Insertion et désistance des personnes placées sous main de justice - Paul Mbanzoulou 2012-09-01

La notion d'insertion recouvre un ensemble de pratiques, de procédures, de mesures et de dispositifs. De nouvelles questions sont introduites, comme celle de permettre à la personne détenue de mener une vie responsable à l'issue de sa peine et de prévenir de nouvelles infractions. Comment atteindre ses finalités, sachant que l'abandon de l'agir criminel (désistance) résulte à la fois d'un choix personnel, d'un accompagnement, d'un concours de circonstances et d'un parcours singulier ? (Quelques contributions en anglais)

The Urbanization of Rural Dialect Speakers - Stella Maris Bortoni-Ricardo 2008-12-18

This book investigates, from a linguistic point of view, how rural migrants adjust to an urban environment. The focus of Dr Bortoni-Ricardo's study is speakers of Caipira, a dialect of Brazilian Portuguese, who moved into a satellite city of Brasilia. The volume examines in careful detail the historical and synchronic sociolinguistic background of the migrants and the changes that have taken place in their linguistic repertoire, with particular emphasis on phonological variables. Both the theoretical framework and novel methodology employed here derive from the assumption that there are statistically measurable relations between the characteristics of a person's social network and his/her linguistic behaviour. The volume will thus be of interest to all readers, whether linguists, psychologists or anthropologists, interested in language accommodation. As an empirical study of cross-cultural communication problems, it will also be of value to social scientists concerned with the process of rural-urban migration.

The Wretched of the Earth - Frantz Fanon 2007-12-01

The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel

West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

Contemporary Criminological Issues - Carolyn Côté-Lussier 2020-05-05

Contemporary Criminological Issues tackles some of today's most pressing social issues, from the criminalization of Indigenous peoples to interpersonal violence, border control, and armed conflicts. This book advances cutting-edge theories and methods, with the aim of moving beyond the scholarship that reproduces insecurity and exclusion. The breadth of approaches encompasses much of the current critical criminological scholarship, serving as a counterpoint to the growth of managerial and administrative criminologies and the rise of explicitly exclusionary and punitive state policies and practices with respect to 'crime' and 'security.' This edited collection featuring two books, one in English and one in French, includes important contributions to knowledge and public policy by eminent experts and emerging scholars. This book is published in English.

The Society of Captives - Gresham M. Sykes 2020-09-01

The Society of Captives, first published in 1958, is a classic of modern criminology and one of the most important books ever written about prison. Gresham Sykes wrote the book at the height of the Cold War, motivated by the world's experience of fascism and communism to study the closest thing to a totalitarian system in American life: a maximum security prison. His analysis calls into question the extent to which prisons can succeed in their attempts to control every facet of life--or whether the strong bonds between prisoners make it impossible to run a prison without finding ways of "accommodating" the prisoners. Re-released now with a new introduction by Bruce Western and a new epilogue by the author, *The Society of Captives* will continue to serve as an indispensable text for coming to terms with the nature of modern power.

Challenges of Security Sector Governance in West Africa - Alan Bryden 2008

There is currently no comprehensive study of the status of security sector governance in West Africa. Many efforts to understand governance of the security sector in Africa have been directed either at individual

countries or at providing a general analysis of the state and security in Africa. This book is intended to contribute to confidence and peace-building through developing a better understanding of the challenges of security sector governance and generating practical policy recommendations based on work conducted by West African experts. It analyses the nature of security sector governance in each of the 16 West African states, provides an assessment of the effectiveness of governance mechanisms, in particular relating to democratic oversight of the security sector, and takes into account the regional and international dimensions to the issue.

Intercultural Dialogue on Campus - Sjur Bergan 2009-01-01

Modern societies are inconceivable as isolated and mono-cultural entities. The interaction of various cultures is not only a fact of life for most Europeans, it also enriches our societies. However, we also witness tensions between cultures. Intercultural dialogue is therefore one of the political priorities of the Council of Europe, as shown most prominently by the adoption of the White Paper "Living Together as Equals in Dignity" in May 2008. Higher education, by its history and contemporary practice, is a natural partner in and promoter of intercultural dialogue and understanding. Higher education institutions and campuses are themselves multicultural societies, and as such are the focus of the present volume. A second volume will examine the role of higher education in furthering intercultural dialogue and understanding in broader society.

Indian Givers - Jack Weatherford 2010-05-05

"As entertaining as it is thoughtful....Few contemporary writers have Weatherford's talent for making the deep sweep of history seem vital and immediate." --Washington Post After 500 years, the world's huge debt to the wisdom of the Indians of the Americas has finally been explored in all its vivid drama by anthropologist Jack Weatherford. He traces the crucial contributions made by the Indians to our federal system of government, our democratic institutions, modern medicine, agriculture, architecture, and ecology, and in this astonishing, ground-breaking book takes a giant step toward recovering a true American history.

Language Wars and Linguistic Politics - Louis-Jean Calvet 1998

Prison et récidive - Annie Kensey 2007-06-27

La justice - et la société - ont-elles tout faux ? L'obsession de la « récidive » explique en partie la multiplication des condamnations à des peines de plus en plus lourdes, la standardisation croissante du parcours du détenu (moins de libérations conditionnelles, plus de dispositions collectives) et par contrecoup l'inflation carcérale ; elle a motivé, en 2005, l'adoption d'une loi au caractère répressif renforcé. Quelle est la position de la France en Europe ? Que penser des lois récentes qui renforcent la répression des récidivistes ? Les peines plus longues sont-elles une garantie contre la récidive ? La « récidive », qui a une définition juridique, nécessite d'être travaillée selon des méthodes scientifiques pour obtenir une véritable évaluation et permettre une politique pénale responsable. Sa mesure ne peut se réduire à un simple pourcentage global. Le présent ouvrage, solidement documenté, aborde ces questions par la mise en

perspective d'éléments chiffrés, français et européens, ainsi que par l'analyse d'enquêtes empiriques menées depuis plusieurs années. Il apporte un éclairage bienvenu au débat actuel sur la politique carcérale et milite pour une politique pénale responsable : « Enfermer moins et accompagner mieux » s'avère à terme plus efficace que « punir plus lourdement pour dissuader ». Annie KENSEY est docteure en démographie, intervenante à l'ENM et à l'Université de Lyon II. Elle est également chercheuse associée au Laboratoire « Cultures et Sociétés en Europe », UMR no 7043, CNRS-Université Marc Bloch, Strasbourg II. Ouvrage publié sous l'égide de Sebastian Roché et préfacé par Nicole Maestracci.

Global Education Monitoring Report 2020 - UNESCO 2020-07-07

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

Going Up the River - Joseph T. Hallinan 2003-07-08

The American prison system has grown tenfold in thirty years, while crime rates have been relatively flat: 2 million people are behind bars on any given day, more prisoners than in any other country in the world — half a million more than in Communist China, and the largest prison expansion the world has ever known. In *Going Up The River*, Joseph Hallinan gets to the heart of America's biggest growth industry, a self-perpetuating prison-industrial complex that has become entrenched without public awareness, much less voter consent. He answers, in an extraordinary way, the essential question: What, in human terms, is the price we pay? He has looked for answers to that question in every corner of the "prison nation," a world far off the media grid — the America of struggling towns and cities left behind by the information age and desperate for jobs and money. Hallinan shows why the more prisons we build, the more prisoners we create, placating everyone at the expense of the voiceless prisoners, who together make up one of the largest migrations in our nation's history.

The Myth of Mental Illness - Thomas S. Szasz 2011-07-12

"The landmark book that argued that psychiatry consistently expands its definition of mental illness to impose its authority over moral and cultural conflict." — New York Times The 50th anniversary edition of the most influential critique of psychiatry ever written, with a new preface on the age of Prozac and Ritalin and the rise of designer drugs, plus two bonus essays. Thomas Szasz's classic book revolutionized thinking about the nature of the psychiatric profession and the moral implications of its practices. By diagnosing unwanted behavior as mental illness, psychiatrists, Szasz argues, absolve individuals of responsibility for their actions and instead blame their alleged illness. He also critiques Freudian psychology as a pseudoscience and warns against the dangerous overreach of psychiatry into all aspects of modern life.

[Governing Delinquency Through Freedom](#) - Géraldine Bugnon 2020-05-19

This book analyses the non-custodial government of young offenders in two major cities in Brazil. In doing so, it delves into the paradox of an institution exerting control over youths while at the same time promoting their autonomy and responsibility. The study sheds light on the specific logics of power, control, and inequality produced by such institutional settings. The book's analysis is based on an ethnographic study of 'Assisted Freedom' (Liberdade Assistida) - a form of probation - in the Brazilian cities of Rio de Janeiro and Belo Horizonte. This particular context - which is characterized by endemic violent crime, on the one hand, and a highly protective juvenile justice system, on the other - sheds productive light on the contradictions of juvenile justice systems and other public policies based on the values of citizenship, autonomy, and responsabilization. The analysis takes the form of an inverted zoom structure: it begins by looking at cognitive and interactional processes at the level of interpersonal relationships between youths

and professionals, and then works its way up to examine ties outside the institution itself, with schools, the labour market, and juvenile courts. Written in a clear and direct style, this book will appeal to students and scholars in criminology, sociology, cultural studies, and social theory and those interested in learning about non-custodial measures and the regulation of juvenile delinquency.

Sport and Prisons in Europe - Gaëlle Sempé 2018

"There has been growing recognition of the value of sport by the prison system. Its effects are highly beneficial to those in detention and to prison life in general. However, looking at the objectives through to the challenges, we can see that the link between sport and prison is a complex one, and in order to understand it better and to see what lessons can be learned, an in-depth thinking process is required, based on current scientific knowledge in this field and on state policies and practices being implemented in prisons. In the framework of its activities promoting diversity in and through sport, the Enlarged Partial Agreement on Sport (EPAS) of the Council of Europe has been working on the subject of sport and prison since 2013, in close connection with the Council for Penological Co-operation (PC-CP). Following an expert seminar organised in Strasbourg in 2013, a pan-European conference was held in Paris in 2014. The results of a survey which highlighted the numerous examples of good practice regarding sports programmes were discussed. The conference highlighted the need to record the different points of view regarding sport in prison at a pan-European level in order to identify the real challenges."--Back cover.

Droit de l'exécution des peines - Bernard Bouloc 2017-07-05

Ayant pour but d'analyser la peine et le traitement pénal de la délinquance et des délinquants, cet ouvrage tente de rendre compte des dernières évolutions en la matière, notamment de la loi du 15 août 2014 créant la contrainte pénale et ses décrets d'application. La juridiction de jugement mais aussi le juge de l'application des peines peuvent, pour des peines inférieures à deux ans d'emprisonnement ferme, en fixer l'exécution en milieu libre (semi-liberté, placement à l'extérieur). En revanche les criminels dangereux peuvent après la peine principale être soumis à des mesures de sûreté. L'ouvrage rend également compte de l'évolution de la jurisprudence et du droit applicable aux mineurs. Chaque question est accompagnée de nombreuses références aux textes, à la doctrine et à la jurisprudence. Destiné aux étudiants de Master 2, ce Précis s'adresse également aux praticiens issus des concours de l'administration pénitentiaire et aux magistrats de l'application des peines ainsi qu'aux candidats à l'examen d'accès au CRFPA (nouvelle matière au programme de l'épreuve nationale de procédure).

The Death Penalty, Volume I - Jacques Derrida 2013-12-04

In this newest installment in Chicago's series of Jacques Derrida's seminars, the renowned philosopher attempts one of his most ambitious goals: the first truly philosophical argument against the death penalty. While much has been written against the death penalty, Derrida contends that Western philosophy is massively, if not always overtly, complicit with a logic in which a sovereign state has the right to take a life. Haunted by this notion, he turns to the key places where such logic has been established—and to the place it has been most effectively challenged: literature. With his signature genius and patient yet dazzling readings of an impressive breadth of texts, Derrida examines everything from the Bible to Plato to Camus to Jean Genet, with special attention to Kant and post-World War II juridical texts, to draw the landscape of death penalty discourses. Keeping clearly in view the death rows and execution chambers of the United States, he shows how arguments surrounding cruel and unusual punishment depend on what he calls an "anesthetical logic," which has also driven the development of death penalty technology from the French guillotine to lethal injection. Confronting a demand for philosophical rigor, he pursues provocative analyses

of the shortcomings of abolitionist discourse. Above all, he argues that the death penalty and its attendant technologies are products of a desire to put an end to one of the most fundamental qualities of our finite existence: the radical uncertainty of when we will die. Arriving at a critical juncture in history—especially in the United States, one of the last Christian-inspired democracies to resist abolition—The Death Penalty is both a timely response to an important ethical debate and a timeless addition to Derrida's esteemed body of work.

The Great American Novel - Philip Roth 2013-07-02

Philip Roth's richly imagined satiric narrative, *The Great American Novel*, turns baseball's status as national pastime and myth into an unfettered farce. Featuring heroism and perfidy, lively wordplay and a cast of characters that includes the House Un-American Activities Committee. "Roth is better than he's ever been before.... The prose is electric." (The Atlantic) Gil Gamesh is the only pitcher who ever tried to kill the umpire, and John Baal, The Babe Ruth of the Big House, never hit a home run sober. But you've never heard of them -- or of the Ruppert Mundys, the only homeless big-league ball team in American history -- because of the communist plot and the capitalist scandal that expunged the entire Patriot League from baseball memory.

Serious Habitual Offender Comprehensive Action Program - Michael Medaris 1996

Peer Mentoring in Criminal Justice - Gillian Buck 2020-03-26

Peer mentoring is an increasingly popular criminal justice intervention in custodial and community settings. Peer mentors are community members, often with lived experiences of criminal justice, who work or volunteer to help people in rehabilitative settings. Despite the growth of peer mentoring internationally, remarkably little research has been done in this field. This book offers the first in-depth analysis of peer mentoring in criminal justice. Drawing upon a rigorous ethnographic study of multiple community organisations in England, it identifies key features of criminal justice peer mentoring. Findings result from interviews with people delivering and using services and observations of practice. *Peer Mentoring in Criminal Justice* reveals a diverse practice, which can involve one-to-one sessions, group work or more informal leisure activities. Despite diversity, five dominant themes are uncovered. These include Identity, which is deployed to inspire change and elevate knowledge based on lived experiences; Agency, or a sense of self-direction, which emerges through dialogue between peers; Values or core conditions, including caring, listening and taking small steps; Change, which can be a terrifying and difficult struggle, yet can be mediated by mentors; and Power, which is at play within mentoring relationships and within the organisations, contexts and ideologies that surround peer mentoring. Peer mentoring offers mentors a practical opportunity to develop confidence, skills and hope for the future, whilst offering inspiration, care, empathy and practical support to others. Written in a clear and direct style this book will appeal to students and scholars in criminology, sociology, cultural studies, social theory and those interested in learning about the social effects of peer mentoring.
