The Arabic Language - Anwar G. Chejne 1968

The Arabic Language was first published in

1969. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Arabic, with its rich literary heritage, is one of the major languages of the world. It is spoken by about one hundred million people inhabiting a wide and important area of the Middle East. Yet the language and its significant role in history are little known in the English-speaking countries except among specialists. This book will, it is hoped, help to introduce the language and demonstrate its importance to a wider audience. Professor Philip K. Hitti of Princeton University writes in the foreword: "Until recently Arabic studies in this country had been limited to the graduate level and confined to a few universities. Since World War II they have inched their way to the undergraduate curriculum of a small number of universities. But they are still top-heavy and anemic. They will so remain unless they send their roots deeper down

into high schools and enlist the interest of a widening circle of nonspecialists. "Hence the value of this work by Professor Chejne. It is a commendable attempt to introduce the Arabic language, with its features and problems, to students and nonspecialists, to tell the story of its dramatic evolution from a tribal dialect to one of the few carriers of world culture, to indicate its unique relation to the religion of Islam and its role in the development of modern Arab nationalism. The book, written in a language intelligible to the layman, sums up what is already known and presents the contribution of the author."

Extremist Shiites - Matti Moosa 1988-02-01
Little is known in the West about the division of the Islamic world into Shiites and Sunnites and even less about the stratification of these two groups, with most of the attention going to the Sunnites. Moosa's comprehensive study of the origins and cultural aspects of the different extremist, or Ghulat, Shiite sects in the Middle East is a ground-breaking work. These sects whose 'extremism' is essentially religious are

generally a peaceful people and, except for the Nusayris of Syria, are not political activists.
Said the Prophet of God - Joel Blecher 2018
Although scholars have long studied how Muslims authenticated and transmitted Muhammad's sayings and practices (hadith), the story of how they interpreted and reinterpreted the meanings of hadith over the past millennium has yet to be told. Joel Blecher takes up this charge, illuminating the rich social and intellectual history of hadith commentary at three critical moments: classical Andalusia, medieval Egypt, and modern India. Weaving together tales of public debates, high court rivalries, and colonial politics with analyses of contemporary field notes and fine-grained arguments adorning the margins of manuscripts, Said the Prophet of God offers new avenues for the study of religion, history, anthropology, and law.

Historical Dictionary of Islam - Ludwig W. Adamec 2016-12-14

Muslims believe that the Koran is God's message in Arabic, revealed through the medium of the Prophet Muhammad for the guidance of the Arabs and subsequently for all humanity. There is both unity and variety in the Islamic world. Muslims are not a homogeneous people who can be explained solely by their normative texts: the Koran and the Sunnah. Muslims differ vastly in their interpretation of Islam: modernists want to reinterpret Islam to adapt to the requirements of modern times while traditionalists tend to look to the classical and medieval periods of Islam as their model of the Islamic state. This third edition of Historical Dictionary of Islam contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on major sects, schools of theology, and jurisprudence, as well as aspects of Islamic culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Islam.

[The Book of the Jihad of 'Ali ibn Tahir al-Sulami \(d. 1106\)](#) - Niall Christie 2017-07-05

In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled Kitab al-Jihad (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete

understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

The Gnostic Bible - Willis Barnstone 2006

A landmark work of scholarship and literary translation, The Gnostic Bible presents the most significant and beautiful sacred texts of gnostic mysticism. The gnostics were religious thinkers who believed that salvation is found through mystical knowledge and personal religious experience. Gnostic writings offer striking perspectives on both early Christian and non-Christian thought. Dating from the first to the thirteenth centuries, the selections in this volume represent Jewish, Christian, Hermetic, Mandaeen, Manichaeen, Islamic, and Cathar forms of gnostic spirituality, and their sources include Egypt, the Greco-Roman world, the Middle East, Syria, Iraq, China, and France. These texts show that gnosticism was a world religion that sought truths in a wide variety of traditions and expressed those truths in

powerful and provocative mystical poetry and prose. This is the first time that such a diverse collection of ancient gnostic texts has been published in a single volume, and many of the texts have never before been translated into English.

The Book Of Remembrances - Imam Yahya ibn Sharaf an-Nawawi 2014-01-01

The Book Of Remembrances [Kitab al-Adhkar] - By Imam Yahya ibn Sharaf an-Nawawi Kitab al-Adhkar is the definitive compilation of words of remembrance and glorification of (dhikr), and supplicatory prayer to (du'a), the Lord of the Universe, as related from His final Emissary, the Prophet Muhammad (may Allah bless and exalt him). Dhikr and du'a lie at the very heart of the din, the relationship between creature and Creator. As part of the Sunna or Prophetic Way, they are a divinely appointed means of

approaching Allah Most High for all our needs, and of making use of all the moments of daily life to strengthen our tawhid, the existential and cognitive Unity that is the hallmark of Muslim spirituality. Also covered are the vital principles of speaking only what is good and avoiding the sins of the tongue. The author, Muhy al-Din Yahya ibn Sharaf al-Nawawi (631-676/123-1277) devoted his entire life to the pursuit of sacred knowledge. He is revered throughout the Sunni world as one of its greatest authorities. Among his most famous writings are the Arba'in, a collection of forty Hadiths; a commentary on the Sahih of Imam Muslim; and Kitab al-Adhkar. Designed as a reference guide and a source of inspiration, this volume presents a clear and elegant English translation of Imam al-Nawawi's classic, together with the text of every single prayer and invocation, both in Arabic letters and in romanisation. Also included are all the authors statements about those Hadiths which he related personally from his own teachers, and

his guidance on the correct spelling and meanings of rare words and names. Finally, al-Nawawi's comments on the sources of Hadiths are supplemented by further scholarly notes. Islam and Liberation Theology - Asghar Ali Engineer 1990

Also studied in depth for the first time is the question of the identity of

the sect through the Alaw -Sunn -Sh triangle.
The Legacy of Jihad - Andrew G. Bostom, M.D.

2010-12-29

This book reveals how, for well over a millennium and across three continents - Asia, Africa, and Europe - non-Muslims who were vanquished by jihad wars became forced tributaries (called dhimmi in Arabic) in lieu of being slain. Under the dhimmi religious caste system, non-Muslims were subjected to legal and financial oppression, as well as social isolation. Extensive primary and secondary source materials, many translated here for the first time into English, are presented, making clear that jihad conquests were brutal, imperialist advances, which spurred waves of Muslims to expropriate a vast expanse of lands and subdue millions of indigenous peoples. Finally, the book examines how jihad war, as a permanent and uniquely Islamic institution, ultimately regulates the relations of Muslims with non-Muslims to this day. Scholars, educators, and interested lay

readers will find this collection an invaluable resource.

Sahih al-Bukhari: English Translation and Explanatory Notes, Volume 1 - Dr Zahid Aziz

Islamic Art and Spirituality - Seyyed Hossein Nasr 1990-01-01

With remarkable breadth of vision, Seyyed Hossein Nasr reveals for both Western and Muslim readers how each art form in the Islamic tradition is based upon a science of nature concerned, not with the outer appearance of things, but with their inner reality. Ranging across calligraphy, painting, architecture, literature, music, and the plastic arts, Nasr penetrates to the inner dimension of Islam and shows the role art plays in the life of individual Muslims and the community as a whole—the role of inspiring the remembrance and contemplation of God. Once the author establishes art as an aid and support to the spiritual life, he traces the creative act to its ultimate source: inner knowledge and barakah, or grace, which make the crystallization of inner realities in form and space and time possible. Through this

knowledge and grace, the author asserts, unity manifests upon the plane of multiplicity, making archetypal realities perceivable by the senses. Through this knowledge and grace, art functions as a ladder for the journey of the soul from the visible to the invisible. How Islamic art leads man to the inner chamber of divine revelation forms the substance of much of this important work. An especially close look is given to the Sufi tradition within Islam, for its mystical teachers have often clearly demonstrated in their works the spiritual significance of beauty and served as the source of inspiration for art. By rediscovering the root of art in the Islamic tradition, Seyyed Hossein Nasr opens doors to new dimensions of unity which have seemingly been obscured in recent Western art. In so doing, he extends the significance of this book beyond the Islamic belief system to touch the hearts and creative impulses of readers from all traditions.

When the Abbasids overthrew the Umayyads in 750 CE and ushered in Islam's Golden Age, ideas about gender and sexuality were central to the process by which the caliphate achieved self-definition and articulated its systems of power and thought. Nadia Maria El Cheikh's study

reveals the importance of women to the writing of early Islamic history.
