Building Simple - Dennis Fukai 2006
Building SIMPLE is written for construction professionals who are not always involved in the day to day activities found on a jobsite. Its audience includes investors, developers, owners, attorneys, realtors, accountants, bankers, manufacturers, suppliers, managers, educators, students, and design professionals who want to know more about the nuts and bolts of building construction. The book uses a unique graphic style to demonstrate how every step of the construction of a commercial building can be

captured and communicated using a simple building information model. This construction communications technique combines captioned text, 3D illustrations, animations, interactive 3D models, and short videos to give a virtual tour of the construction process. The result is a multimedia document where everyone involved in the production of a building can actually SEE and experience the construction process.

A Field Guide for Genealogists - Judy Jacobson
2001

Families of Southeastern Georgia is a reprint of the third and final volume of Dr. Averitt's 1964 publication, Georgia's Coastal Plain: A History, the volume that holds greatest importance for genealogists. Each of the roughly 1,000 sketches arranged here gives the subject's place and date of birth, his educational background and military service, and then his career, civic interests,

church affiliation, hobbies, and so on. In almost every case, the author furnishes the names of the subject's parents, spouse, children, and spouse's parents, usually citing the subject's date of marriage and the dates or places of birth and death of at least these three generations of family members.
