## **Kind of Blue** - Miles Davis 2001

Regarded by experts as "the best jazz recording of all time," the 1959 release *Kind of Blue* is one of the most influential albums in the history of jazz. The new hardcover deluxe edition of this exceptional book features transcriptions of all the improvised solos as well as sketch scores for all the songs from this landmark release; this includes Miles' trumpet parts, the brilliant sax work of John Coltrane and Cannonball Adderly, a full transcription of Wynton Kelly's piano solo on "Freddie Freeloader," and Paul Chambers' and Jimmy Cobb's rhythm section parts to use as guides for the feel of each composition. Songs include: So What \* Freddie Freeloader \* Blue in Green \* All Blues \* and Flamenco Sketches, including an alternate take. Also includes fabulous photos and an essay written specifically for this edition by composer Bill Kirchner, who won a Grammy for his notes on Sony's Miles Davis/Gil Evans boxed set, and edited *The Miles Davis Reader* for Smithsonian Institution Press. "For musicians in the know, this book can only enhance one's ardor for the album Quincy Jones calls his 'orange juice' and Donald Fagen hails as 'The Bible.'" -Ashley Kahn, author of *Kind of Blue: The Making of the Miles Davis Masterpiece* "Put on the recording, take out the score, and you'll learn a lot and hear things you hadn't noticed before." -Lewis Porter, Director of the MA in Jazz History and Research, Rutgers University at Newark

## **Why Jazz Happened** - Marc Myers 2019-02-26

*Why Jazz Happened* is the first comprehensive social history of jazz. It provides an intimate and compelling look at the many forces that shaped this most American of art forms and the many influences that gave rise to jazz's post-war styles. Rich with the voices of musicians, producers, promoters, and others on the scene during the decades following World War II, this book views jazz's evolution through the prism of technological advances, social transformations, changes in the law, economic trends, and much more. In an absorbing narrative enlivened by the commentary of key personalities, Marc Myers describes the myriad of events and trends that affected the music's evolution, among them, the American Federation of Musicians strike in the early 1940s, changes in radio and concert-promotion, the introduction of the long-playing record, the suburbanization of Los Angeles, the Civil Rights movement, the "British invasion" and the rise of electronic instruments. This groundbreaking book deepens our appreciation of this music by identifying many of the developments outside of jazz itself that contributed most to its texture, complexity, and growth.

**Dr Strangely Strange** - Adrian Whittaker 2019-03

## **African American Music** - Mellonee V. Burnim 2014-11-13

*African American Music: An Introduction, Second Edition* is a collection of seventeen essays surveying major African American musical genres, both sacred and secular, from slavery to the present. With contributions by leading scholars in the field, the work brings together analyses of African American music based on ethnographic fieldwork, which privileges the voices of the music-makers themselves, woven into a richly textured mosaic of history and culture. At the same time, it incorporates musical treatments that bring clarity to the structural, melodic, and rhythmic characteristics that both distinguish and unify African American music. The second edition has been substantially revised and updated, and includes new essays on African and African American musical continuities, African-derived instrument construction and performance practice, techno, and quartet traditions. Musical transcriptions, photographs, illustrations, and a new audio CD bring the music to life.

## **Lennie Tristano** - Eunmi Shim 2007

"Tristano was also a pioneer in the teaching of jazz, devoting the latter part of his career almost exclusively to music instruction. He founded a jazz school - the first of its kind - among whose students were saxophonists Warne Marsh and Lee Konitz and pianist Sal Mosca." "With its blend of oral history, archival research, and musical analysis, Lennie Tristano sheds new light on the important role Tristano played in the jazz world and introduces this often-overlooked musician to a new generation of jazz aficionados."--BOOK JACKET.

## **Ocean of Sound** - David Toop 1995

"*Ocean of Sound*" begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are "Rap Attack 3" and "Exotica,"

## **A Year with Swollen Appendices** - Brian Eno 2020-11-17

The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition.'One of the seminal books about music . . . an invaluable insight into the mind and working practices of one of the industry's undeniable geniuses.'**GUARDIAN**At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices'

covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. This beautiful 25th-anniversary hardcover edition has been redesigned in the same size as the diary that eventually became this book. It features two ribbons, pink paper delineating the appendices (matching the original edition) and a two-tone paper-over-board cover, which pays homage to the original design. An intimate insight into one of the most influential creative artists of our time, *A Year with Swollen Appendices* is an essential classic.

*Jazz Musicians, 1945 to the Present* - David Dicaire 2006-02-17

From its very beginnings, the nature of jazz has been to reinvent itself. As the musical genre evolved from its roots--blues, European music, Voodoo ceremonies, and brass bands that played at funerals, parades and celebrations--the sound reflected the tenor of the times, from the citified strains of the Roaring '20s to the Big Band swing of pre-World War II to the bop revolution that grew out of the minimalist sound the war forced upon the art form. That the music continued to develop and evolve is a tribute to the power and creativity of its musicians. Charlie Parker, Thelonious Monk, Sarah Vaughan, Art Blakey, Dave Brubeck, Sun Ra, John Coltrane, Miles Davis, Diana Krall, Archie Shepp, Chick Corea, Branford Marsalis, Larry Coryell, and Kenny Kirkland are just some of the jazz greats profiled here. The five major periods of jazz--the bop revolution, hard bop and cool jazz, the avant-garde, fusion, and contemporary--form the basis for the sections in this reference work, with a brief history of each period provided. The artists who were integral to the evolution of each period are then profiled. Each biographical entry focuses on the artist's life and his or her influence on jazz and on music as a whole. A complete discography for each musician is also provided.

**Music of the Twentieth Century** - Ton de Leeuw 2005

Ton de Leeuw was a truly groundbreaking composer. As evidenced by his pioneering study of compositional methods that melded Eastern traditional music with Western musical theory, he had a profound understanding of the complex and often divisive history of twentieth-century music. Now his renowned chronicle *Music of the Twentieth Century* is offered here in a newly revised English-language edition. *Music of the Twentieth Century* goes beyond a historical survey with its lucid and impassioned discussion of the elements, structures, compositional principles, and terminologies of twentieth-century music. De Leeuw draws on his experience as a composer, teacher, and music scholar of non-European music traditions, including Indian, Indonesian, and Japanese music, to examine how musical innovations that developed during the twentieth century transformed musical theory, composition, and scholarly thought around the globe.

**Myself Among Others** - George Wein 2009-02-18

No one has had a better seat in the house than George Wein. The legendary impresario has known the most celebrated figures of music in general and jazz in particular--from Duke Ellington to Ella Fitzgerald to Miles Davis to Frank Sinatra. As a founder of the Newport Jazz Festival, the Newport Folk Festival, and the New Orleans Jazz and Heritage Festival, Wein has brought a dazzling spectrum of musicians to millions of fans, forever changing the musical landscape. In this highly praised memoir, Wein looks back on his life and career, describing his unforgettable relationships--sometimes smooth, sometimes tempestuous--with the great musicians he has known. From what really happened when Charlie Mingus visited the White House...to how Miles Davis and the ensemble that would eventually record the greatest jazz album of all time--Kind of Blue--came together at Wein's Storyville nightclub...to the day at Newport when Bob Dylan first "went electric," here are the personalities and forces that have shaped the past half-century of popular music.

Space Is the Place - John Szwed 2020-04-30

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space Is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

**The History of Jazz** - Ted Gioia 1997-11-20

Jazz is the most colorful and varied art form in the world and it was born in one of the most colorful and varied cities, New Orleans. From the seed first planted by slave dances held in Congo Square and nurtured by early ensembles led by Buddy Belden and Joe "King" Oliver, jazz began its long winding odyssey across America and around the world, giving flower to a thousand different forms--swing, bebop, cool jazz, jazz-rock fusion--and a thousand great musicians. Now, in *The History of Jazz*, Ted Gioia tells the story of this music as it has never been

told before, in a book that brilliantly portrays the legendary jazz players, the breakthrough styles, and the world in which it evolved. Here are the giants of jazz and the great moments of jazz history--Jelly Roll Morton ("the world's greatest hot tune writer"), Louis Armstrong (whose O-keh recordings of the mid-1920s still stand as the most significant body of work that jazz has produced), Duke Ellington at the Cotton Club, cool jazz greats such as Gerry Mulligan, Stan Getz, and Lester Young, Charlie Parker's surgical precision of attack, Miles Davis's 1955 performance at the Newport Jazz Festival, Ornette Coleman's experiments with atonality, Pat Metheny's visionary extension of jazz-rock fusion, the contemporary sounds of Wynton Marsalis, and the post-modernists of the Knitting Factory. Gioia provides the reader with lively portraits of these and many other great musicians, intertwined with vibrant commentary on the music they created. Gioia also evokes the many worlds of jazz, taking the reader to the swamp lands of the Mississippi Delta, the bawdy houses of New Orleans, the rent parties of Harlem, the speakeasies of Chicago during the Jazz Age, the after hours spots of corrupt Kansas city, the Cotton Club, the Savoy, and the other locales where the history of jazz was made. And as he traces the spread of this protean form, Gioia provides much insight into the social context in which the music was born. He shows for instance how the development of technology helped promote the growth of jazz--how ragtime blossomed hand-in-hand with the spread of parlor and player pianos, and how jazz rode the growing popularity of the record industry in the 1920s. We also discover how bebop grew out of the racial unrest of the 1940s and '50s, when black players, no longer content with being "entertainers," wanted to be recognized as practitioners of a serious musical form. Jazz is a chameleon art, delighting us with the ease and rapidity with which it changes colors. Now, in Ted Gioia's *The History of Jazz*, we have at last a book that captures all these colors on one glorious palate. Knowledgeable, vibrant, and comprehensive, it is among the small group of books that can truly be called classics of jazz literature.
