Accounting Education Research

- Richard M.S. Wilson

2015-04-10

An annual prize is awarded for the best paper appearing in *Accounting Education: an international journal*, and this book contains the prize-winning papers for every year from 1992 to 2012. The journal's primary mission since the first issue was published in March 1992 has been to enhance the educational base of accounting practice, and all the papers in this book relate to that mission. These papers, reporting on research studies undertaken by

accounting education scholars from around the world, build on research findings from the broader domain of education scholarship and embrace a wide array of topics – including: curriculum development, pedagogic innovation, improving the quality of learning, and assessing learning outcomes. Of particular interest are three themes, each of which runs through several of the papers: students' approaches to learning and learning style preferences; ethics and moral intensity; and innovation within the accounting curriculum. Accounting educators will find many ideas in the book to help them in enriching their work,

and accounting education researchers will be able to identify many points of departure for extending the studies on which the papers report – whether comparatively or longitudinally. This book is a compilation of papers originally published in Accounting Education: an international journal.

Introduction to Management Accounting, Chap. 1-14 -

Charles T. Horngren 2005

Make the right decisions with Horngren/Sundem/Stratton! Horngren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text

chapters and also appears in many of the text features: "Making Managerial Decisions" boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in

your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist online homework with automatic grading and infinite practice for students).

The Routledge Companion to Accounting History - John Richard Edwards 2020-05-06
The Routledge Companion to Accounting History presents a single-volume synthesis of research in this expanding field, exploring and analysing accounting from ancient civilizations to the modern day. No longer perceived as the narrow study of how a mysterious technique was used

in past, the scope of accounting history has widened substantially. This revised and updated volume moves beyond the history of accounting technologies, accounting theories and practices and the accountants who applied them. Expert contributors from around the world explore the interfaces between accounting and the economy, society, culture and the polity. Accounting history is shown to offer important insights into such disparate phenomena as the evolution of capitalism, control of labour, gender and family relationships, racial exploitation, the operation of religious organisations, and the functioning of the state.

Illuminating the foundation and development of accounting systems, this updated, classic book opens the field to a new generation of accounting scholars and historians around the world.

Advances in Accounting - Philip M J Reckers 2006-07-04

The twenty-second volume of Advances in Accounting continues to provide an important forum for discourse among and between academic and practicing accountants on issues of significance to the future of the discipline.

Emphasis continues to be placed on original commentary, critical analysis and creative research – research that

promises to substantively advance our understanding of financial markets, behavioral phenomenon and regulatory policy. Technology and aggressive global competition have propelled tremendous changes over the two decades since AIA was founded. A wide array of unsolved questions continues to plague a profession under fire in the aftermath of one financial debacle after another and grabbing with the advent of international accounting standards. This volume of Advances in Accounting not surprisingly includes several articles reflective on auditor independence, auditor tenure,

auditor rotation and non-audit service fees. This volume also looks at challenges facing the academic community with respect to pressures placed on faculty to publish; a data driven commentary is provided by the in-coming editor of the European Accounting Review. Other papers examine the use of financial data to estimate risk premiums, and measure the operating efficiency of firms; and re-examine market reaction to quarterly earnings. AIA continues its commitment to the global arena by publishing several papers with an international perspective. As never before the accounting profession is seeking ways to

reinvent itself and recapture relevance and credibility. AIA likewise continues to champion forward thinking research.

*Addresses the role of the auditor *Investigates how financial data is represented, used, and received *Scope of content is international

Managerial Accounting - Jerry J. Weygandt 2017-10-16

Managerial Accounting provides students with a clear introduction to fundamental managerial accounting concepts. This edition helps students get the most out of their accounting course by making practice simple.

Designed for a one-semester, undergraduate Managerial

Accounting course, the authors provide new opportunities for self-guided practice allowing students to check their knowledge of accounting concepts, skills, and problem solving techniques and receive personalized feedback at the question, learning objective, and course level. Newly streamlined learning objectives help students use their study time efficiently by creating clear connections between the reading and video content, and the practice, homework, and assessment questions. Using metric units and companies with a more global feel, this new text is ideal for courses across the world.

Cost Accounting: Principles & Practice, 12th Edition - M.N.

Arora 2000

A UGC recommended textbook for various commerce graduate programmes like B.Com, BBA, BBM and BBS. Also useful for CA, CS, ICMA, M.Com and MBA. The revised edition of *Cost Accounting—Principles and Practice* gives students a thorough grounding in cost concepts, cost behaviour, and costing methods. The subject matter has been presented in a student-friendly, systematic and intelligible manner. Every discussion involving conceptual difficulties is immediately followed by a numerical example. A large number of

charts and diagrams bring to light finer points of the subject and make it easily comprehensible. The subject matter has been organized on 'first things first' basis to sustain the interest of the students.

Additional problems and solutions have been included in the Appendix to help students.

Managerial Accounting: Asia-Pacific Edition - John Sands

2018-10-01

Managerial Accounting is characterised by a strong pedagogical framework and a

dynamic and practical approach that directly demonstrates how students can develop their careers in real life. The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method, and uses □Staircase□ exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book. This title uses easy-to-understand, student-friendly language, uncomplicated examples, a logical discussion of concepts that matches student learning

processes, and clear visual explanations that support student understanding.

Principles and Practice of Cost Accounting for Accountants, Manufacturers, Mechanical Engineers, Teachers and Students - Frederick Henry Baugh 1915

Cornerstones of Managerial Accounting - Maryanne M. Mowen 2015-01-01

Equip your students with the managerial accounting knowledge they need to become influential business leaders with the unique integrated learning system in **CORNERSTONES OF MANAGERIAL ACCOUNTING,**

6E. Based on extensive research, the **CORNERSTONES** approach presents materials the way today's students learn. The step-by-step **CORNERSTONES** approach helps students establish a strong foundation before moving forward.

Students master the basics more quickly so they can transition to analyzing and applying concepts. Rather than focusing on concepts in isolation, the text presents accounting as a system-emphasizing how the end result changes based on how the numbers affect each other. **CORNERSTONES OF MANAGERIAL ACCOUNTING's**

well-rounded approach helps students master basic managerial accounting concepts, explore the interrelationships of key variables, make sound decisions based on careful analysis, and apply their skills to business situations. Important

Advances in Management Accounting - Mary A. Malina
2017-10-20

Advances in Management Accounting (AIMA) is a publication of quality applied research in management accounting. The journal's purpose is to publish thought-provoking articles that advance knowledge in the management accounting discipline and are of interest to both academics and practitioners.

The Triple Bottom Line - Adrian Henriques
2013-06-17

The concept of the 'triple bottom line' (TBL) - the idea that

business activity can simultaneously deliver financial, social and environmental benefits - was introduced in the early 1990s. A decade on, The Triple Bottom Line: Does it All Add Up? brings together the world's leading experts on corporate responsibility to assess the implications, benefits and limitations of the TBL. This collection provides a review of what has already been achieved in stimulating change in corporate culture and bringing businesses to an appreciation of the importance and benefits of corporate social responsibility (CSR) and good environmental performance. It further explores the conceptual

and practical limits of the metaphor of the TBL and sets out what can be achieved through regulation and legislation, presenting detailed professional procedures for environmental accounting and management and social auditing. The contributors' wealth of experience and insight provides a vivid picture of how much attention is now being focused by businesses on delivering more than just financial targets, and they clearly outline the necessary steps for successfully continuing along this trajectory.

The Routledge Companion to
Cost Management - Falconer
Mitchell 2013-08-22

Over the last two decades, cost
management has been an area
of dynamic change and
development. This is evident in
the extensive inventory of new,

high-profile techniques that have emerged. With cost management now firmly established as a distinct sub-discipline within management accounting, *The Routledge Companion to Cost Management* is a timely reference volume covering both practical developments and research in this area. Topics covered include: Cost control issues Cost analysis and decision making Cost management systems Environmental cost management With chapters from an international team of contributors, this prestigious companion will prove an indispensable addition to any

library with aspirations of keeping up-to-date with the world of accounting.

Cost Accounting for Health Care Organizations - Steven A. Finkler 1999

This book provides a thorough coverage of the essentials of cost accounting from a health care perspective. It covers all of the basic tools of cost accounting common to all industries, and uses health care examples. Part I provides the reader with a solid foundation in the essentials of cost accounting. The chapters in this section provide an introduction to costing and cost definitions. Various approaches to product costing and cost allocation are

discussed. Breakeven analysis is also covered, as are techniques for making nonroutine decisions. Part II presents a number of specific tools for improved planning and control. The chapters in this section focus on forecasting and prediction of future costs, budgeting, flexible budgeting, variance analysis, and management control. Part III addresses a number of additional cost accounting tools that can be helpful in generating management information for decision making. Specifically, there are chapters on cost accounting, productivity measurement, inventory, uncertainty, information

systems, and performance evaluation. The criticisms of cost accounting and a number of suggested approaches for improvement are discussed in Part IV. The chapters in this part also examine activity-based costing, total quality management, and the future of costing. Each chapter is followed by one or more articles that apply some of the material discussed in the chapter. The last chapter provides a summary of the book.

**Management Accounting in
Health Care Organizations -**
David W. Young 2014-02-14
A user-oriented approach to
management accounting
concepts and techniques This
thoroughly revised new edition
of Management Accounting in
Health Care Organizations
provides introductory-level
instruction and a user-oriented
approach to management
accounting concepts and
techniques that help prepare
students for managerial work in
health care. The new edition
includes information regarding
the role of management

accounting in health care
organizations, the impact of the
Affordable Care Act on
managerial responsibilities,
recent changes in operational
budgeting practices—including a
focus on "budget drivers," the
importance of managing the
revenue cycle, and other factors
that have fundamentally altered
the use of management
accounting in health care
organizations over the past
several years. Throughout this
edition, the author introduces
concepts and techniques that
will help students identify,
analyze, and apply key
management accounting
principles. The use of practice
case studies at the end of each

chapter allows students to master the techniques rather than simply memorize them. Assesses the impact of health care's impending fiscal crisis on the management accounting needs of health care organizations Describes the essentials of full-cost accounting, differential-cost accounting, and activity-based accounting, while illustrating their use in health care organizations Explains responsibility accounting and provides guidance on designing a responsibility accounting structure

Handbooks of Management Accounting Research 3-Volume Set - Christopher S. Chapman

2009-01-30

Winner of the Management Accounting section of the American Accounting Association notable contribution to Management Accounting Literature Award Volume One of the Handbook of Management Accounting Research series sets the context for the Handbooks, with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings. Volume Two provides insights into research on different management accounting practices. Volume Three features contributions from

some of the most influential researchers in various areas of management accounting research, consolidates the content of volumes one and two, and concludes with examples of management accounting research from around the world. Volumes 1, 2 and 3 are also available as individual product. * ISBN Volume 1: 978-0-08-044564-9 * ISBN Volume 2: 978-0-08-044754-4 * ISBN Volume 3: 978-0-08-055450-1 * Three volumes of the popular Handbooks of Management Accounting Research series now available in one complete set * Examines particular management accounting

practices and specific organizational contexts * Adopts a global perspective of management accounting practices Award: "Winner of the Management Accounting section of the American Accounting Association notable contribution to Management Accounting Literature Award."

The Societal Relevance of Management Accounting - Sven Modell 2017-10-02

This book explores the relevance of management accounting research and practice for a range of broader, societal phenomena related to corporate governance and regulation, the creation and maintenance of markets and

their concomitant social and political implications. It also explores the theoretical and methodological implications of pursuing a research agenda exploring such phenomena in greater detail. Containing a number of theoretical, methodological and empirical contributions by leading management accounting scholars, *The Societal Relevance of Management Accounting* seeks to advance novel research approaches that go beyond the traditional intra-organisational focus that has long dominated management accounting research. As such, it seeks to enhance the relevance of management accounting

research for a broader range of stakeholders and interest groups in and around individual organisations. This book was originally published as a special issue of *Accounting and Business Research*.

Accountants' Index - 1921

Essentials of Cost Accounting for Health Care Organizations - Steven A. Finkler 2007

Provides an in-depth look at cost accounting for healthcare managers. Covers the foundations of cost accounting, information for planning and control, tools to aid in decision making, and future trends.

Implementing Environmental Management Accounting:

Status and Challenges - Pall M.

Rikhardsson 2005-07-28

This book brings together examples of leading thinking and international practice in the rapidly developing area of environmental management accounting. (EMA) The authors include academics and practitioners from industry and the subjects covered range from individual company experiences with implementing EMA to national experiences regarding the adoption and diffusion of EMA practices.

Accounting and Financial

Management - Peter Harris

2012-05-31

Accounting and Financial Management: developments in

the international hospitality industry presents new and innovative research and developments in the field of accounting and financial management as it relates to the work of managing enterprises and organisations in the international hospitality industry.

The content contains contributions from a rich source of international researchers, academics and practitioners including, university and college lecturers, professional accountants and consultants and senior managers involved in a wide range of teaching, scholarship, research, and consultancy in the hospitality industry worldwide. The material

is drawn from their work and experience and relates directly to the management of hospitality undertakings.

Therefore the up to date case studies and examples used are taken from a wide ranging of companies across the industry including large international chains such as Sheraton, Holiday Inn, and Intercontinental. Divided into three parts: Performance Management, Information Management and Asset Management the book tackles the following issues amongst others: * Performance management in the international hospitality industry * Benchmarking: measuring

financial success * The profit planning framework * Making room rate pricing decisions * Hotel asset management UK and US perspectives * Lowering risk to enhance hospitality firm value Accounting and Financial Management: developments in the international hospitality industry presents current developments drawn from a combination of live fieldwork and practical experience and therefore will content will appeal to a wide-ranging readership including practising managers and financial controllers in hospitality organisations, professional accountants and consultants, postgraduate candidates studying for master's

degrees in hospitality management, and final year undergraduate students of hospitality management who elect to take an accounting option.

Financial and Managerial Accounting - Jerry J. Weygandt
2018-06-06

Financial and Managerial Accounting provides students with a clear introduction to fundamental accounting concepts beginning with the building blocks of the accounting cycle and continuing through financial statements. This product is ideal for a two-semester Financial and Managerial Accounting sequence where students

spend equal time learning financial and managerial accounting concepts as well as learn the accounting cycle from a corporate perspective.
