**"Throw the book away"** - Amie A. Doughty 2013-05-07

Children's literature is an excellent way to educate children, on everything from social behavior and beliefs to attitudes toward education itself. A major aspect of children's literature is the importance of books and reading. Books represent adult authority. This book examines the role that books, reading and writing play in children's fantasy fiction, from books that act as artifacts of power (The Abhorsen Trilogy, The Spiderwick Chronicles, Harry Potter) to interactive books (The Neverending Story, Malice, Inkheart) to books with character-writers (Percy Jackson, Captain Underpants). The author finds that although books and reading often play a prominent role in fantasy for children, the majority of young protagonists gain self-sufficiency not by reading but specifically by moving beyond books and reading.

*'Tis the Season (Short Reads)* - China Miéville 2011-02-05

Call me childish, but I love all the nonsense - the snow, the trees, the tinsel, the turkey. I love presents. I love carols and cheesy songs. I just love Christmas™. It would be a dream come true to be able to celebrate Christmas properly: to wake up to a Stocking™, visit Santa™ and open Presents™ around the Christmas Tree™. But this is a luxury reserved for those with shares in YuleCo - controllers of this joyful season - who don't agree that it's a holiday for one and all. In this short story, 'Tis the Season, which also features in the collection *Looking for Jake and Other Stories*, China Miéville's astonishing imagination allows us a glimpse of how a dystopian Christmas might be.

**Discourses of Postcolonialism in Contemporary British Children's Literature** - Blanka Grzegorzczak 2014-10-03

This book considers how contemporary British children's books engage with some of the major cultural debates of recent years, and how they resonate with the current preoccupations and tastes of the white mainstream British reading public. A central assumption of this volume is that Britain's imperial past continues to play a key role in its representations of race, identity, and history. The insistent inclusion of questions relating to colonialism and power structures in recent children's novels exposes the complexities and contradictions surrounding the fictional treatment of race relations and ethnicity. Postcolonial children's literature in Britain has been inherently ambivalent since its cautious beginnings: it is both transgressive and authorizing, both undercutting and excluding. Grzegorzczak considers the ways in which children's fictions have worked with and against particular ideologies of race. The texts analyzed in this collection portray ethnic minorities as complex, hybrid products of colonialism, global migrations, and the ideology of multiculturalism. By examining the ideological content of these novels, Grzegorzczak demonstrates the centrality of the colonial past to contemporary British writing for the young.

**Un Lun Dun** - China Miéville 2007-02-13

NEW YORK TIMES BESTSELLER • "Endlessly inventive . . . [a] hybrid of Alice in Wonderland, The Wizard of Oz, and The Phantom Tollbooth."—Salon What is Un Lun Dun? It is London through the looking glass, an urban Wonderland of strange delights where all the lost and broken things of London end up . . . and some of its

lost and broken people, too—including Brokkenbroll, boss of the broken umbrellas; Obaday Fing, a tailor whose head is an enormous pin-cushion, and an empty milk carton called Curdle. Un Lun Dun is a place where words are alive, a jungle lurks behind the door of an ordinary house, carnivorous giraffes stalk the streets, and a dark cloud dreams of burning the world. It is a city awaiting its hero, whose coming was prophesied long ago, set down for all time in the pages of a talking book. When twelve-year-old Zanna and her friend Deeba find a secret entrance leading out of London and into this strange city, it seems that the ancient prophecy is coming true at last. But then things begin to go shockingly wrong. BONUS: This edition contains an excerpt from China Miéville's *Embassytown*. Praise for Un Lun Dun "Miéville fills his enthralling fantasy with enough plot twists and wordplay for an entire trilogy, and that is a good thing. A-."—Entertainment Weekly "For style and inventiveness, turn to Un Lun Dun, by China Miéville, who throws off more imaginative sparks per chapter than most authors can manufacture in a whole book. Miéville sits at the table with Lewis Carroll, and Deeba cavorts with another young explorer of topsy-turvy worlds."—The Washington Post Book World "Delicious, twisty, ferocious fun . . . so crammed with inventions, delights, and unexpected turns that you will want to start reading it over again as soon as you've reached the end."—Kelly Link, author of *Magic for Beginners* "[A] wondrous thrill ride . . . Like the best fantasy authors, [Miéville] fully realizes his imaginary city." —The A.V. Club "Miéville's compelling heroine and her fantastical journey through the labyrinth of a strange London forms that rare book that feels instantly like a classic and yet is thoroughly modern."—Holly Black, bestselling author of *The Spiderwick Chronicles*

Descend to the depths of primal horror with this chilling collection of original stories drawn from H. P. Lovecraft's shocking, terrifying, and eerily prescient Cthulhu Mythos. In twenty-one dark visions, a host of outstanding contemporary writers tap into our innermost fears, with tales set in a misbegotten new world that could have been spawned only by the master of the macabre himself, H. P. Lovecraft. Inside you'll find: "Details" by China Miéville: A curious boy discovers that within the splinters of cracked wood or the tangle of tree branches, the devil is in the details. "Visitation" by James Robert Smith: When Edgar Allan Poe arrives, a callow man finally gets what he always wanted—and what he may eternally despise. "Meet Me on the Other Side" by Yvonne Navarro: A couple in love with terror travels beyond their wildest dreams—and into their nightmares. Kiernan "A Spectacle of a Man" by Weston Ochse "The Firebrand Symphony" by Brian Hodge "Teeth" by Matt Cardin *Kraken* - China Miéville 2011-03-15

With this outrageous new novel, China Miéville has written one of the strangest, funniest, and flat-out scariest books you will read this—or any other—year. The London that comes to life in *Kraken* is a weird metropolis awash in secret currents of myth and magic, where criminals, police, cultists, and wizards are

locked in a war to bring about—or prevent—the End of All Things. In the Darwin Centre at London's Natural History Museum, Billy Harrow, a cephalopod specialist, is conducting a tour whose climax is meant to be the Centre's prize specimen of a rare *Architeuthis dux*—better known as the Giant Squid. But Billy's tour takes an unexpected turn when the squid suddenly and impossibly vanishes into thin air. As Billy soon discovers, this is the precipitating act in a struggle to the death between mysterious but powerful forces in a London whose existence he has been blissfully ignorant of until now, a city whose denizens—human and otherwise—are adept in magic and murder. There is the Congregation of God Kraken, a sect of squid worshippers whose roots go back to the dawn of humanity—and beyond. There is the criminal mastermind known as the Tattoo, a merciless maniac inked onto the flesh of a hapless victim. There is the FSRC—the Fundamentalist and Sect-Related Crime Unit—a branch of London's finest that fights sorcery with sorcery. There is Wati, a spirit from ancient Egypt who leads a ragtag union of magical familiars. There are the Londonmancers, who read the future in the city's entrails. There is Grisamentum, London's greatest wizard, whose shadow lingers long after his death. And then there is Goss and Subby, an ageless old man and a cretinous boy who, together, constitute a terrifying—yet darkly charismatic—demonic duo. All of them—and others—are in pursuit of Billy, who inadvertently holds the key to the missing squid, an embryonic god whose powers, properly harnessed, can destroy all that is, was, and ever shall be.

**Superpower** - M. Keith Booker 2010-05-01

Supernatural and superhuman elements have been prominent in American culture from the time of the New England Puritans' intense emphasis on religion. Superpower surveys the appearance of supernatural and superhuman elements in American culture, focusing on the American fascination with narratives involving supernatural adventure, superhuman heroes, and vast conspiracies driven by supernatural evil. In particular, M. Keith Booker suggests that the popularity of such themes indicates a deep-seated dissatisfaction with the rationalized world of contemporary American society. Booker details the development of the national myths underlying the characters of Superman, Batman, and Spiderman; television hits from *Star Trek* to *Lost*; and the franchises of *Pirates of the Caribbean* and *The Lord of the Rings*. This culture-spanning investigation begins with a historical survey of supernatural and superhuman themes in American culture and concludes with the recent upsurge that began in the 1990s. It then turns to various works of recent popular culture with supernatural and superhuman themes such as *Twin Peaks*, *The X-Files*, and *Buffy the Vampire Slayer*, organized according to the desires to which these works respond. What do these fantasies reveal about what it means to be American today—and what we want it to mean?

**Childhood, Science Fiction, and Pedagogy** - David W. Kupferman 2019-04-24

This book invites readers to both reassess and reconceptualize definitions of childhood and pedagogy by imagining the possibilities - past, present, and future - provided by the aesthetic turn to science fiction. It explores constructions of children, childhood, and pedagogy through the multiple lenses of science fiction as a method of inquiry, and discusses what counts as science fiction and why science fiction counts. The book examines the notion of relationships in a variety of genres and stories; probes affect in the convergence of childhood and science fiction; and focuses on questions of pedagogy and the ways that science fiction can reflect the status quo of schooling theory, practice, and policy as well as offer alternative educative possibilities. Additionally, the volume explores connections between children and childhood studies, pedagogy and posthumanism. The various contributors use science fiction as the frame of reference through which conceptual links between inquiry and narrative, grounded in theories of media studies, can be developed.

**Narratives of fear and safety** - Kaisa Kaukiainen 2020-09-01

The essays in this edited volume, written in English and French, tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media. The articles bring forth new, cross-cultural interpretations on fear and safety through examining what kinds of genre-specific means of world-making narratives use to express these two affectivities. The articles also show how important it is to study these themes in order to understand challenges in times of global threats, such as the climate crisis. The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations. Recent trends in research, such as affect and risk theory, serve as the basis for the discussion. The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear. These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past. Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape. Dystopian narratives do not only deal with future threats, such as totalitarianism, technocracy, or environmental disasters, but also suggest alternative ways of being and new hopes in the form of political resistance.

**Other Worlds Than These** - John Adams 2012-06-26

What if you could not only travel any location in the world, but to any possible world? We can all imagine such "other worlds"—be they worlds just slightly different than our own or worlds full of magic and wonder—but it is only in fiction that we can travel to them. From *The Wizard of Oz* to *The Dark Tower*, from Philip Pullman's *The Golden Compass* to C. S. Lewis's *The Chronicles of Narnia*, there is a rich tradition of this kind of fiction, but never before have the best parallel world stories and portal fantasies been collected in a single volume—until now.

**Constructing the Adolescent Reader in Contemporary Young Adult Fiction** - Elisabeth Rose Gruner 2019-05-17

This book examines the way young adult readers are constructed in a variety of contemporary young adult fictions, arguing that contemporary young adult novels depict readers as agents. Reading, these novels suggest, is neither an unalloyed good nor a dangerous ploy, but rather an essential, occasionally fraught, by turns escapist and instrumental, deeply pleasurable, and highly contentious activity that has value far beyond the classroom skills or the specific content it conveys. After an introductory chapter that examines the state of reading and young adult fiction today, the book examines novels that depict reading in school, gendered and racialized reading, reading magical and religious books, and reading as a means to developing civic agency. These examinations reveal that books for teens depict teen readers as doers, and suggest that their ability to read deeply, critically, and communally is crucial to the development of adolescent agency.

**Three Versions of Judas** - Richard G. Walsh 2016-04-01

Judas Iscariot, known for his betrayal of Jesus, is a key figure in the Gospel narratives. As an insider become

outsider, Judas demarcates Christian boundaries of good and evil. 'Three Versions of Judas' examines the role of Judas in Christian myth-making. The book draws on Jorge Luis Borges' "Three Versions of Judas" to present three Judases in the Gospels: a Judas necessary to the divine plan; a Judas who is a determined outsider, denying himself for God's glory; and a Judas who is demonic. Exploring the findings of biblical criticism and artistic responses to Judas, 'Three Versions of Judas' offers an analysis of the evil necessarily inherent in Christian narratives about Judas.

Rethinking Race and Identity in Contemporary British Fiction - Sara Upstone 2016-10-04

This book takes a post-racial approach to the representation of race in contemporary British fiction, re-imagining studies of race and British literature away from concerns with specific racial groups towards a more sophisticated analysis of the contribution of a broad, post-racial British writing. Examining the work of writers from a wide range of diverse racial backgrounds, the book illustrates how contemporary British fiction, rather than merely reflecting social norms, is making a radical contribution towards the possible future of a positively multi-ethnic and post-racial Britain. This is developed by a strategic use of the realist form, which becomes a utopian device as it provides readers with a reality beyond current circumstances, yet one which is rooted within an identifiable world. Speaking to the specific contexts of British cultural politics, and directly connecting with contemporary debates surrounding race and identity in Britain, the author engages with a wide range of both mainstream and neglected authors, including Ian McEwan, Zadie Smith, Julian Barnes, John Lanchester, Alan Hollinghurst, Martin Amis, Jon McGregor, Andrea Levy, Bernardine Evaristo, Hanif Kureishi, Kazuo Ishiguro, Hari Kunzru, Nadeem Aslam, Meera Syal, Jackie Kay, Maggie Gee, and Neil Gaiman. This cutting-edge volume explores how contemporary fiction is at the centre of re-thinking how we engage with the question of race in twenty-first-century Britain.

Including topics such as classic English ghost stories, blockbuster Antarctic thrillers, prize-winning Montreal crime fiction, J. R. R. Tolkien's Middle-earth, and China Miéville's Bas-Lag, among others, this book brings together analyses of the real-and-imagined settings of some of the most widely read authors and texts of the twentieth and twenty-first centuries to show how they have an immeasurable impact on our spatial awareness and imagination.

**The Films of Robin Williams** - Johnson Cheu 2019-05-28

From his first appearance as Mork from Ork on the 1970s sitcom Happy Days, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like Mrs. Doubtfire, Good Morning, Vietnam, Good Will Hunting, The Fisher King, Dead Poets Society and Aladdin. Contributors explore his earlier work (Mork and Mindy, The World According to Garp) and his political and satirical films (Moscow on the Hudson, Toys). Williams's darker, less well-known fare, such as Being Human, One Hour Photo, Final Cut and Boulevard, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

**Art and Idea in the Novels of China Miéville** - Carl Freedman 2015-09-07

This book offers (in the first six chapters) critical readings of six novels by China Miéville, which are followed (in the seventh chapter) by a theoretical meditation on some of the conceptual issues raised by and engaged in the Miéville oeuvre. There comes a moment in *The City & the City*, though it is not necessarily the same moment for every reader, when you realise that Beszel and Ul Qoma are not separate realms but the same space divided. Likewise, art and idea are often subject to absurd partition, but then along comes an author such as China Miéville who shows them to be, in truth, indissoluble. So argues Freedman's inordinately readable and just as rigorous account of Miéville's major novels. Highly recommended. (Mark Bould, University of the West of England) Freedman offers a compelling interpretation of Miéville's novels informed equally by an impressive range of literary influences and a carefully documented exploration of historical antecedents. Seeing Miéville's genre hybridity as an illustration of the power of dialectical thinking, Freedman illuminates the complex utopian project of Miéville's fiction. Freedman is one of our finest critical voices on Miéville, one of the most important speculative writers of the 21st century. (Sherryl Vint, University of California, Riverside)

**China Miéville** - Tony Venezia 2015-12-01

The chapters in this collection respond to the range of interests that have shaped Miéville's fiction from his influential role in contemporary genre debates, to his ability to pose serious philosophical questions about state control, revolutionary struggle, regimes of apartheid, and the function of international law in a globalized world. This collection demonstrates how Miéville's fictions offer a striking example of contemporary literature's ability to imagine alternatives to neoliberal capitalism at a time of crisis for leftist ideas within the political realm.

**Theory for Beginners** - Kenneth B. Kidd 2020-11-03

Since its inception in the 1970s, the Philosophy for Children movement (P4C) has affirmed children's literature as important philosophical work. Theory, meanwhile, has invested in children's classics, especially Lewis Carroll's Alice books, and has also developed a literature for beginners that resembles children's literature in significant ways. Offering a novel take on this phenomenon, Theory for Beginners explores how philosophy and theory draw on children's literature and have even come to resemble it in their strategies for cultivating the child and/or the beginner. Examining everything from the rise of French Theory in the United States to the crucial pedagogies offered in children's picture books, from Alison Bechdel's graphic memoir Are You My Mother? and Lemony Snicket's A Series of Unfortunate Events to studies of queer childhood, Kenneth B. Kidd deftly reveals the way in which children may learn from philosophy and vice versa.

**The Child to Come** - Rebekah Sheldon 2016-11-01

Generation Anthropocene. Storms of My Grandchildren. Our Children's Trust. Why do these and other attempts to imagine the planet's uncertain future return us—again and again—to the image of the child? In The Child to Come, Rebekah Sheldon demonstrates the pervasive conjunction of the imperiled child and the threatened Earth and blisteringly critiques the logic of catastrophe that serves as its motive and its method. Sheldon explores representations of this perilous future and the new figurations of the child that have arisen in response to it. Analyzing catastrophe discourse from the 1960s to the present—books by Joanna Russ, Margaret Atwood, and Cormac McCarthy; films and television series including Southland Tales, Battlestar Galactica, and Children of Men; and popular environmentalism—Sheldon finds the child standing in the place of the human species, coordinating its safe passage into the future through the promise of one more generation. Yet, she contends, the child figure emerges bound to the very forces of nonhuman vitality he was forged to contain. Bringing together queer theory, ecocriticism, and science studies, The Child to Come draws on and extends arguments in childhood studies about the interweaving of the child with the life sciences. Sheldon reveals that neither life nor the child are what they used to be. Under pressure from ecological change, artificial reproductive technology, genetic engineering, and the neoliberalization of the economy, the queerly human child signals something new: the biopolitics of reproduction. By promising the pliability of the body's vitality, the pregnant woman and the sacred child have become the paradigmatic figures for twenty-first century biopolitics.
