Prospective and Proximative in Turkic, Iranian and Beyond - Agnes Korn 2017

The present volume addresses the linguistic categories of Prospective and Proximative. Prospective refers to an event which is expected, presumed, or will take place while Proximative refers to its pre-stage; its canonical semantics is 'be going/about to do something'. Highlighting historical, areal and typological aspects, the contributions in this book investigate the encoding of proximative and prospective semantics in genetically related and non-related languages. While Iranian and Turkic languages are the focal point, several contact languages of historical and typological relevance (and potentially of interest for phylogenetic studies), viz. Aramaic, Mongolic, Tungusic, and Uralic, have been included. A comprehensive introductory section discusses both theoretical and methodological issues; it is followed by in-depth analysis articles and shorter case studies, the latter arranged geographically: Prospective and Proximative in languages spoken in Southern Europe, Iran and the

Caucasus, Central Asia, Siberia and China. For most of these languages, the categories of Prospective and/or Proximative are described here for the first time. The research presented in this volume enriches our understanding of the Prospective and Proximative by identifying hitherto unknown encoding strategies, among them discourse, modal and aspectual particles, portmanteau morphemes expressing clusters of proximative and aspectual or evidential semantics, etc. Of particular typological significance are advances in the analysis of the semantic structures of proximative and prospective categories as well as of the sources and grammaticalization paths of the individual forms. This volume will be an inspiration for further research on the categories of Prospective and Proximative in the languages of Eurasia and beyond. It will be not only of interest for scholars dealing with the respective languages and language families, but also of great importance for historical and areal linguistics, language typology and theoretical linguistics.

Across the Line of Control - Luv Puri 2012

The Kashmir issue has been a subject of international attention ever since the subcontinent was partitioned in 1947. The clash between India and Pakistan over the coveted territory led to the emergence of Indian-administered and Pakistan-administered areas. While the social and political conditions in the former have been widely discussed, even among Kashmir experts there is little knowledge of Pakistan-administered Jammu

& Kashmir (PAJK), particularly its political, cultural and social aspects. Luv Puri analyses the crucial pre-Independence social and political processes which resulted in polarization within the state and the violence that wracked the region during Partition. He tracks the effect of those events on Pakistan's Punjab province and the ensuing impact on Pakistan's position on the Jammu & Kashmir issue. The relationship between Pakistan and PAJK is an important aspect of Puri's research. He traces the history of migration from Mirpur to Britain and the Mirpuri diaspora's significant support to the early phase of militancy that arose in Jammu & Kashmir in 1989. This insurgency, which had its base in PAJK, promised independence from both India and Pakistan. The book also discusses the many transformations in the pro-independence struggle from its inception to the present day. Across the LoC: Inside Pakistan-Administered Jammu and Kashmir is a new and original contribution to the body of literature on the region and the role PAJK has played in the larger Jammu & Kashmir tangle.

Synthesis and Characterization of Ni_{0.5}Co_{0.5}FeCrO₄ Ferrite - Dr. Satish Baburao Shelke

This book has given an overview of the sol-gel auto-combustion preparation method and characterization of Ni_{0.5}Co_{0.5}FeCrO₄. This work focused on the structural properties XRD, TGA, SEM, TEM, FTIR, Magnetic Properties, Dielectric Properties were measured. By using the TG curve the exact temperature of formation of ferrite phase was obtained. The properties such as dielectric constant, dielectric loss tangent as a function of frequency and temperature. The addition of chromium in nickel - cobalt ferrite significantly changes the electrical and magnetic properties. Nickel and cobalt ferrites are inverse ferrites and hence for $x \leq 1$, nickel ferrite shows structure of inverse spinel and for $x > 1$, the inverse structure converted into normal structure. The crystal structure of ferrite, cation distribution, synthesis route, sintering conditions, amount and type of impurity addition decides the electric and magnetic properties of ferrites. Same ferrite with different crystalline size shows different properties. The electrical and magnetic properties even structural properties of ferrites at nano-crystalline phase shows significantly difference than the bulk one. In

the present investigation we have presented the results on structural and magnetic properties of Ni_{0.5}Co_{0.5}FeCrO₄ sintered at 5000C, 6000C, 7000C and 8000C for 6h.

The Indo-Aryan Languages - Colin P. Masica 1993-09-09

In his ambitious survey of the Indo-Aryan languages, Colin Masica has provided a fundamental introduction which will interest not only general and theoretical linguists but also students of one or more of these languages who want to acquaint themselves with the broader linguistic context. Generally synchronic in approach, concentrating on the phonology, morphology and syntax of the modern representatives of the

group, the volume also covers their historical development, areal context, writing systems and aspects of sociolinguistics. The survey is organised not on a language-by-language basis but by topic, so that salient theoretical issues may be discussed in a comparative context.

The Untold Story of the People of Azad Kashmir - Christopher Snedden 2012

Azad (Free) Jammu and Kashmir (J&K) is that part of Kashmir within Pakistan, separated by a Line of Control from Indian territory. This book is a rarity: it offers a fresh interpretive history of the largely forgotten four million people of Azad Kashmir. The author contends that in October 1947, pro-Pakistan Muslims in south-western J&K instigated the Kashmir dispute-not Pashtun tribesmen invading from Pakistan, as India has consistently claimed. Later called Azad Kashmiris, these people, Snedden argues, are legitimate stakeholders in an unresolved dispute. He provides comprehensive new information that critically examines Azad Kashmir's administration, economy, political system, and its subordinate relationship with Pakistan. Azad Kashmiris considered their administration to be the only legitimate government in J&K and expected that it would rule after J&K was re-unified by a UN-supervised plebiscite. This poll has never been conducted and Azad Kashmir has effectively, if not yet legally, become a (dependent) part of Pakistan. Long disenchanted with Islamabad, some Azad Kashmiris now favour independence for J&K, hoping that they may survive and prosper without recourse to either of their bigger neighbours. Snedden concludes his book by assessing the various proposals to resolve Azad Kashmir's international status and the broader Kashmir dispute.

A Descriptive Grammar of Hindko, Panjabi, and Saraiki - Elena Bashir 2019-08-19

Hindko, Panjabi, and Saraiki are three closely related, geographically contiguous languages of Pakistan. Together, they are the native language of some 125 million people. Panjabi alone ranks among the 15 most widely spoken languages in the world. The Grammar of Hindko, Panjabi, and Saraiki provides a comparative description of these three language

varieties, focusing, where possible, on the variety of Hindko spoken in Abbottabad, the Panjabi spoken in Lahore, and the Saraiki spoken in Multan. Based on both fieldwork and corpus research, the grammar provides coverage of the phonology, orthography, morphology, and syntax of the language, with extensive exemplification presented in the native Perso-Arabic script along with standard Roman representations and morphological analysis. Written in an accessible style from a basic linguistic theory perspective, this work will be of use to linguistic researchers, language scholars, and students of the languages of Pakistan and South Asia.

Love and Sex in Islam - Abdullah R. Muhametov 2013-04-15

Many people both in the West and Russia continue to have a mistaken illusion that love, sex and variability of relations between man and woman are either suppressed in Islam or in contrary exceed all norms of decency. The book is an insight into this matter. The Muslim man is perceived as an ideal type of an always ready sexual partner. Love and Sex in Islam lifts the veil covering the delicate theme, in which the phenomena seeming incompatible turn out to be good neighbors.
