Language, Power and Pedagogy - Jim Cummins
2000-09-22

Population mobility is at an all-time high in human history. One result of this unprecedented movement of peoples around the world is that in many school systems monolingual and monocultural students are the exception rather than the rule, particularly in urban areas. This shift in demographic realities entails enormous challenges for educators and policy-makers. What do teachers need to know in order to teach effectively in linguistically and culturally diverse contexts? How long does it take second language learners to acquire proficiency in the language of school instruction? What are the differences between attaining conversational fluency in everyday

contexts and developing proficiency in the language registers required for academic success? What adjustments do we need to make in curriculum, instruction and assessment to ensure that second-language learners understand what is being taught and are assessed in a fair and equitable manner? How long do we need to wait before including second-language learners in high-stakes national examinations and assessments? What role (if any) should be accorded students' first language in the curriculum? Do bilingual education programs work well for poor children from minority-language backgrounds or should they be reserved only for middle-class children from the majority or dominant group? In addressing these issues, this volume focuses not only on issues of language learning and teaching but also highlights the ways in which power relations in the wider

society affect patterns of teacher-student interaction in the classroom. Effective instruction will inevitably challenge patterns of coercive power relations in both school and society.

Mortimer and the Sword Excalibur - Joan Aiken

This is the fifth title to be published by Barn Owl about Arabel and her beloved but impossible raven, Mortimer. An enormous hole is being dug in the park and rumour has it that King Arthur's round table is buried there. None of this interests Mortimer however; his fancy has been taken by the giant grass-cutting machine, the LawnSabre. Mortimer finally gets to work the machine but with disastrous consequences for the round table and the sword Excalibur! Another funny and outrageous story about Arabel and Mortimer from Joan Aiken and Quentin Blake.

Theories and Methods - Peter Auer 2010
The dimensions of time

and space fundamentally cause and shape the variability of all human language. To reduce investigation of this insight to manageable proportions, researchers have traditionally concentrated on the deepest dialects. But it is increasingly apparent that, although most people still speak with a distinct regional coloring, the new mobility of speakers in recently industrialized and postindustrial societies and the efflorescence of communication technologies cannot be ignored. This has given rise to a reconsideration of the relationship between geographical place and cultural space, and the fundamental link between language and a spatially bounded territory. Language and Space: An International Handbook of Linguistic Variation seeks to take full account of these developments in a comprehensive, theoretically rich way. The introductory volume

examines the concept of space and linguistic approaches to it, the structure and dynamics of language spaces, and relevant research methods. A second volume offers the first thorough exploration of the interplay between linguistic investigation and cartography, and subsequent volumes uniformly document the state of research into the spatial dimension of particular language groupings. Key features: comprehensive coverage of the field in terms of theory and methods the unique volume stands alone, since it neither is a handbook of dialectology or of areal linguistics, nor a handbook on language variation alone gathers together a great number of distinguished scholars and experts in the field"

Living with Regret -

Riann C. Miller

2016-04-07

Sometimes the simplest choice has the power to change your life. Chase Ten years ago, I turned a hard decision into a simple one. I allowed others to decide my future . . . then I lost the best thing that ever happened to me. I let go of the girl I loved in exchange for a life I was told I wanted. Then one day I woke up with no recollection of my reality and instead I believed my life had turned out how I had once dared to imagine. Now everyone is waiting for me to remember the day I ruined my future as I struggle to recall a life without the person I so carelessly

tossed away. Somehow, I was gifted a second chance with the woman I love, and I'm going to fight like hell to keep her. Jordan Your brain has a funny way of convincing you what is real and what is not; even if your heart never lets you forget the truth. After Chase Adams broke my heart, my life moved forward, even though the light I once felt had extinguished. Then I received an unexpected phone call that changed everything. Every day we make choices, but most of the time they don't affect the rest of our lives. I wanted to love again. I wanted to trust the gift I was given, but every choice has consequences. Now I have to decide to let go of the past for the sake of my future. . . or risk living with regret.
