Seaforth World Naval Review 2019 - Conrad Waters 2018-10-30
Now celebrating its tenth edition, World Naval Review provides an affordable yet authoritative summary of global naval developments over the past 12 months. Regional surveys of fleet evolution and procurement by editor Conrad Waters are supplemented by in-depth articles from a range of subject experts focusing on significant new warships, technological advances, and specific navies. Features in this edition include extended reviews of the new aircraft carriers USS Gerald R. Ford and HMS Queen Elizabeth, the largest ships ever to serve in their respective fleets. Technological subjects include assessments of naval communications by Norman Friedman and autonomous systems by Richard Scott, while David Hobbs' usual review of naval aviation is expanded to include a broader analysis of key trends over the last decade.

Never Look Away - Linwood Barclay 2010-03-02
Linwood Barclay is back with more unexpected twists and superb characters in a spine-tingling, mesmerizing thriller about a husband whose wife disappears, along with everything he thought he knew about their life together. David Harwood, a

reporter in Promise Falls, New York, is stressed out. The newspaper he works for is outsourcing jobs to India, he can't get a solid lead on the corrupt for-profit prison moving to town, and his wife, Jan, is struggling with a bout of depression. As a much-needed break, David and Jan decide to take their four-year-old son, Ethan, to a local amusement park for a day of ice cream, rollercoasters, and carefree fun. But revelry is quickly replaced by panic when, within an hour of arriving at the park, Ethan goes missing. Though he is soon found, panic escalates to full-blown terror when Jan suddenly disappears. Confused and worried, David finds himself desperately searching for any clue that could lead him to his wife - even if it means unraveling a tangle of lies and deception that become more complicated at every turn.

Represents an exploration of the relationship between imagination and reality as seen through the eyes of the dying Serge Valene, an inhabitant of a large Parisian apartment block.

Bodyscapes® - Allan I. Teger 2012

Can there be more than one reality at a time, and can we experience them both? These were the questions that led photographer and former psychology professor Allan I. Teger to create this collection of black and white Bodyscapes(R). At first glance, Bodyscapes appear to be landscapes; a second look shows that they are in fact nude bodies with small toys and miniatures set on them. Spanning a 35-year period, this collection shows more than 110 black and white images photographed in a single exposure without any post processing or manipulation. The body becomes the setting for golfing, skiing, mountain climbing, surfing, and other sports. Other images feature landscapes ranging from rolling farmlands to beaches and

outer space. They are fun, beautiful, and sensual, but always in good taste. This elegant portfolio of Teger's images is an ideal, reality-bending addition to any art photography library.

The Academy and French Painting in the Nineteenth Century - Albert Boime 1986

"Using words and works of both pupils and masters of the French Academy of Beaux-Arts, this fascinating book provides a wealth of information about the environment and studio practices of French official art from 1830 to 1890. Albert Boime describes the training of new pupils in the Academic ateliers, from the time they began and were set to copy engravings and casts to their copying of the old masters in the Louvre to their work before the live model and landscape painting out-of-doors. Boime's account includes not only a history of the transition from guild-controlled arts sanctioned by the church to an academic system sponsored by the state but also a reassessment of the positive role played by the Academy's teaching program in the evolution of the independent movements of the nineteenth century"--Publisher's description.

Nimzo-Indian - Reinaldo Vera 2008 Chess Explained is a new series of books about chess openings. They are not theoretical works in the traditional sense, but more a series of lessons from a chess expert with extensive over-the-board experience with an opening. It is as if you were sitting at the board with a chess coach answering your questions about the plans for both sides, the ideas behind particular moves, and what specific knowledge you need to have. The Nimzo-Indian is one of the most important of all chess openings, and popular at all levels of play. The Nimzo has provided the backbone of the opening repertoire of a large portion of the world's top players over the last 80 years. It is considered a fully reliable defense, and provides winning chances for both sides as it leads to structures of great strategic variety and complexity. Key battlegrounds in the Nimzo include the blockade, IQP positions, the handling of unbalanced pawn-structures, and the struggle between bishop and knight. All these topics are covered in depth in this book, and an understanding of them will prove valuable in a much broader context than just the Nimzo-Indian.

Alfred Jarry - Alastair Brotchie
2015-08-21

This long-awaited biography of Alfred Jarry reconstructs a life both "ubuesque" and pataphysical. When Alfred Jarry died in 1907 at the age of thirty-four, he was a legendary figure in Paris—but this had more to do with his bohemian lifestyle and scandalous behavior than his literary achievements. A century later, Jarry is firmly established as one of the leading figures of the artistic avant-garde. Even so, most people

today tend to think of Alfred Jarry only as the author of the play *Ubu Roi*, and of his life as a string of outlandish "ubuesque" anecdotes, often recounted with wild inaccuracy. In this first full-length critical biography of Jarry in English, Alastair Brotchie reconstructs the life of a man intent on inventing (and destroying) himself, not to mention his world, and the "philosophy" that defined their relation. Brotchie alternates chapters of biographical narrative with chapters that connect themes, obsessions, and undercurrents that relate to the life. The anecdotes remain, and are even augmented: Jarry's assumption of the "ubuesque," his inversions of everyday behavior (such as eating backward, from cheese to soup), his exploits with gun and bicycle, and his herculean feats of drinking. But Brotchie distinguishes between Jarry's purposely playing the fool and deeper nonconformities that appear essential to his writing and his thought, both of which remain a vital subterranean influence to this day.

Fine Little Day - Elisabeth Dunker
2015-09-03

Welcome to the world of *Fine Little Day*. Take a peek into the fascinating life of Elisabeth Dunker. This is a woman of many talents: blogger, writer, stylist, designer, photographer and artist. This, her first book, is filled to the brim with inspiring images of everything that she takes joy in. We meet her in the studio, where she presents her workplace and sanctuary, before she introduces us to one of her greatest loves – collecting! With colourful baskets, crochet potholders, vintage embroidery patterns, Scandinavian china and retro novels just as a

start... Next a tour of Elisabeth's own eclectic home. Bursting with colour and pattern, her Gothenburg apartment is an enviable mix of handmade blankets, vintage finds, bold printed wallpaper and fabrics, smart storage and classic Scandinavian furniture. She also gives us plenty of ideas for recreating the look, with quick and easy projects to try at home. Press flowers, re-use textiles in a patchwork, make pearl baskets, decorate wooden spoons or print a sweatshirt... Enjoy a trip out of the city as we are shown around Elisabeth's cabin in the woods, with atmospheric pictures of the beautiful Swedish countryside and yet more decorating ideas, this time with a more rustic feel. With home tours of Elisabeth's creative friends and partners we also meet Japanese artist Mogu Takahashi, Swedish illustrator Henning Trollbäck and hear about her successful collaboration with Swedish homewares brand House of Rym, to name a few. This inspiring book is full of pictures, fun and heart.

There are extremely useful 'Disorders' Fact Finder sections, there is advice on horse transport takes into account new research, and the latest information on equine passports and microchipping.

Phalaina - Alice Brière-Haquet 2022-09-06

We discover a new species of life form every day. But, every day, a species also disappears. The fly has 10 chromosomes, the hamster 22, the rat 42, the human 46, the chimpanzee 48, the cow 60, and the butterfly 380. London, 1881. There's something a little eerie about Manon - she's not like the other girls at the orphanage. Maybe it's her red eyes. Maybe it's her silence. Maybe it's the series of violent deaths that seem to follow her. What we do know: someone is hot on her tail. And there's a lot of money at stake in finding out where exactly she comes from - and what exactly she is. Concurrent to Manon's story are letters to Charles Darwin from Professor Humphrey, a scientist who has recently died under mysterious circumstances. Is it true that natural selection left humans at the top of the pyramid of life after all? Or in the process of evolution, was there something elemental that humans lost, something that connected us to the rest of life on earth? Who and what else is out there? In order to stay alive, Manon must untangle the mystery of her origins, and perhaps the origins of humanity as well. From French writer Alice Brière-Haquet and translated by PEN-award winning translator Emma Ramadan comes PHALAINA - the middle grade historical sci fi thriller you won't

be able to put down.

Brussels Art Deco - Cecile Dubois
2020-02-10

Art Deco, which essentially was an extension of the decorative Art Nouveau, developed in the Twenties, giving rise to the construction of a variety of buildings including the Centre for Fine Arts, private mansions, town houses and even the first apartment buildings. Drawing on multiple different sources of inspiration, the more geometric Art Deco became the epitome of luxury and refinement. This style conveyed the values of a middle class that celebrated its freedom after the unimaginable violence of the Great War. These were the Roaring Twenties, the jazz age, an era marked by a general loosening of morals and movement and speed, with the arrival of trans-Atlantic travel, cars and even the first airplanes. At the same time, Modernists argued in favour of a more rational, pared down architecture, which allowed for greater freedom of style and which was more likely also to meet the pressing demand for more housing after the war. This book discusses the personality of several key architects through a variety of architectural programmes, as well as giving an overview of an exciting era and offering readers some keys to identify the heritage that lines the streets of Brussels.

Could YOU Be Autistic? - Anne Cossé
2020-06-18

Libuše Niklová - Tereza Bruthansová
2014-03

"The second edition... includes some new facts as well as number of toys which we previously knew only from black and white photographs. We were able to make photo documentation and include it in the book. These are, for instance, her early rubber toys, such as the Elephant or Libuška, and many inflatables, including the Caterpillar and Little Horse, which has been re-introduced into the Fatra's product range. I have also updated the monograph with information on a touring retrospective exhibition which we showed in Zlín, Prague and Paris and included details of a permanent exhibition about Fatra in the Napajedla Town Museum which opened in June this year. The new edition is complete with a double page on Fatra and new toys made by Czech contemporary designers continuing in the tradition of Mrs Niklová's art work"--Publisher's web site.

The Ungovernable Society - Grégoire Chamayou 2021-05-03

Rebellion was in the air. Workers were on strike, students were demonstrating on campuses, discipline was breaking down. No relation of domination was left untouched – the relation between the sexes, the racial order, the hierarchies of class, relationships in families, workplaces and colleges. The upheavals of the late 1960s and early 1970s quickly spread through all sectors of social and economic life, threatening to make society ungovernable in the eyes of ruling

elites. This crisis was also the birthplace of the authoritarian liberalism which continues to cast its shadow across the world in which we now live. To ward off the threat, new arts of government were devised in business-related circles, which included a war against the trade unions, the primacy of shareholder value and a dethroning of politics. The neoliberalism that thus began its triumphal march was not, however, determined by a simple 'state phobia' and a desire to free up the economy from government interference. On the contrary, the strategy for overcoming the crisis of governability consisted in an authoritarian liberalism in which the liberalization of society went hand-in-hand with new forms of power imposed from above: a 'strong state' for a 'free economy' became the new magic formula of our capitalist societies. Grégoire Chamayou analyses this crisis as it was perceived and theorized in the 1970s by those who strove to defend the interests of business – that is, the ruling elites, especially in the United States, from which a far-reaching intellectual and political movement spread. The new arts of government they devised are still with us today and we can understand their nature and lasting influence only by re-examining the history of the conflicts that brought them into being.

The Inner Life of Animals - Peter Wohlleben 2017-11-07

From the New York Times-bestselling author of The Hidden Life of Trees. "The Inner Life of Animals will rock your world. This book shows us that animals think, feel and know in much the same way as we do."—Sy Montgomery, bestselling author of The Soul of an Octopus Through vivid stories of devoted pigs, two-timing magpies, and scheming roosters, The Inner Life of Animals weaves the latest scientific research into how animals interact with the world with Peter Wohlleben's personal experiences in forests and fields. We learn that horses feel shame, deer grieve, and goats discipline their kids. Ravens call their friends by name, rats regret bad choices, and butterflies choose the very best places for their children to grow up. In this captivating book, Peter Wohlleben follows the hugely successful The Hidden Life of Trees with insightful stories into the emotions, feelings, and intelligence of animals around us. Animals are different from us in ways that amaze us—and they are also much closer to us than we ever would have thought. "Wry, avuncular, careful and kind. . . Each story adds to a widening vision of intelligence, emotion and

relationship.”—The Guardian Published in Partnership with the David Suzuki
Institute
