Transforming the Future (Open Access) - Riel Miller 2018-04-27

People are using the future to search for better ways to achieve sustainability, inclusiveness, prosperity, well-being and peace. In addition, the way the future is understood and used is changing in almost all domains, from social science to daily life. This book presents the results of significant research undertaken by UNESCO with a number of partners to detect and define the theory and practice of anticipation around the world today. It uses the concept of 'Futures Literacy' as a tool to define the understanding of anticipatory systems and processes - also known as the Discipline of Anticipation. This innovative title explores: • new topics such as Futures Literacy and the Discipline of Anticipation; • the evidence collected from over 30 Futures Literacy Laboratories and presented in 14 full case studies; • the need and opportunity for significant innovation in human decision-making systems. This book will be of great interest to scholars, researchers, policy-makers and students, as well as activists working on sustainability issues and innovation, future studies and anticipation studies. Satie the Bohemian - Steven Moore Whiting 1999-02-18

Erik Satie (1866-1925) came of age in the bohemian subculture of Montmartre, with its artists' cabarets and cafés-concerts. Yet apologists have all too often downplayed this background as potentially harmful to the reputation of a composer whom they regarded as the progenitor of modern French music. Whiting argues, on the contrary, that Satie's two decades in and around Montmartre decisively shaped his aesthetic priorities and compositional strategies. He gives the fullest account to date of Satie's professional activities as a popular musician, and of how he transferred the parodic techniques and musical idioms of cabaret entertainment to works for concert hall. From the esoteric *Gymnopédies* to the bizarre suites of the 1910s and avant-garde ballets of the 1920s (not to mention music journalism and playwriting), Satie's output may be daunting in its sheer diversity and heterodoxy; but his radical transvaluation of received artistic values makes far better sense once placed in the fascinating context of bohemian Montmartre.

The Motives of Proteus - José Enrique Rodó 1928

Gender and Power - Mino Vianello 2016-09-23

Despite explicit commitments to gender equality, women experience complex modes of disadvantage and discrimination in all nations of the world. Offering sophisticated insights into the persistence of gendered differences in opportunities, roles, power, and rights in societies across the globe, this volume investigates factors that both enable and constrain women's advancement. From intimate relations within families, to social norms, relations, ideologies, and structures of power, to political institutions, electoral systems, and public policies, the chapters analyze possibilities for and obstacles to inclusive democratic practices and identify interventions essential to enable democratic values to take root. Contributors from Africa, Asia, Europe, Latin America, and the USA provide detailed assessments of the social, economic, and political condition of women, their mobilizations to produce transform gendered power and authority in diverse nations, and their efforts to enhance the quality of their lives, their communities, and democratic governance.

Lifestyle Migration - Michaela Benson 2016-05-06

Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate, spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale, migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry, until now. This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations, exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions (and constraints) which frame lifestyle migration, laying the groundwork for further intellectual enquiry. Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility, migration, lifestyle and culture across the social sciences.

Deleuze and Guattari's Anti-Oedipus - Eugene W. Holland 2002-01-04

Eugene W. Holland provides an excellent introduction to Gilles Deleuze and Felix Guattari's *Anti-Oedipus* which is widely recognized as one of the most influential texts in philosophy to have appeared in the last thirty years. He lucidly presents the theoretical concerns behind *Anti-Oedipus* and explores with clarity the diverse influences of Marx, Freud, Nietzsche and Kant on the development of Deleuze & Guattari's thinking. He also examines the wider implications of their work in revitalizing Marxism, environmentalism, feminism and cultural studies.

Mathematical Problem Solving - ALAN H. SCHOENFELD 2014-06-28

This book is addressed to people with research interests in the nature of mathematical thinking at any level, to people with an interest in "higher-order thinking skills" in any domain, and to all mathematics teachers. The focal point of the book is a framework for the analysis of complex problem-solving behavior. That framework is presented in Part One, which consists of Chapters 1 through 5. It describes four qualitatively different aspects of complex intellectual activity: cognitive resources, the body of facts and procedures at one's disposal; heuristics, "rules of thumb" for making progress in difficult situations; control, having to do with the efficiency with which individuals utilize the knowledge at their disposal; and belief systems, one's perspectives regarding the nature of a discipline and how one goes about working in it. Part Two of the book, consisting of Chapters 6 through 10, presents a series of empirical studies that flesh out the analytical framework. These studies document the ways that competent problem solvers make the most of the knowledge at their disposal. They include observations of students, indicating some typical roadblocks to success. Data taken from students before and after a series of intensive problem-solving courses document the kinds of learning that can result from carefully designed instruction. Finally, observations made in typical high school classrooms serve to indicate some of the sources of students' (often counterproductive) mathematical behavior.

The Invention of Li Yu - Patrick Hanan 1988

Li Yu, 1610-1680, was a brilliant comic writer and entertainer, a thoroughgoing professional whose life was in his work-plays, stories, a novel, criticism, essays, and poems. Patrick Hanan places him in the society of his day, where even his precarious livelihood, his constant search for patronage, did not dampen his versatility, his irreverent wit, or his jocund spirit. Li was also an epicure, an inventor, a pundit, and a

designer of houses and gardens. He was an exceptional figure in Chinese culture for two reasons: his disregard of the authority of tradition, and his dedication to the cause of comedy. Hanan uses the term "invention" in his title in several ways: Li Yu's invention of himself, his public image-his originality and inventiveness in a multitude of fields and the literary products of his inventiveness. With expert and entertaining translations Hanan explores the key features of Li Yu's work, summarizing, describing, and quoting extensively to convey Li's virtuosity, his unconventionality, his irreverence, his ribaldry. This is a splendid introduction to the art and persona of a Chinese master of style and ingenuity.

Critical Discourse Studies in Context and Cognition - Christopher Hart 2011-08-17

Critical Discourse Studies (CDS) is an exciting research enterprise in which scholars are concerned with the discursive reproduction of power and inequality. However, researchers in CDS are increasingly recognising the need to investigate the cognitive dimensions of discourse and context if they want to fully account for any connection between language, legitimisation and social action. This book presents a collection of papers in CDS concerned with various ideological discourses. Analyses are firmly rooted in linguistics and cognition constitutes a major focus of attention. The chapters, which are written by prominent researchers in CDS, come from a broad range of theoretical perspectives spanning pragmatics, cognitive psychology and cognitive linguistics. The book is essential reading for anyone working at the cutting edge of CDS and especially for those wishing to explore the central place that cognition must surely hold in the relationship between discourse and society.

They did not stop at Eboli - Karin Priem 2020-02-10

The analysis of UNESCO's audio-visual archives for their digitization has brought to light a forgotten album of 38 contact sheets and accompanying texts by Magnum photographer, David "Chim" Seymour - a reportage made in 1950 for UNESCO on the fight against illiteracy in Italy's southern region of Calabria. A number of his photographs appeared in the March 1952 issue of UNESCO Courier in an article written by Carlo Levi, who had gained worldwide fame with his novel *Christ Stopped at Eboli* (1945). L'analyse des archives audio-visuelles de l'UNESCO en vue de leur numérisation a permis de découvrir un album oublié comprenant 38 planches-contact et des textes d'accompagnement du photographe de Magnum David « Chim » Seymour - un reportage

réalisé en 1950 pour l'UNESCO sur la bataille contre l'analphabétisme en Calabre, une région du sud de l'Italie. Un certain nombre de ses photographies ont été publiées dans le numéro de mars 1952 du Courier de l'UNESCO avec un article de Carlo Levi, dont le roman *Le Christ s'est arrêté à Eboli* (1945) lui avait valu une renommée internationale

Hysterical Men - Mark S MICALE 2009-06-30

Over the course of several centuries, Western masculinity has successfully established itself as the voice of reason, knowledge, and sanity - the basis for patriarchal rule - in the face of massive testimony to the contrary. This book boldly challenges this triumphant vision of the stable and secure male by examining the central role played by modern science and medicine in constructing and sustaining it.

The Conquest of Abyssinia - Shihāb al-Dīn Aḥmad ibn 'Abd al-Qādir 'Arabfaḳīh 2003

Sihab ad-Din Ahmad bin 'Abd al-Qader's account of the early sixteenth century Jihad, or holywar, in Ethiopia, of Imam Ahmad bin Ibrahim, better known as Ahmad Gran, or the Left handed, is an historical classic. The Yamani author was an eyewitness of several of the battles he describes, and is an invaluable source. His book, which is full of human, and at times tragic, drama, makes a major contribution to our knowledge of a crucially important period in the history of Ethiopia and Horn of Africa. 'Futuh al-Habasa, ' or 'Conquest of Abyssinia' - which undoubtedly reflects the situation as it seemed to its Yamani author at the time of its composition. The forces of Imam Ahmad bin Ibrahim had occupied the greater part of Ethiopia. The resistance of Emperor Lebna Dengel had virtually come to an end, and many Christians had chosen to convert to Islam. The victorious Imam's regime seemed there to stay. This was,

however, far from the end of the story. The Imam was killed in battle on February 21, 1543, whereupon his army almost immediately disintegrated. Those of his soldiers who could do so made their way back to the East. Not a few Muslim converts reverted to their former faith. The Futuh thus refers to a relatively short, though crucially important, period in Ethiopia's long history. The book is nevertheless valuable, in that its author was an eye-witness of many of the events he describes, and writes, as far as we can judge, with a degree of objectivity rare for his time. What people say about this book: "This book is the first ever complete English translation of the Arabic account on the campaigns of Imam Ahmad b. Ibrahim al-Ghazi (popularly known as Gran) as written by the Yemeni jurist, Shihab al-din Ahmad b. Abd al-Qadir b. Salim b. Uthman (also known as Arab Faqih)... it is a welcome addition to the rich corpus of Arabic literary and historical sources relevant to the sixteenth-century Ethiopia and the Horn. It is particularly useful for English-speaking researchers and established scholars who cannot read either the Arabic text or the authoritative French translation prepared by Rene Basset...both Stenhouse and Pankhurst, and the publisher, deserve high commendation, respectively, for producing such a valuable work that represents a major contribution to the history of Ethiopia and the Horn, and for making it available to the wider English-speaking readership and scholarship." -- Hussein Ahmed is a Professor of History at Addis Ababa University. He is a leading historian of Islam in Ethiopia. * * * "In the history of conflict in Africa and beyond, "few stories of drama and human tragedy equal" Imama Ahmad's conquest of the Christian kingdom of Ethiopia (1529-1543). His short lived spectacular victories and determination to replace Christianity by Islam and the remarkable survival of Christianity in Ethiopia" is a story of epic proportions" which still generates strong emotion among both the Christian and the Muslim population of Ethiopia. In other words, Imam Ahmad's jihadic war besides being legendary was a major turning point... This is truly a wonderful work, which is destined to remain an indispensable source for the history of Ethiopia and the Horn of Africa during the first half of the tumultuous sixteenth century. Anyone interested in understanding the

intensity and brutality of religious war will be rewarded by reading this classic." -- Mohammed Hassen is an Associate Professor of African history at Georgia State University in Atlanta. He is the author of *The Oromo of Ethiopia: A History 1570-1860*.

Black Skin, White Masks - Frantz Fanon 2017

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

The Love of God - Oswald Chambers 2015-03-31

He plumbs the depths of God's Word to discover spiritual treasures that can help every believer "run with endurance the race that is set before us." This updated gift edition is part of a series that includes *If You Will Ask and Christian Disciplines*.

Oedipus at Thebes - Bernard Knox 1998-01-01

Examines the way in which Sophocles' play "Oedipus Tyrannus" and its hero, Oedipus, King of Thebes, were probably received in their own time and place, and relates this to twentieth-century receptions and interpretations, including those of Sigmund Freud.

The Colonial System Unveiled - Baron De Vastey 2016-01-25

Long neglected in mainstream history books, the Haitian Revolution (1791-1804) is now being claimed across a range of academic disciplines as an event of world-historical importance. The former slaves' victory

over their French masters and the creation of the independent nation of Haiti in 1804 is being newly heralded not only as a seminal moment in the transnational formation of the 'black Atlantic' but as the most far-reaching manifestation of 'Radical Enlightenment'. The best known Haitian writer to emerge in the years after the revolution is Baron de Vastey (1781-1820), who authored over ten books and pamphlets between 1814 and his murder in 1820. His first and most incendiary work, *Le système colonial dévoilé* (1814), provides a moving invocation of the horrors of slavery in pre-revolutionary Saint-Domingue. Its trailblazing critique of colonialism anticipates by over a hundred years the anticolonial politics (and poetics) of Césaire, Fanon, and Sartre. Translated here for the first time, Vastey's forceful unveiling of the colonial system will be compulsory reading for scholars across the humanities.

Rich Dad, Poor Dad - Robert T. Kiyosaki 2016-04-27

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

German Literature as World Literature - Thomas Oliver Beebee 2014-07-31

This new collection investigates German literature in its international dimensions. While no single volume can deal comprehensively with such a vast topic, the nine contributors cover a wide historical range, with a variety of approaches and authors represented. Together, the essays begin to adumbrate the systematic nature of the relations between German national literature and world literature as these have developed through institutions, cultural networks, and individual authors. In the last two decades, discussions of world literature-literature that resonates beyond its original linguistic and cultural contexts-have come increasingly to the forefront of theoretical investigations of literature. One reason for the explosion of world literature theory, pedagogy and methodology is the difficulty of accomplishing either world literature criticism, or world literary history. The capaciousness, as well as the polylingual and multicultural features of world literature present formidable obstacles to its study, and call for a collaborative approach that conjoins a variety of expertise. To that end, this collection contributes to the critical study of world literature in its textual, institutional, and translatorial reality, while at the same time highlighting a question that has hitherto received insufficient scholarly attention: what is the relation between national and world literatures, or, more specifically, in what senses do national literatures systematically participate in (or resist) world literature?

The Wretched of the Earth - Frantz Fanon 2007-12-01

The sixtieth anniversary edition of Frantz Fanon's landmark text, now

with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the*

Earth is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.
