Mayas in the Marketplace - Walter E. Little 2010-07-05

Selling handicrafts to tourists has brought the Maya peoples of Guatemala into the world market. Vendors from rural communities now offer their wares to more than 500,000 international tourists annually in the marketplaces of larger cities such as Antigua, Guatemala City, Panajachel, and Chichicastenango. Like businesspeople anywhere, Maya artisans analyze the desires and needs of their customers and shape their products to meet the demands of the market. But how has adapting to the global marketplace reciprocally shaped the identity and cultural practices of the Maya peoples? Drawing on over a decade of fieldwork, Walter Little presents the first ethnographic study of Maya handicraft vendors in the international marketplace. Focusing on Kaqchikel Mayas who commute to Antigua to sell their goods, he explores three significant issues: how the tourist marketplace conflates global and local distinctions. how the marketplace becomes a border zone where national and international, developed and underdeveloped, and indigenous and non-indigenous come together. how marketing to tourists changes social roles, gender relationships, and ethnic identity in the vendors' home communities. Little's wide-ranging research challenges our current understanding of tourism's negative impact on indigenous communities. He demonstrates that the Maya are maintaining a specific, community-based sense of Maya identity, even as they commodify their culture for tourist consumption in the world market.

Whirlwind Wedding - Jacquie D'Alessandro 2008-12-10

Austin Randolph Jamison, Ninth Duke of Bradford, met the uncanny beauty at the ball at Bradford Hall. And from that first moment, he was stunned. How could this unsophisticated female, who climbed trees in a ball gown to rescue a kitten, know secrets that could ruin his family and speak of danger that threatened them all? Who

was she, this American bluestocking who knew too much, whose innocence shone in her eyes even as her full lips tempted sin? Suddenly the duke knew he could not afford to let her go. Some called it a gift. To Elizabeth Matthews, however, her visions were a responsibility that bound her to protect others from danger, no matter that the gossipmongers whispered she was chasing the duke to the altar. She vowed to use her powers to protect Austin at any cost, reckless of the passions that drove her into his arms, the need that made her his bride, never expecting her marriage to turn into a love match that would become the ton's most delicious scandal. Black Wedding - Angelarosa Weiler 2021-02-20

Una storia scottante, consumata alle pendici dell'Etna, occultata per anni da un mare di omertà per proteggere una piccola vittima innocente. Un percorso che si trascina sempre più lontano dalla Sicilia, passando attraverso città e nazioni in cui si svolgono eventi che modificano la forma dell'anima della protagonista, di pari passo con le esperienze vissute; un movimento interiore legato a reali spostamenti, spesso non voluti e non programmati, che la vita le impone. I sentimenti che prova e che le vengono manifestati sono tutti ammantati da un'ombra, nera come la lava del vulcano. La luce della verità si riaccende dopo decenni sulla costa orientale degli Stati Uniti d'America, in seguito ad un incontro predestinato, fatto di passione trasgressiva e di morte violenta. L'investigazione che fa seguito a quest'ultimo delitto disperde le ombre e svela la dicotomia dei personaggi che hanno fatto la storia di una bambina diventata donna, desiderosa di raggiungere i propri obiettivi grazie ad una determinazione non comune e capace di guardare la verità, anche la più dura e difficile da accettare, al di là dei veli con i quali è stata celata.

Investigations - Stuart A. Kauffman 2002-09-19

"It may be that I have stumbled upon an adequate description of life itself." These modest yet profound words trumpet an imminent paradigm shift in scientific, economic, and technological thinking. In the tradition of Schrödinger's classic *What Is Life?*, Kauffman's *Investigations* is a tour-de-force exploration of the very essence of life itself, with conclusions that radically undermine the scientific approaches on which modern science rests--the approaches of Newton, Boltzman, Bohr, and Einstein. Building on his pivotal ideas about order and evolution in complex life systems, Kauffman finds that classical science does not take into account that physical systems--such as people in a biosphere--effect their dynamic environments in addition to being affected by them. These systems act on their own behalf as autonomous agents, but what defines them as such? In other words, what is life? Kauffman supplies a novel answer that goes beyond traditional scientific thinking by defining and explaining autonomous agents and work in the contexts of thermodynamics and of information theory. Much of *Investigations* unpacks the progressively surprising implications of his definition. Significantly, he sets the stages for a technological revolution in the coming decades. Scientists and engineers may soon seek to create autonomous agents--both organic and mechanical--that can not only construct things and work, but also reproduce themselves! Kauffman also lays out a foundation for a new concept of organization, and explores the requirements for the emergence of a general biology that will transcend terrestrial biology to seek laws governing biospheres anywhere in the cosmos. Moreover, he presents four candidate laws to explain how autonomous agents co-create their biosphere and the startling idea of a "co-creating" cosmos. A showcase of Kauffman's most fundamental and significant ideas, *Investigations* presents a new way of thinking about the fundamentals of general biology that will change the way we understand life itself--on this planet and anywhere else in the cosmos.

Andean Entrepreneurs - Lynn A. Meisch 2013-12-18

Native to a high valley in the Andes of Ecuador, the Otavalos are an indigenous people whose handcrafted textiles and traditional music are now sold in countries around the globe. Known as weavers and merchants since pre-Inca times, Otavalos today live and work in over thirty countries on six continents, while hosting more than 145,000 tourists annually at their Saturday market. In this ethnography of the globalization process, Lynn A. Meisch looks at how participation in the global economy has affected Otavalo identity and culture since the 1970s. Drawing on nearly thirty years of fieldwork, she covers many areas of Otavalo life, including the development of weaving and music as business enterprises, the increase in tourism to Otavalo, the diaspora of Otavalo merchants and musicians around the world, changing social relations at home, the growth of indigenous political power, and current debates within the Otavalo community over preserving cultural identity in the face of globalization and transnational migration. Refuting the belief that contact with the

wider world inevitably destroys indigenous societies, Meisch demonstrates that Otavalos are preserving many features of their culture while adopting and adapting modern technologies and practices they find useful.

Debating the Past - Raul R. Romero 2001-07-19

This volume examines how the search for "cultural authenticity," the dispute over the past, and the role of "modernity" have been instrumental in building the regional musical culture of the Mantaro Valley, a central Peruvian region with about half a million inhabitants. How these people have addressed concerns over the loss of ancient traditions by restructuring colonial and pre-Hispanic traditions into new contexts and forms is explored. Covering private and public music making, along with ritual, ceremonial, and popular uses of music, Romero studies the interaction of music and identity. The book is concerned with a modern regional culture, situated and defined in the context of an emergent nation, which is struggling to build a distinct cultural identity and to recreate values.
