Reaching for the Moon - Katherine Johnson 2020-05-05  
"This rich volume is a national treasure." -Kirkus Reviews (starred review) "Captivating, informative, and inspiring...Easy to follow and hard to put down." -School Library Journal

(starred review) The inspiring autobiography of NASA mathematician Katherine Johnson, who helped launch Apollo 11. As a young girl, Katherine Johnson showed an exceptional aptitude for math. In school she quickly skipped ahead several grades

and was soon studying complex equations with the support of a professor who saw great promise in her. But ability and opportunity did not always go hand in hand. As an African American and a girl growing up in an era of brutal racism and sexism, Katherine faced daily challenges. Still, she lived her life with her father's words in mind: "You are no better than anyone else, and nobody else is better than you." In the early 1950s, Katherine was thrilled to join the organization that would become NASA. She worked on many of NASA's biggest projects including the Apollo 11 mission that landed the first men on the moon. Katherine Johnson's story was made famous in the bestselling book and Oscar-nominated film Hidden Figures. Now in Reaching for the Moon she tells her own story for the first time, in a lively autobiography that will inspire young readers everywhere.

*The No Club* - Linda Babcock  
2022-05-03

In this "long overdue manifesto on gender equality in the workplace, a practical playbook with tips you can put into action immediately...simply priceless" (Angela Duckworth, bestselling author of Grit), *The No Club* offers a timely solution to achieving equity at work: unburden women's careers from work that goes unrewarded. The No Club started when four women, crushed by endless to-do lists, banded together to get their

work lives under control. Running faster than ever, they still trailed behind male colleagues. And so, they vowed to say no to requests that pulled them away from the work that mattered most to their careers. This book reveals how their over-a-decade-long journey and subsequent groundbreaking research showing that women everywhere are unfairly burdened with “non-promotable work,” a tremendous problem we can—and must—solve. All organizations have work that no one wants to do: planning the office party, screening interns, attending to that time-consuming client, or simply helping others with their work. A woman, most often, takes on these tasks. In study after study, professors Linda Babcock (bestselling author of *Women Don't Ask*), Brenda Peyser, Lise Vesterlund, and Laurie Weingart—the original “No Club”—document that women are disproportionately asked and expected to do this work. The imbalance leaves

women overcommitted and underutilized as companies forfeit revenue, productivity, and top talent. The *No Club* walks you through how to change your workload, empowering women to make savvy decisions about the work they take on. The authors also illuminate how organizations can reassess how they assign and reward work to level the playing field. With hard data, personal anecdotes from women of all stripes, self- and workplace-assessments for immediate use, and innovative advice from the authors' consulting Fortune 500 companies, this book will forever change the conversation about how we advance women's careers and achieve equity in the 21st century.

**Change or Die** - Alan Deutschman  
2009-10-13

Change or Die. What if you were given that choice? If you didn't, your time would end soon—a lot sooner than it had to. Could you change when change matters most? This is the question Alan Deutschman poses in *Change or Die*, which began as a sensational cover story by the same title for *Fast Company*. Deutschman concludes that although we all have the ability to change our behavior, we rarely ever do. From patients suffering from heart disease to repeat offenders in the criminal justice system to companies trapped in the mold of unsuccessful business practices, many

of us could prevent ominous outcomes by simply changing our mindset. A powerful book with universal appeal, *Change or Die* deconstructs and debunks age-old myths about change and empowers us with three critical keys—relate, repeat, and reframe—to help us make important positive changes in our lives. Explaining breakthrough research and progressive ideas from a wide selection of leaders in medicine, science, and business (including Dr. Dean Ornish, Mimi Silbert of the Delancey Street Foundation, Bill Gates, Daniel Boulud, and many others), Deutschman demonstrates how anyone can achieve lasting, revolutionary changes that are positive, attainable, and absolutely vital.

So Good They Can't Ignore You - Cal Newport 2012-09-18

In an unorthodox approach, Georgetown University professor Cal Newport

debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a

title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

No Rules Rules - Reed Hastings 2020-09-08

The New York Times bestseller Shortlisted for the 2020 Financial Times & McKinsey Business Book of the Year Netflix cofounder Reed Hastings reveals for the first time the unorthodox culture behind one of the world's most innovative, imaginative, and successful companies There has never before been a company like Netflix. It has led nothing short of a revolution in the entertainment industries, generating billions of dollars in annual revenue while capturing the imaginations of hundreds of millions of people in over 190 countries. But to reach these great heights, Netflix, which launched in 1998 as an online DVD rental service, has had to reinvent itself over and over again. This type of unprecedented flexibility would have been impossible without the counterintuitive and radical management principles that cofounder Reed Hastings established from the very beginning. Hastings rejected the

conventional wisdom under which other companies operate and defied tradition to instead build a culture focused on freedom and responsibility, one that has allowed Netflix to adapt and innovate as the needs of its members and the world have simultaneously transformed. Hastings set new standards, valuing people over process, emphasizing innovation over efficiency, and giving employees context, not controls. At Netflix, there are no vacation or expense policies. At Netflix, adequate performance gets a generous severance, and hard work is irrelevant. At Netflix, you don't try to please your boss, you give candid feedback instead. At Netflix, employees don't need approval, and the company pays top of market. When Hastings and his team first devised these unorthodox principles, the implications were unknown and untested. But in just a short period, their methods led to unparalleled

speed and boldness, as Netflix quickly became one of the most loved brands in the world. Here for the first time, Hastings and Erin Meyer, bestselling author of *The Culture Map* and one of the world's most influential business thinkers, dive deep into the controversial ideologies at the heart of the Netflix psyche, which have generated results that are the envy of the business world. Drawing on hundreds of interviews with current and past Netflix employees from around the globe and never-before-told stories of trial and error from Hastings's own career, *No Rules Rules* is the fascinating and untold account of the philosophy behind one of the world's most innovative, imaginative, and successful companies.

Seeing Around Corners - Rita McGrath 2019

The first prescriptive, innovative guide to seeing inflection points before they happen--and how to harness these disruptive influences to give your company a strategic advantage. Paradigmatic shifts in the business landscape, known as inflection points, can either create new, entrepreneurial opportunities (see Amazon and Netflix) or they can lead to devastating consequences (e.g., Blockbuster and Toys R Us). Only those leaders who can "see around corners"--that is, spot the disruptive inflection points developing before they hit--are poised to succeed in this market. Columbia Business School Professor and corporate consultant Rita McGrath contends that inflection points, though they may seem sudden, are not random. Every seemingly overnight shift is the final stage of a process that has been subtly building for some time. Armed with the right strategies and tools, smart

businesses can see these inflection points coming and use them to gain a competitive advantage. Seeing Around Corners is the first hands-on guide to anticipating, understanding, and capitalizing on the inflection points shaping the marketplace.
