around the fingerboard. Each hand position is
introduced with exercises called "Target Practice,"
"Geography Quiz," and "Names and Numbers."

Following these exercises are tuneful cello duets
which have been specifically composed to require
students to play in that hand position. In this way,

find the hand positions and, once there, which
notes are possible to play. Using these pieces
(with names like "I Was a Teenage Monster,"
"The Irish Tenor," and "I've Got the Blues, Baby"),
position study on the cello has never been so

Technical Studies for the Cornet - Herbert L.

Clarke

There are many books written for the Piano, Violin, etc., entirely devoted to Technic. This Work is especially written to enable the Student, by practice and application, to overcome any obstacle which may occur in musical passages written for the Cornet. By controlling the Wind Power to play these Exercises as written, in one breath, the Student will acquire ENDURANCE without strain or injury. Train the Muscles which

control the Lips, to make them elastic and strong, as only a slight pressure is necessary, and not brute force. The highest as well as the lowest notes can be played with equal tone quality if practiced according to the instructions that precede each Study. Every Cornet Player should have reached a degree of excellence before attempting to play these Exercises. To become an Expert on the Cornet, one should be familiar with as many Cornet Methods as possible, and so gain the experience of each. Every Exercise in this Book is possible, and not so very difficult if practiced slowly at first, and not too long at a time. I have used them for my daily practice for years, and they have been the means of my reaching the highest notes after playing a two-hour Concert, also of preserving my lips so that they never tire, and what has been a help to me is surely good for other Cornet Players. You cannot expect to attain the highest point of excellence without hard work and perseverance. Never be perfectly satisfied with yourself. Try to make some improvement each day, feeling that it is a pleasure to have conquered that which seemed an impossibility at first. Do not neglect to correct immediately the least fault you make. Bad habits are easily formed, but are difficult to remedy. There are few Celebrated Cornet Soloists, although thousands play the instrument. Most players abuse their practicing by not knowing the proper way, and neglecting to pay

more attention to the elementary work. These Studies have been found to be excellent for Clarinet Players as well as Cornet Players. The Clarinet being a Wind Instrument also, all these Exercises will appeal to the Player of that Instrument by following the same instructions.
