The School Garden Curriculum - Kaci Rae Christopher 2019-04-23
Sow the seeds of science and wonder and inspire the next generation of Earth stewards The School Garden Curriculum offers a unique and comprehensive framework, enabling students to grow their knowledge throughout the school year and build on it from kindergarten to eighth grade. From seasonal garden activities to inquiry projects and science-skill building, children will develop organic gardening solutions, a positive land ethic, systems thinking, and instincts for ecological stewardship. The world needs young people to grow into strong, scientifically literate environmental stewards. Learning gardens are great places to build this knowledge, yet until now there has been

a lack of a multi-grade curriculum for school-wide teaching aimed at fostering a connection with the Earth. The book offers: A complete K-8 school-wide framework Over 200 engaging, weekly lesson plans – ready to share Place-based activities, immersive learning, and hands-on activities Integration of science, critical thinking, permaculture, and life skills Links to Next Generation Science Standards Further resources and information sources. A model and guide for all educators, The School Garden Curriculum is the complete package for any school wishing to use ecosystem perspectives, science, and permaculture to connect children to positive land ethics, personal responsibility, and wonder, while building vital lifelong skills.

You've Always Wanted offers modern perspectives on the ancient path of the spiritual disciplines. But this is more than just a book about things we should do if we want to be good Christians. It's a road map toward true transformation, compelling because it starts not with ourselves but with the object of our journey - Jesus Christ. Includes Study Guide

John Ortberg is a teaching pastor at Willow Creek Community Church in South Barrington, Illinois. He has written for Christianity Today and is a frequent contributor to Leadership Journal.

and way of life. Pretty Much Everything is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the “Things We

Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin’s humor and pointed observations on the contemporary design scene, Draplin Design Co. is the complete package for the new generation of designers.
