A Book of the Pyrenees - Sabine Baring-Gould 1907

The Pyrenees stand up as a natural wall of demarcation between two nations, the French and the Spaniards, just as the mountains of Dauphin^o sever the French from the Italians. It has been remarked that these natural barriers are thrown up to part Romance-speaking peoples, whereas the mountain ranges sink to comparative

insignificance between the French and the Germans. Over the Jura the French tongue has flowed up the Rhone to Sierre, above the Lake of Geneva, so the Spanish or Catalan has overleaped the Pyrenees in Roussillon, and the Basque tongue has those who speak it in both cis-Pyrenean and trans-Pyrenean Navarre. The Pyrenees are the upcurled lips of the huge limestone sea-bed, that at some vastly remote period was snapped from east to west, and through the fissure thus formed the granite was thrust, lifting along with it the sedimentary rocks.

The Horse in Premodern European Culture - Anastasija Ropa 2020-01-20

This volume provides a unique introduction to the most topical issues, advances, and challenges in medieval horse history. Medievalists who have a long-standing interest in horse history, as well as those seeking to widen their understanding of horses in medieval society will find here informed and comprehensive treatment of chapters from disciplines as diverse as archaeology, legal, economic and military history, urban and rural history, art and literature. The themes range from case studies of saddles and bridles, to hippiatric treatises, to the medieval origins of dressage literary studies. It shows the ubiquitous – and often ambiguous – role of the horse in medieval culture, where it was simultaneously a treasured animal and a means of transport, a military machine and a loyal companion. The contributors, many of whom have practical knowledge of horses, are drawn from established and budding scholars working in their areas of expertise.

The Rights of War and Peace - Hugo Grotius 1901

Handbook of Enology, Volume 1 - Pascal Ribéreau-Gayon 2006-05-01

The "Microbiology" volume of the new revised and updated Handbook of Enology focuses on the vinification process. It describes how yeasts work and how they can be influenced to achieve better results. It continues to

look at the metabolism of lactic acid bacterias and of acetic acid bacterias, and again, how can they be treated to avoid disasters in the winemaking process and how to achieve optimal results. The last chapters in the book deal with the use of sulfur-dioxide, the grape and its maturation process, harvest and pre-fermentation treatment, and the basis of red, white and speciality wine making. The result is the ultimate text and reference on the science and technology of the vinification process: understanding and dealing with yeasts and bacterias involved in the transformation from grape to wine. A must for all serious students and practitioners involved in winemaking.

Storied Places - Virginia Reinburg 2020-06-11

Pilgrim shrines were places of healing, holiness, and truth in early modern France. By analyzing the creation of these pilgrim shrines as natural, legendary, and historic places whose authority provided a new foundation for post-Reformation Catholic life, Virginia Reinburg examines the impact of the Reformation and religious wars on French society and the French landscape. Divided into two parts, Part I offers detailed studies of the shrines of Sainte-Reine, Notre-Dame du Puy, Notre-Dame de Garaison, and Notre-Dame de Betharram, showing how nature, antiquity, and images inspired enthusiasm among pilgrims. These chapters also show that the category of 'pilgrim' included a wide variety of motivations, beliefs, and acts. Part II recounts how shrine chaplains authored books employing history, myth, and archives in an attempt to prove that the shrines were authentic, and to show that the truths they exemplified were beyond dispute.

The Voyages of Jacques Cartier - Ramsay Cook 2017-05-24
Jacques Cartier's voyages of 1534, 1535, and 1541 constitute the first record of European impressions of the St Lawrence region of northeastern North America and its peoples. The Voyages are rich in details about almost every aspect of the region's environment and the people who inhabited it. As Ramsay Cook points out in his introduction, Cartier was more than an explorer; he was also Canada's first ethnographer. His accounts provide a wealth of information about the native people of the region and their relations with each other. Indirectly, he also reveals much about himself and about sixteenth-century European attitudes and beliefs. These memoirs recount not only the French experience with the Iroquois, but also the Iroquois' discovery of the French. In addition to Cartier's Voyages, a slightly amended version of H.P. Biggar's 1924 text, the volume includes a series of letters relating to Cartier and the Sieur de Roberval, who was in command of Cartier on the last voyage. Many of these letters appear for the first time in English. Ramsay Cook's introduction, 'Donnacona Discovers Europe,' rereads the documents in the light of recent scholarship as well as from contemporary perspectives in order to understand better the viewpoints of Cartier and the native people with whom he came into contact.

Classification of American Wheat Varieties - Jacob Allen Clark 1922

John Milton - John T. Shawcross 1993-01-01

"Winner of the James Holly Hanford Prize given by the Milton Society of America An exploration into the mind of John Milton that probes deeper than previous biographical studies, John Shawcross's award-winning text examines the psychological underpinnings of Milton's decision to become a poet, the homoerotic dimensions of his personality, and his relationships with his father and mother. John T. Shawcross is professor emeritus of English at the University of Kentucky and the author and editor of many books. See other books in the series Studies in the English Renaissance.
