Approaching Ottoman History - Suraiya Faroqhi 1999-12-09

Suraiya Faroqhi's scholarly contribution to the field of Ottoman history has been prodigious. Her latest book represents a summation of that scholarship, an introduction to the state-of-the-art in Ottoman history. In a compelling exploration of the ways that primary and secondary sources can be used to interpret history, the author reaches out to students and researchers in the field and in related disciplines to familiarise them with these documents. By considering both archival and narrative sources, she explains why they were prepared, encouraging her readers to adopt a critical approach to their findings, and disabusing them of the notion that everything recorded in official documents is necessarily true! While the book is essentially a guide to a complex discipline for those about to embark upon their research, the experienced Ottomanist will find much that is original and provocative in its sophisticated interpretation of the field.

Restitution and Memory - Dan Diner 2007-04-01

The myriad debates on restitution and memory, which have been going on in Europe for decades, indicate that World War II never ended. It is still very much with us, paradoxically re-invoked by the events of 1989/90 and the expansion of Europe to the east in the aftermath of the collapse of communism and economic globalization. The growing privatization and reprivatization in Eastern Europe revive pre-war memories that lay buried under the blanket of collectivization and nationalization of property after 1945. World War II did not only result in the death and destruction on a large scale but also in an a far-reaching revolution of existing property relations. This volume offers an assessment of the problematic of restitution and its close interconnection with the discourses of memory that have recently emerged.

Studies in Bilingual Education - Daniel Madrid 2011

This book deals with bilingual education in general, but it pays special attention to bilingual education in monolingual areas. One central aim is to study the effects of bilingual programmes during the final stages of Primary and Secondary Education in contexts where the L2 (English) is not normally used as an instrument of social communication in the students' environment, but instead is used only at school, where some subject areas are undertaken totally or partially in this language. The reader interested in bilingual education will find a valuable source of information on different bilingual programmes in the USA and Spain: what schools do and the contents they teach, their timetable and extracurricular

activities; the specific objectives that they aim to achieve and the methodology they use, with special reference to the CLIL approach, the schools and the students' level of success with bilingual education, the most common problems that they have to face in monolingual areas and how to solve them.

Sie stellen oft die einzigen Dokumente dahinschwenden der mündlicher Dberlieferungen dar; urn ihre Erhaltung soUte man daher uber aus besorgt sein, zumal Tonbandaufnahmen durch zahlreiche Einflusse, nicht zuletzt durch die kosmische Strahlung, permanent gefahrdet sind. Das Material aus dies en Ar chivsammlungen wurde bislang nur zu einem Bruchteil veroffentlicht und wis senschaftlich bearbeitet. Das Problem der Bewältigung solcher Stoffmassen, auch mit modernen Methoden der Daten-und Textverarbeitung, beschäftigt zahlreiche Wissenschaftler. 3. Zum Problem der Publikation von mündlichen Dberlieferungen wurde die Frage erortert, welche Auswahl aus dem in der Regel sehr umfangreichen Material nach welchen Kriterien getroffen werden soUte. Mit dem "NormaUe ser" taucht die Frage nach popularen bzw. wissenschaftlichen Editionen auf.

The Punished Peoples - Aleksandr Moiseevich Nekrich 1981-11

In late 1943 and early 1944, after the Nazi invasion of Russia had been turned back, Soviet troops descended upon the Caucasus, the Caspian steppes, and the Crimea without warning and brutally deported some one million of their people-- Chechens, Ingush, Balkars, Karachai, Kalmyks, and Tatars--to Central Asia, Kazakhstan, and Siberia. Hundreds were executed and thousands more were to die of malnutrition, exposure, and harsh treatment. Not until the late 1950s were some of them allowed to return to their homelands, but then, and even now, under a burden of lies and guilt for the treasonous acts of a few.

The Ottoman Empire and the World Around it - Suraiya Faroqhi 2005-12-20

In Islamic law the world was made up of the 'House of Islam' and the 'House of War' with the Ottoman Sultan - successor to the early Caliphs - as supreme ruler of the Islamic world. However, in this ground-breaking study of the Ottoman Empire in the early modern period, Suraiya Faroqhi demonstrates that there was no 'iron curtain' between the Ottoman and 'other' worlds but rather a long-established network of connections - diplomatic, trading and financial., cultural and religious. These extended beyond regional contacts to the empires of Asia and the burgeoning 'modern' states of Europe - England, France, the Netherlands and Venice. Of course, military conflict was a constant factor in these relationships, but the overriding reality was 'one world' and contact between cultured and pragmatic elites - even 'gentlemen travelling for pleasure' - as well as pilgrimage and close artistic contact with the European Renaissance. Faroqhi's book is based on a huge study of original and early modern sources, including diplomatic records, travel and geographical writing, as well as personal accounts. Its breadth and originality will make it essential reading for historians of Europe and the Middle East.
