Working Collaboratively in Second/Foreign Language Learning - María del Pilar García
Mayo 2021-01-18

Since the introduction of communicative language teaching, collaborative learning has played an important role in the second language (L2) classroom. Drawing from sociocultural theory, which states that human cognitive development is a socially situated activity mediated by language, studies in L2 pedagogy advocate the use of tasks that require learners to work together. Collaborative dialogue encourages language learning, and research shows that the solutions reached by students in this process are more often correct with a lasting influence on their language comprehension. This volume includes ten chapters that illustrate the benefits of collaborative dialogue in second foreign language classrooms. The volume considers key issues dealing with collaborative tasks and implications for language teaching.

The End of Privacy - Reg Whitaker 2010-10
Now in paperback, a sobering look at the threats to privacy posed by the new information technologies. Called "one of the best books yet written on the new information age" by Kirkus Reviews and now available in paperback, *The End of Privacy* shows how vast amounts of personal information are moving into corporate hands. Once there, this data can be combined and used to develop electronic profiles of individuals and groups that are potentially far more detailed, and far more intrusive, than the files built up in the past by state police and security agencies. Reg Whitaker shows that private e-mail can be read; employers can monitor workers' every move throughout the work day; and the U.S. Treasury can track every detail of personal and business finances. He goes on to demonstrate that we are even more vulnerable as consumers. From the familiar - bar-coding, credit and debit cards, online purchases - to the seemingly sci - -"smart cards" that encode medical and criminal records, and security scans that read DNA - *The End of Privacy* reveals how ordinary citizens are losing control of the information about them that is available to anyone who can pay for it.

The discussion is framed by opposing characterizations of current intellectuals as apocalyptic and opposed to all mass culture, or as integrated intellectuals, so much a part of mass culture as to be unaware of serving it.

Organized in four main parts, "Mass Culture: Apocalypse Postponed," "Mass Media and the Limits of Communication," "The Rise and Fall of Counter-Cultures," and "In Search of Italian Genius," Eco looks at a variety of topics and cultural productions, including the world of Charlie Brown, distinctions between highbrow and lowbrow, the future of literacy, Chinese comic strips, whether countercultures exist, Fellini's Ginger and Fred, and the Italian genius industry.

Insight - Tasha Eurich 2017-05-18

Do you understand who you really are? Or how others really see you? We all know people with a stunning lack of self-awareness - but how often do we consider whether we might have the same problem? Research shows that self-awareness is the meta-skill of the 21st century - the foundation for high performance, smart choices, and lasting relationships. Unfortunately, we are remarkably poor judges of ourselves and how we come across, and it's rare to get candid, objective feedback from colleagues, employees, and even friends and family. Integrating hundreds of studies with her own research and work in the Fortune 500 world, organizational psychologist Tasha Eurich shatters conventional assumptions about what it takes to truly know ourselves - like why introspection isn't a bullet train to insight, how experience is the enemy of self-knowledge, and just how far others will go to avoid telling us the truth about ourselves.

Through stories of people who've made dramatic self-awareness gains, she offers surprising

secrets, techniques and strategies to help readers do the same - and therefore improve their work performance, career satisfaction, leadership potential, relationships, and more. At a time when self-awareness matters more than ever, *Insight* is the essential playbook for surviving and thriving in an unaware world.

Migrant Longing - Miroslava Chávez-García 2018-03-22

Drawing upon a personal collection of more than 300 letters exchanged between her parents and other family members across the U.S.-Mexico border, Miroslava Chavez-Garcia recreates and gives meaning to the hope, fear, and longing migrants experienced in their everyday lives both "here" and "there" (aqui y alla). As private sources of communication hidden from public consumption and historical research, the letters provide a rare glimpse into the deeply emotional, personal, and social lives of ordinary Mexican men and women as recorded in their immediate, firsthand accounts. Chavez-Garcia demonstrates not only how migrants struggled to maintain their sense of humanity in el norte but also how those remaining at home made sense of their changing identities in response to the loss of loved ones who sometimes left for weeks, months, or years at a time, or simply never returned. With this richly detailed account, ranging from the Mexican Revolution of the 1910s to the emergence of Silicon Valley in the late 1960s, Chavez-Garcia opens a new window onto the social, economic, political, and cultural developments of the day and recovers the human agency of much maligned migrants in our society today.

Research, Literacy, and Communication Education - Bel'en Puebla-Martínez 2021-11-30

The information that comes through digital media and social networks is increasing. This potential access to almost infinite information makes it difficult to select relevant content with a good understanding. It is therefore necessary to generate research that thoroughly analyses the phenomenon of communication and

information in the digital age. For this reason, this monograph presents different research studies that highlight the need for greater media literacy and education in order to prevent the existence and dissemination of fake news. Citizens must know how to deal with disinformation and be able to detect the source of bad intentions behind information. Therefore, people need to be aware of the new communication challenges in order to determine what is important, which media they can trust, and where information has been misused or manipulated. In conclusion, society must be prepared to face new challenges related to misinformation. An educated and digitally literate society will be able to face these problems and be prepared to face the new communication challenges, including interaction with social networks, new audiences, new media, fake news, etc.

This collaboration, their first since the classic *Brown Bear, Brown Bear, What Do You See?* (published more than thirty years ago and still a best-seller) shows two masters at their best.

Happy Campers 2 SB Flip - Angela Llanas 2015-01-02

Between Here and the Yellow Sea - Nic Pizzolatto 2010-05-22

A debut collection of short fiction from this National Magazine Award in Fiction finalist. Set in a variety of Southern and Midwestern landscapes — from Missouri's Ha Ha Tonka State Park to a crop circle at a Minnesotan farm — the stories in 'Between Here and the Yellow Sea' excavate the ambiguous terrain of the human heart. With a forceful and compassionate voice, Pizzolatto finds beauty in loneliness as his characters attempt to bridge the gulfs between themselves and others, past and present, and, sometimes, between their inner and outer selves. In this both heartbreaking and humorous collection, we meet a base-jumping, samurai park ranger who parachutes off the St. Louis Arch; a stained glass artist who struggles over his masterpiece and learns through great loss what his true subject will be; and a religious elementary school teacher who tries to understand her rebellious, militant son. In the title story, which first appeared in the Atlantic Monthly, an orphaned young man and his former high school football coach set out to kidnap the coach's daughter from Los Angeles and bring her back to east Texas. With an assured, poignant voice, Pizzolatto places us at the crossroads of memory and desire, somewhere between here and the Yellow Sea.

The Basques of New York - Gloria Pilar Totoricaguena 2004

"Depicting Basque mutual aid societies, language courses, musical and dance troupes, cuisine classes, community activities, sport, political involvement, and ties to homeland institutions are just a few of the ingredients which mix to compose the chapters of this work. Readers will learn about the history and reasons why Basques left the Pyrenees of northern Spain and southern France from the personal experiences of political and economic exiles' oral histories. Original archival research allows us to discover the features of the early 1900s Centro Vasco-Americano, the Basque Government-in-exile Delegation in New York, and the development of Basque organizations. "Basqueness" is being redefined in this transnational cosmopolitan community, and with the pioneer spirit of their ancestors, latter generation Basques are nurturing and promoting Basque culture and identity to the world."--
