The Dawn of Everything - David Graeber 2021-11-09
INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most

fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision,

and a faith in the power of direct action. Includes

The Handbook of Islamic Banking comprises 25 studies by leading international experts on Islamic banking and finance specially commissioned to analyse the various debates and the current state of play in the field. From its origins thirty years ago, Islamic banking has expanded rapidly to become a distinctive and fast growing segment of the international banking and capital markets. Despite this expansion, Islamic banking still remains poorly understood in many parts of the Muslim world and continues to be a mystery in much of the West. This comprehensive Handbook provides a succinct analysis of the workings of Islamic banking and finance, accessible to a wide range of readers. At the same time, it seeks to bring the current research agenda and the main issues on Islamic banking before a wider audience. Islamic banking offers, as an alternative to conventional interest-based financing methods, a wide variety of financial instruments and investment vehicles based on profit-and-loss sharing arrangements. These are all explored in detail along with other subjects such as governance and risk management, securities and investment, structured financing, accounting and

regulation, economic development and globalization. M. Kabir Hassan, Mervyn Lewis and the other contributors have created an authoritative and original reference work, which will contribute to a wider understanding of Islamic banking as well as provoking further discussion and research. It will be invaluable to all scholars, researchers and policymakers with an interest in this subject.

The Persianate World - Nile Green 2019-04-09

At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms

remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

Islam on the Move - Farish A. Noor 2012

"Much nuance and variability have been lost in the process of the reductivist analysis of Islam post 9/11 and, as this study amply demonstrates, we are all the poorer as a result. This exhaustive examination of the rise and spread of the Tablighi Jama'at, arguably the world's largest Islamic missionary movement, locates it in the larger perspective of global Islam and developments in the Muslim societies. Combining an overview of the history and current socio-political perception of the Tablighi Jama'at with a more analytical and philosophical approach to fundamental questions of identity, subject-positioning and representation, the author creates a comprehensive resource of interest to all scholars and students of Islam. Drawing on exhaustive research and records of conversion narratives of the new members of Tablighi Jama'at, cited here at length, the author creates a unique perspective on this complex phenomenon from both an internal and external viewpoints. Ahmad-Noor locates the spiritual framework of the movement in the context of its perception in the eyes of the political and religious authorities of the countries where it has a following, as well as the Western 'securocrat' approach."--Publisher's website.

Modal Modernities - Mohsen Mohammadi 2017-07-29

This dissertation studies the modal system of Persian music. While modern Iranian musicians explain their music as a of seven dastgah plus five sub-dastgah called avaz, the dominant interpretation in the ethnomusicology literature describes the Persian modal system as a set of twelve dastgah. Part I of this dissertation studies how the system of seven dastgah and five avaz was introduced to the ethnomusicology literature and how it was simplified as a set of twelve dastgah. Part I shows that the modal system of Persian music was introduced to the ethnomusicology literature by a generation of Persian musicians who were trained in European music and thus were a hybrid of insider and outsider. Part II studies the historical root of the concept of dastgah. Persian writings on modulation from one mode to another date back to the fourteenth century. This theme was developed into a few collections of modes which were meant to help musicians as modulation instruction. Those collections were developed further and found an order which advised musicians to perform modes in sequences. Modulation instructions were titled "shad" in the seventeenth century. During the late eighteenth and

early nineteenth century, the shad was developed further and was renamed dastgah. Part III shows that, while dastgah was an important concept of multi-modal performance, avaz was the general term for Persian modes. Various sources from the nineteenth century and early twentieth century, including musical texts, diaries and travel accounts, old newspapers, early European publications on Persian music, early Persian books on music, and the first catalog of Persian records show that avaz was the general term to refer to Persian modes. Part IV studies the impact of early commercial records on the formation of the Persian modal system. During the first recording session, most labels featured an avaz or a tasnif (song), while seven sets of records were allocated to record the seven dastgah briefly. During the subsequent recording sessions, not only the number of recorded modes decreased, but also more tracks were allocated to the few popular modes. The top ten recorded modes included five avaz that were the central modes of five of the seven dastgah, and five other avaz that became popular through the process of recording. When the seven dastgah were retrieved as an icon of national identity, the five popular avaz retained their modal status but the rest of the avaz were downgraded as pieces of a dastgah only. During the interwar recording sessions, the pattern for coupling tracks on double-sided Persian records was coupling two rhythmic performances in the same mode or two non-rhythmic performances in related modes. Those related modes (avaz) were usually included in a certain dastgah or followed another avaz that was more popular. Each double-sided record became a mode unit, thus, the five popular dastgah were squeezed into one mode while the five popular avaz were extended into smaller dastgah.

ASSORTED THOUGHTS: CRISP AND HOT - Manzoor-ul-Haque, Ph.D 2021-05-06

The main intention of this book is to introduce to the lay readers and students, the daily routine decisions, hurdles, and development of the human self; the topics and quandaries that occur within the philosophy of life. We hope the readers will discover that life struggles are not an easy or a straightforward area of analysis to instill into one format. In other words, the struggles we are in today are developing the strength we need for tomorrow. The concept "to never give up" comes from the strength of struggle from within. When we learn to foresee our struggles as an opportunity to become wiser, better, and stronger, then we shift our thinking from proactively that I must do this. Sometimes struggles of life are factual: what we needed in our life. If we go through our life without any stumbling blocks, we would be deprived of strength and efficiency. We would not be strong as we could have been. This book realized us to give every opportunity as chance and leave no room to regret in life. Anyhow, the overall intention is to inspire the reader to think critically about what life strength is, struggles and development of personality to read or study further the issues that this book raises for you.

Ideal Islamic Economy - Abbas Mirakhor 2017-08-11

This book provides an introduction to the vision of an economic system based completely on the Holy Qur'an—a system defined as a collection of institutions, representing rules of behavior, prescribed by Allah for humans, and the traditions of the Messenger. The authors argue that the main reason for the economic underperformance of Muslim countries and their economies has been non-compliance with the prescribed rules of

behavior. Rule non-compliance has been chiefly due to the failure of Muslims to comprehend the Metaframework of the Qur'an and the Archetype Model of the Prophet Muhammad and interpret them in ways compatible with their own generation and time. Askari and Mirakhor believe these rules (institutions), properly adapted to prevailing conditions present what they consider as an ideal economic system.
