Death Du Jour - Kathy Reichs 2015-06-09

One recent skeleton among ancient bones raises questions—and danger—for forensic anthropologist Temperance Brennan in this newly repackaged thriller from New York Times bestselling author Kathy Reichs. Tempe Brennan is stuck teaching an archaeology field school for students at UNCC in Charleston, South Carolina. When she stumbles upon a recent skeleton among the ancient bones, she starts asking questions. She's the expert they might have called in, but lucky for the local police she's already there. The skeleton leads her to a free street clinic where patients have begun to go missing, and some have wound up dead. What is going on and who is to blame? The charismatic televangelist who oversees the clinic? The shady doctor who practices there? Or is it the clinic staff? Ryan is in Montreal, though he may come down for a visit. If he does, Tempe will have to juggle him and Detective Galiano, an old flame, who is in town investigating the disappearance of wealthy young woman. This is a phenomenally high stakes business where one dead body can save a couple of lives, maybe more. Along with the corpses, Tempe investigates the sick moral logic of the mastermind behind the operation. Kathy Reichs has returned Tempe to America and put her in the middle of a sinister trafficking ring that's local and global. The suspense is intense, and the world is riveting. Kathy Reichs's books are expert, smart, with a taut energy, and this is her best plot and best writing ever.

Spider Bones - Kathy Reichs 2014-10-14

A complex and riveting tale of deceit and murder unfolds in this repackaged of the thirteenth thrilling novel in Reichs's "cleverly plotted and expertly maintained series" (The New York Times Book Review). John Lowery was declared dead in 1968—the victim of a Huey crash in Vietnam, his body buried long ago in North Carolina. Four decades later, Temperance Brennan is called to the scene of a drowning in Hemmingford, Quebec. The victim appears to have died while in the midst of a bizarre sexual practice. The corpse is later identified as John Lowery. But how could Lowery have died twice, and how did an American soldier end up in Canada? Tempe sets off for the answer, exhuming Lowery's grave in North Carolina and taking the remains to Hawaii for reanalysis—to the headquarters of JPAC, the U.S. military's Joint POW/ MIA Accounting Command, which strives to recover Americans who have died in past conflicts. In Hawaii, Tempe is joined by her colleague and ex-lover Detective Andrew Ryan (how "ex" is he?) and by her daughter, who is recovering from her own tragic loss. Soon another set of remains is located, with Lowery's dog tags tangled among them. Three bodies—all identified as Lowery. And then Tempe is contacted by Hadley Perry, Honolulu's flamboyant medical examiner, who needs help identifying the remains of an adolescent boy found offshore. Was he the victim of a shark attack? Or something much more sinister?

Amaryllis Coltraine may have recently transferred to the New York City police force from Atlanta, but she's been a cop long enough to know how to defend herself against an assailant. When she's taken down just steps away from her apartment, killed with her own weapon, for Eve the victim isn't just "one of us." Eve starts questioning everyone while her husband, Roarke, digs into computer data on the dead woman's life back in Atlanta. To their shock, they discover a connection between this case and their own painful, shadowy pasts. Maybe someday soon, I'll be sending yours to somebody else." But Eve Dallas doesn't take too kindly to personal threats, and she is going to break this case, whatever it takes. And that's a promise.

Monday Mourning - Kathy Reichs 2014-08-26
"Temperance Brennan, forensic anthropologist for both North Carolina and Quebec, has come from Charlotte to Montreal during the bleak days of December to testify as an expert witness at a murder trial. She should be going over her notes, but instead she's digging in the basement of a pizza parlor. Not fun. Freezing cold. Crawling rats. And now, the skeletonized remains of three young women. How did they get there? When did they die? Homicide

detective Luc Claudel, never Tempe's greatest fan, believes the bones are historic. Not his case, not his concern. The pizza parlor owner found nineteenth-century buttons in the cellar with the skeletons. Claudel takes them as an indicator of the bones' antiquity. But something doesn't make sense. Tempe examines the bones in her lab and establishes approximate age with Carbon 14. Further study of tooth enamel tells her where the women were born. If she's right, Claudel has three recent murders on his hands. Definitely his case. Detective Andrew Ryan, meanwhile, is acting mysteriously. What are those private phone calls he takes in the other room, and why does he suddenly disappear just when Tempe is beginning to hope he might be a permanent part of her life? Looks like more lonely nights for Tempe and Birdie, her cat. As Tempe searches for answers in both her personal and professional lives, she finds herself drawn deep into a web of evil from which there may be no escape. Women have disappeared, never to return....Tempe may be next."--

Bones in Her Pocket - Kathy Reichs
2013-07-16

A new story featuring forensic anthropologist Temperance Brennan—available only in ebook—from #1 New York Times bestselling author and FOX TV's *Bones* producer, Kathy Reichs. When a fly-covered canvas bag floats to the surface of North Carolina's Mountain Island Lake, forensic anthropologist Tempe Brennan is called to the scene. Animal remains? Or could this be related to bone fragments from a human male found nearby? To Tempe's surprise, the decomposed body indicates the person was a female young adult. The profile fits the description of a missing graduate student named Edith Blankenship. Was Blankenship murdered? If so, why? Blankenship's body turned up on an artist colony where an eco-radical named Herman Blount has been squatting. Blount has posted online rants threatening to blow up a power station he says is polluting the area. Is Blount capable of violence? Blankenship was a loner, but she proved a dedicated advocate for birds at UNC-Charlotte and the Carolina Raptor Center. Did Blankenship's passion lead her into danger? Alongside Detective "Skinny" Slidell, Tempe puts life on hold until she discovers the truth behind Blankenship's death. But Tempe's

own passion for crime solving will lead her into danger of her own. This ebook exclusive story—which comes with a special excerpt of Kathy Reichs’s new novel, *Bones of the Lost*—is an exhilarating new installment in the Temperance Brennan series.

A Conspiracy of Bones - Kathy Reichs 2020-03-17

#1 New York Times bestselling author Kathy Reichs returns with an “edgy, eerie, irresistible” (Sandra Brown) novel with “plenty of twists” (The New York Times Book Review) featuring forensic anthropologist Temperance Brennan, who must use her skills to discover the identity of a faceless corpse, its connection to a decade-old missing child case, and why the dead man had her cell phone number. It’s sweltering in Charlotte, North Carolina, and Temperance Brennan, still recovering from neurosurgery following an aneurysm, is battling nightmares, migraines, and what she thinks might be hallucinations when she receives a series of mysterious text messages, each containing a new picture of a corpse that is missing its face and hands. Immediately, she’s anxious to know who the dead man is, and why the images were sent to her. An identified corpse soon turns up, only partly answering her questions. To win answers to the others, including the man’s identity, she must go rogue, working mostly outside the system. That’s because Tempe’s new boss holds a fierce grudge against her and is determined to keep her out of the case. Tempe bulls forward anyway, even as she begins questioning her instincts. But the clues she discovers are disturbing and confusing. Was the faceless man a spy? A trafficker? A target for assassination by the government? And why was he carrying the name of a child missing for almost a decade? With help from law enforcement associates including her Montreal beau Andrew Ryan and the quick-witted, ex-

homicide investigator Skinny Slidell, and utilizing new cutting-edge forensic methods, Tempe draws closer to the astonishing truth. "A complete success" (Booklist, starred review), "this is Kathy Reichs as you've never read her before" (David Baldacci).

All the pieces of the mystery seem to lead back to an isolated farm. But what happened there and who will be the next victim? Tempe must find the answers by teasing secrets from the bones - if only she can decipher them in time ... A superb new thriller from the number one bestselling author of *Grave Secrets*.

A Desert Storm veteran named Dominick Rockett stands accused of smuggling the objects into the country. Could there be some connection between the trafficking of antiquities and the trafficking of humans? As the case deepens, Tempe must also grapple with personal turmoil. Cold, Cold Bones - Kathy Reichs 2022-07-06
#1 New York Times bestselling thriller writer

Kathy Reichs returns with her twenty-first novel
of suspense featuring forensic anthropologist
Temperance Brennan who, after receiving a box
containing a human eyeball, uncovers a series of
gruesome killings eerily reenacting the most
shocking of her prior cases. ‘Kathy Reichs has
written her masterpiece’ MICHAEL CONNELLY
Winter has come to North Carolina and, with it,
a drop in crime. Freed from a heavy work
schedule, Tempe Brennan is content to dote on
her daughter Katy, finally returned to civilian life
from the army. But when mother and daughter
meet at Tempe’s place one night, they find a box
on the back porch. Inside: a very fresh human
eyeball. GPS coordinates etched into the eyeball
lead to a Benedictine monastery where an
equally macabre discovery awaits. Soon after,
Tempe examines a mummified corpse in a state
park, and her anxiety deepens. There seems to
be no pattern to the subsequent killings
uncovered, except that each mimics in some way
a homicide that a younger Tempe had been
called in to analyze. Who or what is targeting
her, and why? Helping Tempe search for
answers is detective Erskine “Skinny” Slidell,
retired but still volunteering with the CMPD cold
case unit—and still displaying his gallows
humor. Also pulled into the mystery: Andrew
Ryan, Tempe’s Montreal-based beau, now
working as a private detective. Could this
elaborately staged skein of mayhem be the
prelude to a twist that is even more shocking?
Tempe is at a loss to establish the motive for
what is going on...and then her daughter
disappears. At its core, *Cold, Cold Bones* is a
novel of revenge—one in which revisiting the
past may prove the only way to unravel the
present. Kathy Reichs’s first novel *Déjà Dead*,
published in 1997, won the Ellis Award for Best
First Novel and was an international bestseller.
Cold, Cold Bones is Kathy’s twenty-first entry in
her series featuring forensic anthropologist
Temperance Brennan. Kathy was also a producer
of Fox Television’s longest running scripted
drama, *Bones*, which was based on her work and
her novels. One of very few forensic
anthropologists certified by the American Board
of Forensic Anthropology, Kathy divides her time
between Charlotte, North Carolina, and
Montreal, Québec. Visit her at KathyReichs.com

The Girls Who Stepped Out of Line - Mari K. Eder 2021-08-03

For fans of Radium Girls and history and WWII buffs, *The Girls Who Stepped Out of Line* takes you inside the lives and experiences of 15 unknown women heroes from the Greatest Generation, the women who served, fought, struggled, and made things happen during WWII—in and out of uniform, for theirs is a legacy destined to embolden generations of women to come. *The Girls Who Stepped Out of Line* are the heroes of the Greatest Generation that you hardly ever hear about. These women who did extraordinary things didn't expect thanks and shied away from medals and recognition. Despite their amazing accomplishments, they've gone mostly unheralded and unrewarded. No longer. These are the women of World War II who served, fought, struggled, and made things happen—in and out of uniform. Young Hilda Eisen was captured twice by the Nazis and twice escaped, going on to fight with the Resistance in Poland. Determined to survive, she and her husband later emigrated to the U.S. where they became entrepreneurs and successful business leaders. Ola Mildred Rexroat was the only Native American woman pilot to serve with the

Women's Airforce Service Pilots (WASP) in World War II. She persisted against all odds—to earn her silver wings and fly, helping train other pilots and gunners. Ida and Louise Cook were British sisters and opera buffs who smuggled Jews out of Germany, often wearing their jewelry and furs, to help with their finances. They served as sponsors for refugees, and established temporary housing for immigrant families in London. Alice Marble was a grand-slam winning tennis star who found her own path to serve during the war—she was an editor with *Wonder Woman* comics, played tennis exhibitions for the troops, and undertook a dangerous undercover mission to expose Nazi theft. After the war she was instrumental in desegregating women's professional tennis. Others also stepped out of line—as cartographers, spies, combat nurses, and troop commanders. Retired U.S. Army Major General Mari K. Eder wrote this book because she knew their stories needed to be told—and the sooner the better. For theirs is a legacy destined to embolden generations of women to come.

Speaking in Bones - Kathy Reichs 2020-03-03
In this blockbuster novel from bestselling author Kathy Reichs, forensic anthropologist Temperance Brennan investigates what looks to be a typical missing person case, only to find

herself digging up bones possibly left by a serial killer, a cult, or perhaps something not entirely of this world. For every case that Temperance Brennan has solved, there remain numerous bodies that remain unidentified in her lab. Information on some of these cold cases is available online, where amateur detectives sometimes take a stab at solving cases. When Tempe gets a call from Hazel "Lucky" Strike, a web sleuth who believes she's successfully connected a body in Tempe's lab to a missing eighteen-year-old girl, Tempe writes it off as another false alarm. Still reeling from her mother's diagnosis and the shock of Andrew Ryan's potentially life-change proposal, Tempe has little patience for chasing false leads. But when the bones in the lab match the missing girl's medical records, Tempe re-opens the case, returning to the spot where her remains were originally found. What seems at first to be an isolated tragedy takes on a more sinister cast as Tempe uncovers two more sets of bones nearby. Even more troubling is that the area is known as a viewing point for a famous unexplained light phenomenon, and that a local cult nearby has significant interest in the site. Tempe's suspicions turn to murder by ritual sacrifice—a theory that gains even more urgency when Hazel herself turns up dead. Struggling to follow the tracks of a killer who will do anything not to be discovered, Tempe races to solve the murders and unravel the mysteries surrounding the site before the body count climbs higher. A suspenseful addition to Temperance Brennan's story, *Speaking in Bones* proves that Kathy's pulse-pounding *Bones* series never slows down.
