

Mrcog Pass Mark L

Getting the books **Mrcog Pass Mark L** now is not type of challenging means. You could not deserted going like book buildup or library or borrowing from your links to gain access to them. This is an unconditionally easy means to specifically get guide by on-line. This online publication Mrcog Pass Mark L can be one of the options to accompany you next having further time.

It will not waste your time. agree to me, the e-book will no question tune you further situation to read. Just invest tiny become old to log on this on-line revelation **Mrcog Pass Mark L** as with ease as evaluation them wherever you are now.

SBA's and EMQs for MRCOG II -
Chinmayee Ratha 2016-02-15

This book is a comprehensive collection of questions in the "single best answer (SBA)" format for the MRCOG2 theory exam. This new format has been introduced in the exam paper from March 2015 and most candidates are still getting used to the change. This book will provide them ample opportunity to familiarize themselves with the concept and then practice answering the questions based on almost all subjects included in the MRCOG 2 theory syllabus. Preparing for the MRCOG2 exam is a daunting task for all Obstetrics and Gynecology doctors. The college constantly reforms the exam structure in an effort to optimize the evaluation process. The endeavor of the authors is to equip the candidates with a vision of the holistic nature of the exam so that they master the art of answering SBA questions.

Unofficial Guide to Practical Skills
- Emily Hotton 2014-04-07

'The Unofficial Guide to Practical Skills' follows on from 'The Unofficial Guide to Passing OSCEs', which has sold 8000 copies in 2 years. It covers over 50 practical skills for medical students, nurses, junior doctors, and other healthcare

professionals, including all of the core competencies- more than any other practical skills book on the market. Uniquely it is fully illustrated with over 200 color photos/illustrations, and has accompanying mark schemes to simulate real-life assessment, with model answers so students can check how well they are performing. This book has relevance beyond examinations, for post graduate further education and as a day-to-day reference for professionals

Assisted Reproduction Techniques -
Khalidoun Sharif 2012-03-26

Assisted reproduction techniques have led to the birth of 4 million babies worldwide. Assisted reproduction techniques (ART), in particular in-vitro fertilization and intra-cytoplasmic sperm injection, are the most advanced forms of infertility treatment. They involve numerous counseling, medical, surgical and laboratory-based steps. At each step various problems and complications could be encountered that challenge even the most experienced ART practitioners. Moreover, patients with complex medical disorders may require ART, presenting further challenges. Assisted Reproduction Techniques will stimulate resourceful thinking in the ART practitioner when

faced with these challenges. It outlines various management options, the reasoning behind them, and the evidence on which they are based to enable the practitioner to choose the most suitable solution for the needs of each patient. Written by 122 internationally renowned experts, *Assisted Reproduction Techniques* follows the patient's journey throughout the whole ART process, with chapters on: Counseling and preparation Ovarian stimulation Oocyte retrieval Embryo transfer The luteal phase The ART laboratory The male patient The ART pregnancy Each of the 100 concise chapters includes clinical cases, background, evidence-based practical management options, preventive measures and key-point summaries of the important details. *Assisted Reproduction Techniques* gives a wide-ranging practical guide to all those wishing to support couples who cannot conceive naturally.

EMQs for the MRCOG Part 2 - John Duthie 2006-06

This book provides a detailed guide for MRCOG candidates, including worked examples of specimen questions.

FRCS(Tr & Orth): MCQs and Clinical Cases - Vikas Khanduja 2014-02-10

A comprehensive set of practice questions for trainees preparing for the FRCS Trauma & Orthopaedics exam.

Intrauterine Growth Restriction - John Kingdom 2012-12-06

Intrauterine Growth Restriction: Aetiology and Management will be the first book to focus exclusively on this extremely important and common complication of pregnancy. There have been many recent developments in our understanding of the aetiology and pathogenesis of the condition as well as in screening, monitoring and therapy. This book is unique in that it covers both the aetiology and pathogenesis as well as clinical

management and also includes sections on definitions and potential future advances. Every aspect is covered by an international expert which will provide the reader with a valuable insight into this condition.

The Cervix - Joseph Jordan 2009-04-08

At over 600 pages, with more than 400 illustrations and photographs this text spans everything from embryology to the emotional trauma women undergo when their cervix is removed at hysterectomy. This is also the most up-to-date text in the field - The editors have referenced work to 2006 (and will continue to until the text goes to press), whilst still including all the classic research material and images where appropriate. Essential for gynecologists, oncologists, basic scientists especially those involved in HPV (viral) research, GPs, nurses, colposcopy practitioners, and sexual transmitted disease doctors The only definitive major clinical reference book published on the cervix for thirty years Including the most up-to-date research on HPV including up-to-date vaccine trial data Highly illustrated in colour including many surgical procedures Spanning the entire field from embryology to cancer to emotional trauma

International editorship, with leading names in the field Cervical cancer is the second biggest cause of female cancer mortality worldwide and therefore relevant to the developing and developed world Specific chapters related to management of cervical cancer in the developing world Summaries of recommendations by international bodies including the IARC conference (Lyon 2004), dealing with cervical cancer diagnosis and treatment The Editors, Jordan and Singer, are the co-founders of the British Society for Colposcopy and Cervical Pathology

Obstetrics & Gynaecology - David M.

Luesley 2016-03-30

Modelled after the current MRCOG curriculum, the new edition of this bestselling book provides all the information a specialist registrar in obstetrics and gynaecology or senior house officer needs during training or when preparing for the MRCOG examination. **Obstetrics & Gynaecology: An Evidence-based Text for MRCOG** covers the latest profession

MRCOG Part 1: 550 SBAs and MCQs -

Katherine Andersen 2013-06-14

Reflecting the new exam format, **MRCOG PART 1: 550 SBAs AND MCQs** offers the most up-to-date and comprehensive coverage of practice questions, for trainees preparing for the MRCOG Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 550 questions, reflecting the breadth of topics encountered in the actual exam. Answers feature concise descriptions to consolidate knowledge and understanding. Extensive evidence-based referencing to relate theory to clinical practice. Includes two complete mock papers to practice and improve exam technique. Visually-enhanced answers to improve understanding of key concepts.

Veterinary Clinical Skills - Emma K.

Read 2021-10-20

Provides instructors and students with clear guidance on best practices for clinical skills education. **Veterinary Clinical Skills** provides practical guidance on learning, teaching, and assessing essential clinical skills, techniques, and procedures in both educational and workplace environments. Thorough yet concise, this evidence-based resource features sample assessments, simple

models for use in teaching, and numerous examples demonstrating the real-world application of key principles and evidence-based approaches. Organized into nine chapters, the text explains what constitutes a clinical skill, explains the core clinical skills in veterinary education and how these skills are taught and practiced, describes assessment methods and preparation strategies, and more. Contributions from expert authors emphasize best practices while providing insights into the clinical skills that are needed to succeed in veterinary practice. Presenting well-defined guidelines for the best way to acquire and assess veterinary skills, this much-needed resource: Describes how to design and implement a clinical skills curriculum. Identifies a range of skills vital to successful clinical practice. Provides advice on how to use peer teaching and other available resources. Covers veterinary OSCE (Objective Structured Clinical Examination) topics, including gowning and gloving, canine physical examination, and anesthetic machine setup and leak testing. Includes sample models for endotracheal intubation, dental scaling, silicone skin suturing, surgical prep, and others. Emphasizing the importance of clinical skills in both veterinary curricula and in practice, **Veterinary Clinical Skills** is a valuable reference and guide for veterinary school and continuing education instructors and learners of all experience levels.

SBAs and EMQs for the MRCOG Part 2 -

Tahir Mahmood 2015

Specifically designed for the MRCOG exam part 2, SBAs and EMQs for MRCOG Part 2 will offer 500 questions mapped closely to the Royal College of Obstetrics and Gynaecology curriculum to help candidates prepare for the newly adapted exam. This book

features 250 Single Best Answers multiple choice questions and 250 extended matching questions with explanations and sources for further reading, ensuring effective self-assessment of knowledge and preparation for exam conditions. Providing a thorough assessment of the reader's knowledge of Obstetrics and Gynaecology this revision book will give candidates up to date and realistic preparation for the MRCOG exam part 2.

Revision Notes for the MRCOG Part 1 - Arisudhan Anantharachagan 2011-07-28

This concise revision text brings together the fundamentals of the basic sciences required for Obstetrics and Gynaecology trainees to pass the MRCOG Part 1 exam. A note-style format and over 100 illustrations make this the ideal revision guide to passing the exam.

Essential Revision Notes in Medicine for Students - Philip A. Kalra 2006

Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level.

Part 1 MRCOG Revision Notes and Sample SBAs - Neelanjana Mukhopadhaya 2020-12-10

A concise guide tailored towards the curriculum and current exam style of the MRCOG Part 1 examination for obstetricians and gynaecologists.

EMQs for the MRCOG Part 2 - Andrea Pilkington 2014-09-04

EMQs constitute 60% of the new MRCOG Part 2. This book contains 150 sample questions for candidates taking this examination.

MRCOG II Short Essay Questions - Parveen Abedin 2008-04-15

MRCOG Short Essay Questions is the essential aid for all trainees studying for the membership

examination of the Royal College of Obstetricians and Gynaecologists. This book contains 150 short essay questions, clearly structured to facilitate both learning and practice. Questions are divided primarily into obstetrics and gynaecology and secondly by main topics such as infertility, operative gynaecology and antenatal care. The answers are written in the form of bullet points; a format that not only clearly identifies the key points but also emulates the structure of the model answers given to the examiners by the RCOG. Khaldoun Sharif is a consultant in obstetrics and gynaecology at the Birmingham Women's Hospital, and has a proven track record as an author of MRCOG revision books. His co-author, Parveen Abedin recently passed the examination and has therefore provided invaluable insights that have ensured the content is both appropriate and up-to-date.

Gynaecology by Ten Teachers - Louise Kenny 2017-05-08

First published in 1919 as 'Diseases of Women', Gynaecology by Ten Teachers is well established as a concise, yet comprehensive, guide. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text.

MRCOG Part One - Alison Fiander 2016-10-13

A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCOG Part 1 examination.

MRCOG Part 2: 550 MCQs, EMQs and SAQs

- Rekha Wuntakal 2013-01-02

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam.

Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam. Answers feature concise rationales to consolidate knowledge and understanding. Extensive evidence-based referencing to relate theory to clinical practice.

OSCEs for the Final FFICM - Raj

Nichani 2016-07-28

Comprehensive coverage of key topics for the FFICM OSCE examination, based on actual exam questions and modelled to the curriculum.

Obstetrics by Ten Teachers - Louise

C. Kenny 2017-05-18

First published in 1917 as 'Midwifery', *Obstetrics by Ten Teachers* is well established as a concise, yet comprehensive, guide within its field. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and

additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text. Along with its companion *Gynaecology by Ten Teachers* the book will continue to provide an accessible 'one stop shop' in obstetrics and gynaecology for a new generation of doctors.

Perineal and Anal Sphincter Trauma -

Abdul H Sultan 2007-03-20

This book clarifies and explains perineal anatomy and the pathophysiology of anal incontinence as well as applied pharmacology. It also institutes the new recommended classification of perineal tears, and describes anal sphincter repair techniques. The emphasis is on correct post-operative management, management of pregnancy following previous anal sphincter injury, and prevention of anal sphincter tears. The book will interest students, colorectal surgeons, physiotherapists, midwives, continence advisors, labour wards and lawyers.

This is Going to Hurt - Adam Kay

2017-09-07

Now A Major BBC Series Starring Ben Whishaw. The multi-million copy bestseller and Book of the Year at The National Book Awards. 'Painfully funny. The pain and the funniness somehow add up to something entirely good, entirely noble and entirely loveable.' - Stephen Fry. Welcome to the life of a junior doctor: 97-hour weeks, life and death decisions, a constant tsunami of bodily fluids, and the hospital parking meter earns more than you. Scribbled in secret after endless days, sleepless nights and missed weekends, Adam Kay's *This is Going to Hurt* provides a no-holds-barred account of his time on the NHS front line. Hilarious, horrifying and heartbreaking, this diary is

everything you wanted to know – and more than a few things you didn't – about life on and off the hospital ward. Sunday Times Number One Bestseller for over eight months and winner of a record FOUR National Book Awards: Book of the Year, Non-Fiction Book of the Year, New Writer of the Year and Zoe Ball Book Club Book of the Year. This edition includes extra diary entries and an afterword by the author.

OSCES in Obstetrics and Gynaecology for MRCOG - 3 - Richa Saxena

2018-04-30

The Part 3 MRCOG is a clinical assessment of knowledge, skills, attitudes and competencies. Passing the Part 3 exam leads to the award of the Membership of the Royal College of Obstetricians and Gynaecologists (MRCOG) and remains the essential waypoint for UK trainees to pass from core training to higher training. Trainees must have passed MRCOG Parts 1 and 2 before they can sit the Part 3 exam (Royal College of Obstetricians and Gynaecologists). This book is a complete revision guide for students preparing for the MRCOG Part 3 examination. Beginning with an overview of training in obstetrics and gynaecology in the UK and basics of the exam, the following chapters provide step by step tips and advice on aspects of the exam, patient safety, communication with patients and colleagues, information gathering, application of knowledge, and clinical governance. The book features nearly 50 OSCE scenarios with variations that may be encountered in the exam, as well as clinical problems and their solutions. Related specialties such as anatomy, genetics, immunology, endocrinology, and psychology, are also discussed. Key points Complete revision guide for students preparing for the MRCOG Part 3 examination Features nearly 50 OSCE scenarios

that may be encountered in the exam Includes clinical problems and their solutions Discusses structure of the UK National Health Service and the role of midwives in the care of pregnant women

The Fallopian Tube in Infertility and IVF Practice - William L. Ledger

2010-03-29

The Fallopian tube has until recently been a neglected structure, bypassed by IVF and seen only as a tube that transports the egg to the uterus. More recently, its central role as the site of fertilization and early embryogenesis has been recognized, along with the major effects of tubal disease, such as chlamydia trachomatis, on fertility. Tubal surgery is an option for those women who avoid IVF because of anxiety about medication side-effects or for religious reasons. The tube is also the site for female sterilization and its reversal. This definitive guide to the Fallopian tube and its disorders collates all these topics, with authoritative text covering the spectrum of clinically relevant topics in a digestible fashion. It will be of interest to gynecologists, specialists in reproductive medicine and infertility and family planning, and others with interest in this fascinating and underestimated organ of reproduction.

Crash Course: 1000 SBAs and EMQs for Medical Finals - Philip Xiu

2018-10-23

Crash Course – your effective every-day study companion PLUS the perfect antidote for exam stress! Save time and be assured you have the essential information you need in one place to excel on your course and achieve exam success. This volume includes well over 1000 SBAs and EMQs for Medical Finals, which have been divided into 16 commonly tested areas of medicine, surgery and sub-specialities, allowing for thorough and efficient

revision by specialty. Questions have been completely rewritten and updated to reflect current clinical guidelines. Every question includes a clear answer as well as an extended explanation for each answer option, to enable you to quickly understand your strengths and weaknesses and to learn effectively from any mistakes. All information has been thoroughly checked and quality assured by expert Faculty Advisers, so you can be confident it is fully accurate and that questions most closely match current exam formats and topic coverage. This (print) volume also comes with BONUS access to the complete, enhanced eBook – this allows you to read as a 'regular', downloadable eBook, as well as to test yourself via the interactive-quiz function. Whether you need to get out of a fix or aim for a distinction Crash Course is for you! Provides whole exam coverage in one place - saves valuable revision time Quality assured by leading Faculty Advisors - ensures complete accuracy of information Completely updated questions matching the latest exam formats – confirm your understanding and improve exam technique fast Detailed answer explanations, including rationales why incorrect answers are wrong Updated to the latest clinical guidelines

Handbook of Obstetrics and Gynaecology - Barry G. Wren
2013-11-11

This second edition of the Handbook of Obstetrics and Gynaecology has become necessary because of the increasing growth in knowledge and changing ideas on Obstetrics and Gynaecology. Nevertheless, we have attempted to maintain the same basic approach and concepts to student learning as we evinced in the first edition. Any changes to the text are updating of existing practices and knowledge or correction of errors in

the original text. The Handbook is still a guide to achieving mastery of the undergraduate curriculum, but over the past five years we have realised the book is also widely used by general practitioners and nurses as well as undergraduate students. It is tempting to enlarge the handbook to encompass all the needs of diverse groups of health personnel, but we have resisted this desire. Instead, the Handbook of Obstetrics and Gynaecology can be regarded as a true guide to aid students in the application of knowledge to the clinical setting. In conjunction with one of the major recommended text books, this book provides a useful aid to students and general practitioners. I hope all who read it continue to find it useful.

BARRY G. WREN 1984 Chapter 1 History Taking and Physical Examination BARRY G. WREN GENERAL INSTRUCTIONAL OBJECTIVE The students will develop competence in taking a history and performing a physical examination so that obstetric or gynaecological abnormalities can be recognized and appropriate management initiated.

OSCEs for the MRCOG Part 2: A Self-Assessment Guide, 2nd Edition - Antony Hollingworth 2011-12-30 OSCEs for the MRCOG Part 2 is a thorough and practical self-assessment guide that will prove invaluable as you prepare for your MRCOG Part 2 oral examination. Based on the latest changes to the MRCOG syllabus Written by MRCOG examiners Ideal for revision and cramming, with marking schemes provided for you to work through OSCEs for the MRCOG Part 2 is designed to fully prepare you for your OSCE. This new edition will concentrate your theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination.

Part 3 MRCOG - Lisa Joels 2016-09-15

Written by two experienced RCOG examiners, both of whom have been involved in the development of the new Part 3 MRCOG examination, this book is essential reading for any trainee preparing to sit the exam. The authors clearly describe the breadth and depth of the curriculum modules and the professional behaviours that will be assessed in the five clinical skills domains. The text includes written examples of every module, links to eight videos showing candidates attempting four real Part 3 tasks, examiners' comments, and a detailed discussion of each example. The content will help candidates understand what is required to pass the examination and how to demonstrate their knowledge and skills to best effect. The book will also be useful for trainers preparing their trainees for the new exam. Based on the principles of good medical practice, there are practical tips here for doctors and obstetricians at all levels.

Tasks for Part 3 MRCOG Clinical Assessment - Sambit Mukhopadhyay 2018
Tasks for Part 3 MRCOG Clinical Assessment is a key resource for the new Part 3 MRCOG examination. Containing over 75 clinical tasks mapped to the Royal College of Obstetrics and Gynaecology curriculum, this practical guide helps candidates' apply core knowledge, skills and attitudes relevant to the day-to-day clinical practice. Split into 20 chapters, this resource offers wide curriculum coverage based on the principles of good medical practice providing a thorough assessment of the reader's knowledge. The number of tasks provided for different areas of study reflects the depth of knowledge and breadth needed for the exam so candidates can ensure a suitable amount of time is dedicated to key scenarios they may encounter. Each

task provides detailed instructions to the candidate, role player and the examiner with detailed explanations and further reading. Written by experts in the various fields, and edited by experienced examiners, Tasks for Part 3 MRCOG Clinical Assessment is essential reading for candidates preparing for the MRCOG Part 3 exam worldwide.

MRCOG Part 3: 50 Clinical Tasks - Vikram Sinai Talaulikar 2019-12-31
MRCOG Part 3: 50 Clinical Tasks is the ideal revision guide for candidates preparing for the MRCOG Part 3 examination. Tasks are arranged according to the MRCOG Part 3 syllabus and include detailed answers, while a separate full mock circuit allows candidates to practice under exam conditions. Presenting guidance on how skill domains are tested using task examples and featuring all different task formats likely to be encountered in the exam, this book provides essential revision to maximise chances of exam success. Key points Presents exam tasks split into three sections; first explaining skill domains, second following the syllabus, third a complete mock circuit
Written by authors with extensive experience running MRCOG Part 3 revision courses Gives practical advice on how to approach revision and useful tips to improve exam technique

MCQs for MRCOG - Richard de Courcy-Wheeler 2003-02-28
This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key

message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

Obstetrics and Gynaecology - David M. Luesley 2010

This second edition of the innovative text, modelled on the current MRCOG curriculum, provides all the information that is required by the trainee and specialist during training and when preparing for the MRCOG examination. This book is divided into three Parts - General, Obstetrics and Gynaecology. Sub-sections within these major areas are broadly based upon the elements of the curriculum that are highlighted within the RCOG trainee logbook. To ensure consistency of approach throughout the book, all elements within each Part have been written to a template structure, adherence to which has been strictly enforced by the expert editorial team. Each element opens with an introductory section of 'MRCOG standards', highlighting the 'Theoretical knowledge' and 'Practical skills' relevant to the discussion that follows. Within the discussion, clear sub-divisions of the text under standardized headings ensure ease of reference. Each element concludes with a brief list of key references as an aid to further study. Throughout the clinical elements of

the text the supporting evidence for efficacy of the interventions described has been presented according to the guidelines of the RCOG. Recommendations for medical, surgical, psychological and complementary treatment and diagnostic tests are all subject to this appraisal, a feature unique among obstetrics and gynaecology textbooks at this level. This textbook has established itself as an indispensable guide to the specialty for all trainee obstetricians and gynaecologists in preparation for the MRCOG examination and beyond.

A Practical Guide for Medical

Teachers - John Dent 2017-04-26

The Fifth Edition of the highly praised Practical Guide for Medical Teachers provides a bridge between the theoretical aspects of medical education and the delivery of enthusiastic and effective teaching in basic science and clinical medicine. Healthcare professionals are committed teachers and this book is an essential guide to help them maximise their performance. This highly regarded book recognises the importance of educational skills in the delivery of quality teaching in medicine. The contents offer valuable insights into all important aspects of medical education today. A leading educationalist from the USA joins the book's editorial team. The continual emergence of new topics is recognised in this new edition with nine new chapters: The role of patients as teachers and assessors; Medical humanities; Decision-making; Alternative medicine; Global awareness; Education at a time of ubiquitous information; Programmatic assessment; Student engagement; and Social accountability. An enlarged group of authors from more than 15 countries provides both an international perspective and a multi-professional approach to topics

of interest to all healthcare teachers.

Systems Biology of Cancer - Sam Thiagalingam 2015-04-09

An overview of the current systems biology-based knowledge and the experimental approaches for deciphering the biological basis of cancer.

The EBCOG Postgraduate Textbook of Obstetrics & Gynaecology - Tahir Mahmood 2021-10-31

This authoritative textbook provides a much-needed guide for postgraduate trainees preparing for the European Board and College of Obstetrics and Gynaecology (EBCOG) Fellowship examination. Published in association with EBCOG, it fully addresses the competencies defined by the EBCOG curriculum and builds the clinical practice related to these competencies upon the basic science foundations. Volume 1 covers the depth and breadth of obstetrics, and draws on the specialist knowledge of four highly experienced Editors and over 100 contributors from across Europe, reflecting the high-quality training needed to ensure the safety and quality of healthcare for women and their babies. It incorporates key international guidelines throughout, along with colour diagrams and photographs for easy understanding. This is an invaluable resource, not only for postgraduate trainees planning to sit the EFOG examination, but also for practising specialists looking to update their knowledge and skills to meet the ever-evolving complexity of clinical practice.

Postgraduate Orthopaedics - Paul A. Banaszkiwicz 2012-08-16

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis

is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children's/hands and upper limb and applied basic science. An introductory section gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you need this book.

Revision Notes for the FRCEM Intermediate SAQ Paper - Ashis Banerjee 2017-08-25

This is the only revision guide you will need to pass the FRCEM Intermediate examination. A new edition of the popular and successful Revision Notes for the MCEM Part B, this guide is mapped directly to the new FRCEM Intermediate syllabus. The book is tailored to match all areas on which you may be tested, allowing candidates to revise accurately and efficiently for this challenging exam. To ensure effective revision, information is presented in concise notes and bullet points with visually memorable tools, such as tables and diagrams. Each chapter contains high-quality example SAQs so candidates can practice their exam technique, and 'key points' and 'exam tips' boxes to highlight the most important information. Drawing on the authors' experience and expertise, Revision Notes for the FRCEM Intermediate SAQ paper is a trustworthy revision guide for this difficult and clinically focused examination, as well as a

useful reference guide for practicing emergency medical doctors.

Single Best Answers for MRCOG Part 2

- Brian A. Magowan 2016-09-19

Passing the MRCOG Part 2 exam is essential to complete further training in O&G, both in the UK and for many doctors across the world. There are two annual sittings in the UK, plus the candidates sitting in Bangladesh, Egypt, Hong Kong, India, Iraq, Jordan, Malaysia, Pakistan, Saudi Arabia, Sudan, UAE, West Indies and China. It is a notoriously difficult exam, with a pass rate of c. 20%. From March 2015 there will be a change to one of the two written papers for MRCOG Part 2. Single best

answer questions (SBAs) a new format – worth 40% of the total Part 2 mark. This book consists of 200 questions in the new SBA exam format, and will present a question followed by a detailed answer and feedback.

MCQs for MRCOG Part 1 - Richard de Courcy-Wheeler 2003-09-26

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory
