Investment Management, Stewardship and Sustainability - Iris H-Y Chiu
2023-02-09

This book brings together thought leadership from academia and leading figures in asset

management in key global jurisdictions, to pool together insights regarding the transformative visions and challenges for modern investment management, as well as best practices that realise the policy objectives in regulation and soft law.

The world of investment management is being challenged by new legal, regulatory and soft law developments to demonstrate that their practices cohere with the long-term needs of the saving population as well as public interest needs in financing global sustainability and social development. The chapters in this book uniquely bring together the views of academia and practice on the key developments that can transform the law and practice of investment management, including the EU's new sustainable finance reform package, the UK Stewardship Code 2020, and developments in the US regarding the fit between

fiduciary law for investment management and modern sustainability concerns. The book brings together the best of both worlds—critical thoughtful perspectives from academia and qualitative insight from the investment management industry. It will be of interest to researchers in law, investment management, business and management, practitioners in the investment management industry and their legal advisers, and policy-makers in the EU, UK and beyond who are grappling with the appropriate governance paradigms for bringing about more sustainable outcomes globally.

The Handbook of Personal Wealth

Management - Jonathan Reuvid 2006

This important guide, now fully updated for a second edition and once again endorsed by the Institute of Directors, has been written for high earners and wealthy individuals who are looking
