[Civil Service Human Resource Management System](#) - Northern
Ireland Audit Office 2004-01-01

This report looks at the history and management of the new
Northern Ireland Civil Service (NICS) computerised payroll
project, from its origins in the late 1980's until its cancellation in
May 2001. It examines the reasons for the failure of the project
including problems, including problems and delays caused by
deficiencies in software and a range of contractual and
management issues. The report also gives details of current best
practice in project management.

Cases on Educational Technology Planning, Design, and Implementation: A Project Management Perspective -

Benson, Angela D. 2013-06-30

Whether utilizing electronic tools for K-12 classrooms, learning management systems in higher education institutions, or training and performance improvement for business organizations, technology maintains an important aspect in the delivery of education and training in both school and non-school settings. Cases on Educational Technology Planning, Design, and Implementation: A Project Management Perspective provides strategies for addressing the challenges and pitfalls faced when planning, designing, and implementing learning and educational technology projects. The case studies in this publication aim to provide instructors, practitioners in K-12 and higher education, business managers as well as students interested in implementing education technology projects.

Personnel Records - Piers Cain 1998

Commonwealth member governments have been taking part in a unique mapping exercise, identifying the actual changes which have been made in some key areas of public service management. PERSONNEL RECORDS: A STRATEGIC RESOURCE FOR PUBLIC SECTOR MANAGEMENT is part of the Public Service Thematic Series which envisages setting out the results of research projects, in selected countries or group of countries, to provide real insight into the real managerial and structural changes

within selected areas of public service. In providing some firm ground on which those public servants, who are faced with the challenge of public service reform, can stand while assessing the options available, the Public Service Thematic Series marks a milestone in the debate concerning specific areas of management of the public service.

Selecting & Implementing HR & Payroll Software - Denis W. Barnard 2019-03-01

2nd edition (colour) Probably the biggest - and potentially most risky - undertaking for any Human Resources or payroll professional is the selection of new software. Additionally, it is almost inevitable that they will be involved with it at some point in their career. The litany of failures in this area has been alarmingly high, from selecting the wrong systems in the first place all the way through to ineffective implementation; all of this against a heavy cost to the organisation in both financial terms and lost opportunities. Denis Barnard is a consultant specialising in the selection of HR & payroll systems, and other HRIS, and is

acknowledged as one of the UK's leading experts in the field. Drawing on many years of experience, he gives crucial insight to the actions needed to minimise the risks inherent to this type of

project, as well as a step-by-step blueprint of how the right result can be achieved. Written in a style aimed to demystify the relatively unknown, this is a "must have" for the practitioner's bookshelf.
