession is widely accepted among Muslims, meaning this belief is a crucial, but frequently overlooked, aspect of mental health problems with Muslim patients in psychiatric care. This book explores the nature of such beliefs, their relationship to mental health and the reasons for their importance in clinical practice. The book argues that it is vital to consider mental disorders as a multifactorial affair, in which spiritual, social, psychological and physical factors may all play a role. It suggests differential diagnostic skills may have an important part to play in offering help to those who believe their problems are caused by possession, and provides accessible literature on clinical issues and practice, interventions, management and evidence-based practice to help health workers achieve a better understanding of Muslim beliefs about possession and how to work with patients that hold such beliefs. Evil Eye, Jinn Possession, and Mental Health Issues is an essential manual for mental health professionals, social workers and psychologists. It should also be of interest to academics and students in the healthcare sciences.

**Contemplation:** - Malik Badri 2018-09-15

The human race is in crisis and very few of us - if any - are able to understand what is wrong with our lives and the world at large. How did this happen and how did humans become so 'disconnected' with humanity? Why are psychological disorders such as depression, anxiety, fear, and suicide on the increase, and why are conventional Western therapies unable to stem the tide? To approach this we must first look inside ourselves - to explore our own purpose in life and extend that principle to the rest of humanity. Despite the advances of modern Western psychology and the development of therapies that do help many, one area that is largely unexplored is that of the 'human spirit' and spirituality since it is more convenient to consider the human mind as 'machine' that responds to external stimuli. In this powerful exploration into the human mind and its relationship with the human spirit, Malik Badri invites the reader to open the door to self-discovery, purpose and spirituality through the practice of contemplation, reflection and meditation - understanding the true meaning and experience of spirituality as well as one's own place in Creation. Whilst central to worship in Islam, this will also be of great interest to, and help any reader wishing to explore the notion of spirituality whether as part of worship or simply as part of self development and inner healing.

*Navigating Diversity and Inclusion in Veterinary Medicine* - Lisa M. Greenhill 2013

This book addresses the continued lack of the diversity in veterinary medicine, the least inclusive of all medical professions. Effective navigation of the complexity of diversity and inclusion in veterinary medicine requires clear enumeration, recognition, and understanding of key issues, challenges, and opportunities. In a nation with rapidly changing demographics, public needs and expectations of the veterinary profession will continue to evolve. A more diverse scientific workforce is required to feed the veterinary profession, not just for the purposed of equity, but as necessity for its sustainability and relevance. The book lays out the history of diversity in the veterinary profession, in the context of historical changes and actions within US society. An overview of selected strategies from dental, pharmacy, and (human) medical schools is then offered. The impact of social constructs on career interest development is explored using the examples of race, gender, sexual orientation, and gender identity. Practical strategies for attracting preschool through undergraduate students to careers in the veterinary profession are presented, as well as metrics and tools to assess the impact of diversity and inclusiveness strategies. A systems approach to diversity and inclusiveness in the veterinary profession is called for in a manner that frames barriers as opportunities for improvement and progress. There is much that needs to happen to achieve professional inclusiveness and cultural competency, but the path to achieving this is clear. System-wide commitment, planning, execution, and continuous assessment will position the profession to better suit the population of the nation and the world that will be served. This is book is a call to action for consistent championship and cohesive approaches, and it provides a road map to building a sustainably inclusive future.

No-Win War - Zahid Hussain 2021-08-03

This book explores the post-9/11 relations between the US and Pakistan. The growing divergence between Washington and Islamabad has taken an already uneasy alliance to a point of estrangement. Yet, a complete breakup is not an option. The underlying cause of the tension, within the partnership the two had entered on 13 September 2001, has never been

fully understood. What is rarely discussed is how Pakistan's decision to ally itself with the US pushed the country into a war with itself; the cost of Pakistan's tight roping between alignment with the US and old links with the Afghan Taliban; and its long-term implications for the region and global security. This book elucidates implications for Afghanistan in the so-called war on terror while revealing US and Pakistan's foreign policy initiatives. The author explores all this through little known facts and through the players involved in this cloak and dagger game. The book tells the story behind the headlines: how equivocal is ISI's break with the Afghan Taliban fighting the coalition forces in Afghanistan; the shootout in Lahore involving a CIA agent; and the killing of Osama bin Laden.

**Practical Jinn Magick** - Corwin Hargrove 2018-07-18

Jinn Magick is simple to execute, and the results can be some of the best you will find in all occultism. Much has been written about The Fire Spirits, known as the Jinn (or Djinn), but books of practical Jinn Magick are rare. Hardly any exist, and those that do are often a disappointment. This book reveals a practical method for calling on the Jinn and receiving a response. There are forty-two rituals, and the magick can help with influence and passion or destruction and transformation. The rituals deal with reputation and the souring of love. Some rituals affect competition, uncover flaws, weaken others, improve your discipline or make somebody else burn out. Where you feel stuck, you can find release, and there are ways to create more abundance or make somebody else lose what they have. Rituals can create obsessive thoughts in others and make people see the best in you or the worst in another. They can help you seduce or cause somebody to be sexually disgusted by another person. Financial magick works to increase what you have and can make people appreciate your work or make others lose what money they have. There's great potential if you use your imagination. The magick can be subtle and delicate or life-changing and devastating, according to your wish. Most of the rituals can be modified and are directed at clear, practical results. The Jinn are neither angels or demons, but fire spirits, and they execute your magickal wishes with immense power. The magick may only work half the time, but when it does, it works with alarming intensity. The book is expensive, but that's because there's decades of research in here and these secrets should not be given to those who don't value them. Pay a fair price, do the work well, and you will get what you want.
