**Blueprint for Black Power** - Amos N. Wilson 1998

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

The Bachelors - Adalbert Stifter 2008-03-25

Portraying the friction between these two characters with keen psychological insight, Stifter's masterful bildungsroman explores conflicting attitudes to life and their existential effects: stillness and movement, light and dark, openness and withdrawal.

**Don't Waste Your Cancer** - John Piper 2011-01-27

How are we as Christians called to respond when cancer invades our lives, whether our own bodies or those of our friends and family? On the eve of his own cancer surgery, John Piper writes about cancer as an

opportunity to glorify God. With pastoral sensitivity, compassion, and strength, Piper gently but firmly acknowledges that we can indeed waste our cancer when we don't see how it is God's good plan for us and a hope-filled path for making much of Jesus. Don't Waste Your Cancer is for anyone touched by a life-threatening illness. It first appeared as an appendix in *Suffering and the Sovereignty of God*. Repackaged and republished, it will serve as a hope-giving resource for healthcare workers, pastors, counselors, and others caring for those with cancer and other serious illnesses. The booklets are also available in packs of ten.

*Montessori Madness* - Trevor Eissler 2009

"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. *Montessori Madness!* explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book asks parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what education should look like will never be the same"--Back cover.

Charlie has a story to tell, about his best friends Sinéad and James and the bad things that happened. But he can't tell it yet, at least not 'til he's worked out where the beginning is. Because is the beginning long ago when Sinéad first spoke up for him after Charlie got in trouble at school for the millionth time? Or was it later, when Sinéad and James followed the music and found each other? Or was it later still on that terrible night when something unspeakable happened and someone chose to turn a blind eye? This is the story of the dark heart of an Irish village, of how daring to be different can be dangerous and how there is nothing a person

will not do for love. This is the story of the Gamal.
