Marilyn Manson by Perou - 2020-05-19

'I often get asked, 'Who was your favorite person to photograph?' or 'Who is the best person you've photographed?' says photographer Perou. 'It's always 'Marilyn Manson.' Which is just as well, considering how many times I've photographed him.' Perou has been photographing Marilyn Manson since a 1998 magazine cover shoot. Twenty-one years of collaborating have resulted in this unique book, featuring over 350 photographs including previously unpublished work, conceptual portraits, onstage and informal behind-the-scenes images, giving a rare insight into Manson's world.

The Guide to Writing Fantasy and Science Fiction - Philip Athans 2010-07-18

Science fiction and fantasy is one of the most challenging--and rewarding!--genres in the bookstore. But with New York Times bestselling author Philip Athans and fantasy giant R. A. Salvatore at your side, you'll create worlds that draw your readers in--and keep them reading! Just as important, you'll learn how to prepare your work for today's market. Drawing on his years of experience as one of the most acclaimed professionals in publishing, Wizards of the Coast editor Athans explains how to set your novel apart--and break into this lucrative field. From devising clever plots and building complex characters to inventing original technologies and crafting alien civilizations, Athans gives you the techniques you need to write strong, saleable narratives. Plus! Athans applies all of these critical lessons together in an unprecedented deconstruction of a never-before-published tale by the one and only R. A. Salvatore! There are books on writing science fiction and fantasy, and then there's this book--the only one you need to create strange, wonderful worlds for your own universe of readers!

The Year of Faith - Mitch Pacwa 2012-08-15

Our society is struggling with what Pope Benedict has called "profound crisis of faith that has affected many people." In response, the Holy Father has called us all to a Year of Faith from October 2012 to November 2013. We see the signs all around us: the demand for science to prove everything before we can believe it, the role of media and celebrities who deny the existence of God and denounce the role of the Church, and the ease in which we can all isolate God and faith into only one part of our life. In a follow-up to his best selling St. Paul Bible Study for Catholics during the year of St. Paul, Fr. Mitch Pacwa once again leads Catholics to a deeper understanding of Pope Benedict's call to action for the year. Perfect for individual or group study, this book is a wonderful guide to experiencing a conversion, growing in faith, and following Jesus Christ more closely. It shows us how to integrate every component of our life -- relationships, morality, work, recreation, and all -- into a meaningful whole. Make the most of Pope Benedict's Year of Faith, walking hand in hand with Fr. Pacwa as he guides you through the beauty and insights of Scripture in relationship to your everyday life.

Momo Traders - Brady Dahl 2015-10-01

Momo Traders features extensive interviews with ten top day traders and swing traders who find stocks that move and capitalize on that momentum. They began where you are and now make a great living--some even

becoming rich. They weren't given a leg up, they didn't start with millions, and they don't manage billion-dollar hedge funds. They battle the market day in and day out just like you--and win! Hear in their own words, how they got started, what strategies they employ, how they deal with losing streaks, what setups are most profitable, how they overcome blowups, what tools they use, how they enter trades, how they exit trades, how they manage risk, how they maintain success, and much, much more. From the swing-set builder trading with credit card advances to the penny-stock trader outwitting market makers to the accountant funding trading accounts with cash his employer gave him to pay for his MBA, these Momo Traders have figured out what it takes to beat the market. Foreword by Brett Steenbarger, Trading Psychologist and Author of *The Daily Trading Coach*. Interviews with Gregg Sciabica, Eric Wood, Derrick Leon, Phil Goedecker, Bao Nguyen, John Welsh, Tim Grittani, Tom O'Reilly, Nathan Michaud, Michele Koenig

Making Meaning in Older Age - Annette M. Lane RN PhD 2017-01-25

Making meaning in life can be challenging at any age. However, making and sustaining meaning in advancing age can be especially difficult due to physiological changes, declining health, and multiple losses. From years of personal and professional experience, and with much warmth, the authors address the multifaceted nature of meaning and offer practical ways in which older adults can find and sustain meaning despite the transitions experienced with advancing age. They also offer ways in which family members can help their aging loved ones in their journey of meaning-making. Bringing together the pieces of one's life through meaning-making is vital for older adults and offers a precious gift for their loved ones!

Project Pope - Clifford D. Simak 2015-12-01

Robot believers at the far end of the galaxy endeavor to create a true religion, but their efforts could be shattered by a shocking revelation. Far in the future, on the remote planet End of Nothing, sentient robots are engaged in a remarkable enterprise. They call their project Vatican-17: an endeavor to create a truly universal religion presided over by a pope, whose extreme godliness and infallible artificial intelligence are fed by telepathic human Listeners who psychically delve into the mysteries of the universe. But the great and holy mission could be compromised by one shocking revelation that threatens to inspire serious crises of faith among the spiritual, truth-seeking robotic acolytes while tearing them into warring religious factions. For the Listener Mary is claiming that she has just discovered Heaven. There are those among the Clifford D. Simak faithful who consider Project Pope his masterpiece. But whether the crowning literary achievement of a multiple Hugo and Nebula Award-winning science fiction Grand Master or merely another brilliant novel of speculative fiction to stand among his many, Simak's breathtaking search for God in the machine ingeniously blends science and spirituality in a truly miraculous way that few science fiction writers, if any, have been able to accomplish.

Peter Hujar - Paul Kasmin Gallery 2016

It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer margins of money and art, penniless and unknown. As a community, Downtown was a counterstatement to the rich New York of the banks, museums, media, corporations ... and the art world itself. That Downtown is forever gone. Time, gentrification, disease and death have taken their toll and turned this vibrant epoch into a chapter of art history. But before it vanished, its extravagant cast sat for Peter Hujar's camera - and is now alive again in front of our eyes. Featured among others: Joe Brainard, William Burroughs, Remy Charlip, Edwin Denby, Divine, Ray Johnson, Fran Lebowitz, Charles Ludlum, Susan

Sontag, Paul Thek, John Waters, Robert Wilson, David Wojnarowicz.

This guide draws back the curtain and reveals the inner depths of Westerfeld's fascinating alternative world.

The Theology and Philosophy of Eliade - C. Olson 1992-07-21

The primary focus of this study is to view Eliade as not only a historian of religions but also as a theologian, a philosopher, novelist and as someone engaged in cross-cultural dialogue with other religious traditions. Besides attempting to view Eliade's work from a variety of perspectives, this study contends that the scholarly work of Eliade cannot be separated from his own personal quest for meaning.

BRIDES FOR BROTHERS - Debbie Macomber 2013-08-15

Hard Luck, Alaska—a Town that Needs Women! Location: 50 miles north of the Arctic Circle. Population: 150 (mostly men)—but growing! Because the O'Halloran brothers, who run a bush-plane charter service called Midnight Sons, are heading a campaign to bring women to Hard Luck! Sawyer O'Halloran— He's the middle brother. Pilot and part owner of Midnight Sons. And, if the truth be told, he's not entirely in favor of this scheme. But he considers himself immune to the charms of any woman—he's adamantly against marriage and he's not too sure about love! Abbey Sutherland— Single mother of two adorable kids. Veteran of one bad marriage. Wants a new beginning—not a new romance. She responds to the Midnight Sons ad and is delighted to accept their offer. But there's a complication—or two. She hasn't told the O'Hallorans she's arriving with children!

Moltke on the Art of War - Daniel Hughes 2009-03-12

Field Marshal Helmuth Graf von Moltke is best known for his direction of the German/Prussian campaigns against Austria in 1866 and France in 1870-71, yet it was during his service as chief of the General Staff that he laid the foundation for the German way of war which would continue through 1945. Professor Daniel Hughes of the Air War College, in addition to editing and assisting with the translation of this selection of Moltke's thoughts and theories on the art of war, has written an insightful commentary on "Moltke the Elder" that places him in the broader context of Prussian military theorist Carl von Clausewitz's sometimes abstract philosophical ideas. The book also contains an extensive bibliographic and historiographic commentary that includes references to Moltke and his theories in the current literature in Germany, England, and the United States—a valuable aid to anyone doing research on the subject. This volume, in addition to its appeal to scholars, serves as an introduction to the theory of the German army, as well as a summary of Moltke's enduring theoretical legacy. Praise for Moltke on the Art of War "Moltke molded the Prussian and ultimately the German army at a time of technological and economic change. For that reason . . . this book deserves a much wider audience than those interested in nineteenth-century military history. Readers will be particularly grateful for the editor's careful explanation of terms that are easily mistranslated in English, and for concise and useful footnotes and bibliography. A model of fine editing."—Foreign Affairs Magazine "This valuable work ably compiles the selected writings on the art of war of one of military history's greatest geniuses. [Moltke's] impact on American military thinking persists, especially in various military staff college curricula. Strongly recommended."—Armed Forces Journal "A thoughtfully edited, well-translated anthology that merits a place in any serious collection on the craft of war in the modern Western world."—Journal of Military History

The Vintage Guide to Classical Music - Jan Swafford 1992-12-15

The most readable and comprehensive guide to enjoying over five hundred years of classical music -- from Gregorian chants, Johann Sebastian Bach, and Wolfgang Amadeus Mozart to Johannes Brahms, Igor Stravinsky, John Cage, and beyond. The Vintage Guide to Classical Music is a lively -- and opinionated -- musical history and an insider's key to the personalities, epochs, and genres of the Western classical tradition. Among its features: -- chronologically arranged essays on nearly 100 composers, from Guillaume de Machaut (ca. 1300-1377) to Aaron

Copland (1900-1990), that combine biography with detailed analyses of the major works while assessing their role in the social, cultural, and political climate of their times; -- informative sidebars that clarify broader topics such as melody, polyphony, atonality, and the impact of the early-music movement; -- a glossary of musical terms, from a cappella to woodwinds; -- a step-by-step guide to building a great classical music library. Written with wit and a clarity that both musical experts and beginners can appreciate, The Vintage Guide to Classical Music is an invaluable source-book for music lovers everywhere.

Surgical Care at the District Hospital - Organizacion Mundial de la Salud OMS 2003-07-21

Many patients who present to district (first-referral) level hospitals require surgical treatment for trauma, obstetric, abdominal or orthopedic emergencies. Often surgery cannot be safely postponed to allow their transfer to a secondary or tertiary-level hospital but many district hospitals in developing countries have no specialist surgical teams and are staffed by medical, nursing, and paramedical personnel who perform a wide range of surgical procedures often with inadequate training. The quality of surgical and acute care is often further constrained by poor facilities, inadequate low-technology apparatus and limited supplies of drugs, materials, and other essentials.

The mission of the team responsible for Clinical Procedures in the World Health Organization Department of Essential Health Technologies (EHT) is to promote the quality of clinical care through the identification, promotion and standardization of appropriate procedures, equipment and materials, particularly at district hospital level.

WHO/BCT has identified education and training as a particular priority, especially for non-specialist practitioners who practice surgery and anesthesia. It has therefore developed Surgical Care at the District Hospital as a practical resource for individual practitioners and for use in undergraduate and postgraduate programs in-service training and continuing medical education programs. The manual is a successor of three earlier publications that are widely used throughout the world and that remain important reference texts: General Surgery at the District Hospital (WHO 1988), Surgery at the District Hospital: Obstetrics Gynecology Orthopedics and Traumatology (WHO 1991), Anesthesia at the District Hospital (WHO 1988; second edition 2000). This new manual draws together material from these three publications into a single volume which includes new and updated material, as well as material from Managing Complications in Pregnancy and Childbirth: A Guide for Midwives and Doctors (WHO 2000).

The Sun: A Laboratory for Astrophysics - J.T. Schmelz 1992-07-31

As in the days following Skylab, solar physics came to the end of an era when the Solar Maximum Mission re-entered the earth's atmosphere in December 1989. The 1980s had been a pioneering decade not only in space- and ground-based studies of the solar atmosphere (Solar Maximum Mission, Hinotori, VLA, Big Bear, Nancy, etc.) but also in solar-terrestrial relations (ISEE, AMPTE), and solar interior neutrino and helioseismology studies. The pace of development in related areas of theory (nuclear, atomic, MHD, beam-plasma) has been equally impressive. All of these raised tantalizing further questions about the structure and dynamics of the Sun as the prototypical and best observed star. This Advanced Study Institute was timed at a pivotal point between that decade and the realisation of Yohkoh, Ulysses, SOHO, GRANAT, Coronas, and new ground-based optical facilities such as LEST and GONG, so as to teach and inspire the up and coming young solar researchers of the 1990s. The topics, lecturers, and students were all chosen with this goal in mind, and the result seems to have been highly successful by all reports.

Using R for Numerical Analysis in Science and Engineering - Victor A. Bloomfield 2018-09-03

Instead of presenting the standard theoretical treatments that underlie the various numerical methods used by scientists and engineers, *Using R for Numerical Analysis in Science and Engineering* shows how to use R and its add-on packages to obtain numerical solutions to the complex mathematical problems commonly faced by scientists and engineers. This practical guide to the capabilities of R demonstrates Monte Carlo, stochastic, deterministic, and other numerical methods through an abundance of worked examples and code, covering the solution of systems of linear algebraic equations and nonlinear equations as well as ordinary differential equations and partial differential equations. It not only shows how to use R's powerful graphic tools to construct the types of plots most useful in

scientific and engineering work, but also: Explains how to statistically analyze and fit data to linear and nonlinear models Explores numerical differentiation, integration, and optimization Describes how to find eigenvalues and eigenfunctions Discusses interpolation and curve fitting Considers the analysis of time series Using R for Numerical Analysis in Science and Engineering provides a solid introduction to the most useful numerical methods for scientific and engineering data analysis using R.

Protecting Braden - Luna David 2016-07-06

Zavier "Cade" McCade, former Army Special Forces and creator of Custos Securities, finds himself in a situation he never thought he'd be in-he's fallen in love with Braden Cross, the gorgeous pastry chef he's guarding. Cade has lived his life as a protector: of his country, his family and friends, his clients, and now, the man he's in love with. He thrives in dangerous and stressful situations. But nothing could prepare him for Braden's decision to put himself in danger. After a vicious attack from his stalker leaves Braden fighting for his life, Cade will stop at nothing to see the man responsible punished. Time passes, but Braden's attacker hasn't given up and Cade's afraid he never will. As Cade and the most trusted members of Custos Securities track Braden's assailant, Braden struggles to rebuild his life and re-establish the fragile trust he and Cade had worked so hard to build. Braden knows if he's going to survive the chaos surrounding him, he's going to have to give Cade everything he has-mind, body, and soul. More determined than ever to hunt down the man that nearly killed the love of his life, Cade will do everything in his power to ensure that he and Braden will be able to live the life of their dreams with nothing and no one standing in their way. Meanwhile, hidden just out of their reach, an increasingly deranged stalker watches...and waits.
