The Shadow and Its Shadow - Paul Hammond 2000-11

The Shadow and Its Shadow is a classic collection of writings by the Surrealists on their mad love of moviegoing. The forty-odd theoretical, polemical, and poetical re-visions of the seventh art in this anthology document Surrealism's scandalous and nonreductive take on film. Writing between 1918 and 1977, the essayists include such names as André Breton, Louis Aragon, Robert Desnos, Salvador Dalí, Luis Buñuel, and man Ray, as well as many of the less famous though equally fascinating

figures of the movement. Paul Hammond's introduction limns the history of Surrealist cinemania, highlighting how these revolutionary poets, artists, and philosophers sifted the silt of commercial-often Hollywood-cinema for the odd fleck of gold, the windfall movie that, somehow slipping past the censor, questioned the dominant order. Such prospecting pivoted around the notion of lyrical behavior-as depicted on the screen and as lived in the movie house. The representation of such behavior led the Surrealists to valorize the manifest content of such denigrated genres as silent and sound comedy, romantic melodrama, film noir, horror movies. As to lived experience, moviegoing Surrealists looked to the spectacle's latent meaning, reading films as the unwitting providers of redemptive sequences that could be mentally clipped out of their narrative context and inserted into daily life-there, to provoke new adventures. "Hammond's book is a reminder of the wealth and range of surrealist writings on the cinema. . . . [T]he work represented here is still challenging and genuinely eccentric, locating itself in an 'ethic' of love, reverie and revolt." --Sight & Sound "Hammond, who

is the author of the invaluable anthology *The Shadow and its Shadow: Surrealist Writing on the Cinema* (1978), writes about cinema independently of the changing academic and cultural fashions of film theory and abhors the dogmas of contemporary border-patrol thought. His magnetically appealing free-wheeling form of erudite film-critical writing is recognisable for its iconoclastic humour, non-authoritarian verve and playful witty discursivity." --John Conomos, *Senses of Cinema*
Paul Hammond is a writer, editor, and translator living in Barcelona. He is the author of *Constellations of Miró, Breton* which was published by City Lights.

The Disenchantment of Art - Rainer Rochlitz 1998-02-15
Fifty years after his death, Walter Benjamin remains one of the great cultural critics of this century. Despite his renown, however, Benjamin's philosophical ideas remain elusive--often considered a disaggregated set of thoughts not meant to cohere. This book provides a more systematic perspective on Benjamin, laying claim to his status as a philosopher and situating his work in the context of its time. Exploring Benjamin's theory of language, spoken and nonspoken, Rainer Rochlitz shows how Benjamin reconceptualized traditional ideas of language, art, and history. Offering an expansive assessment of a unique twentieth-century thinker, this volume provides an indispensable guide for readers of Benjamin's recently released collected works.

Threads and Traces - Carlo Ginzburg 2012-09-02
"This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians"--

On Diary - Philippe Lejeune 2009-04-30
On Diary is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a

commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, "The Autobiographical Pact," has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, "Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable." Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

The Theory of the Avant-garde - Renato Poggioli 1968
Convinced that all aspects of modern culture have been affected by avant-garde art, Renato Poggioli explores the relationship between the avant-garde and civilization. Historical parallels and modern examples from all the arts are used to show how the avant-garde is both symptom and cause of many major extra-aesthetic trends of our time, and that the contemporary avant-garde is the sole and authentic one.

The Telephone Book - Avital Ronell 1989-01-01

The telephone marks the place of an absence. Affiliated with discontinuity, alarm, and silence, it raises fundamental questions about the constitution of self and other, the stability of location, systems of transfer, and the destination of speech. Profoundly changing our concept of long-distance, it is constantly transmitting effects of real and evocative power. To the extent that it always relates us to the absent other, the telephone, and the massive switchboard attending it, plugs into a hermeneutics of mourning. The Telephone Book, itself organized by a "telephonic logic," fields calls from philosophy, history, literature, and psychoanalysis. It installs a switchboard that hooks up diverse types of knowledge while rerouting and jamming the codes of the disciplines in daring ways. Avital Ronell has done nothing less than consider the impact of the telephone on modern thought. Her highly original, multifaceted inquiry into the nature of communication in a technological age will excite everyone who listens in. The book begins by calling close attention to the importance of the telephone in Nazi organization and propaganda, with special regard to the philosophy of Martin Heidegger. In the Third Reich the telephone became a weapon, a means of state surveillance, "an open accomplice to lies." Heidegger, in *Being and Time* and elsewhere, elaborates on the significance of "the call." In a tour de force response, Ronell mobilizes the history and terminology of the telephone to explicate his difficult philosophy. Ronell also speaks of the appearance of the telephone in the literary works of Duras, Joyce, Kafka, Rilke, and Strindberg. She examines its role in psychoanalysis—Freud said that the unconscious is structured like a telephone, and Jung and R. D. Laing saw it as a powerful new body part. She

traces its historical development from Bell's famous first call: "Watson, come here!" Thomas A. Watson, his assistant, who used to communicate with spirits, was eager to get the telephone to talk, and thus to link technology with phantoms and phantasms. In many ways a meditation on the technologically constituted state, The Telephone Book opens a new field, becoming the first political deconstruction of technology, state terrorism, and schizophrenia. And it offers a fresh reading of the American and European addiction to technology in which the telephone emerges as the crucial figure of this age.

English Words - Francis Katamba 2015-02-11

How do we find the right word for the job? Where does that word come from? Why do we spell it like that? And how do we know what it means? Words are all around us - we use them every day to communicate our joys, fears, hopes, opinions, wishes and demands - but we don't often think about them too deeply. In this highly accessible introduction to English words, the reader will discover what the study of words can tell them about the extraordinary richness and complexity of our daily vocabulary and about the nature of language in general. Assuming no prior knowledge of linguistics, the book covers a wide range of topics, including the structure of words, the meaning of words, how their spelling relates to pronunciation, how new words are manufactured or imported from other languages, and how the meaning of words changes with the passage of time. It also investigates how the mind deals with words by highlighting the amazing intellectual feat performed routinely when the right word is retrieved from the mental dictionary. This revised and expanded second edition brings the study of words right up to date with coverage of text messaging and email and includes new material on psycholinguistics and word meaning. With lively examples from a range of sources - encompassing poetry, jokes, journalism, advertising and clichés - and including practical exercises and a fully comprehensive glossary, *English Words* is an entertaining introduction to the study of words and will be of interest to anyone

Bourdieu and Literature - John R. W. Speller 2011

Bourdieu and Literature is a wide-ranging, rigorous and accessible introduction to the relationship between Pierre Bourdieu's work and literary studies. It provides a comprehensive overview and critical assessment of his contributions to literary theory and his thinking about authors and literary works. One of the foremost French intellectuals of the post-war era, Bourdieu has become a standard point of reference in the fields of anthropology, linguistics, art history, cultural studies, politics, and sociology, but his longstanding interest in literature has often been overlooked. This study explores the impact of literature on Bourdieu's intellectual itinerary, and how his literary understanding intersected with his sociological theory and thinking about cultural policy. This is the first full-length study of Bourdieu's work on literature in English, and it provides an invaluable resource for students and scholars of literary studies, cultural theory and sociology.

Grotesque Figures - Virginia E. Swain 2020-03-03

Charles Baudelaire is usually read as a paradigmatically modern poet, whose work ushered in a new era of French literature. But the common emphasis on his use of new forms and styles overlooks the complex role of the past in his work. In *Grotesque Figures*, Virginia E. Swain explores how the specter of the eighteenth century made itself felt in Baudelaire's modern poetry in the pervasive textual and figural presence of Jean-Jacques Rousseau. Not only do Rousseau's ideas inform Baudelaire's theory of the grotesque, but Rousseau makes numerous appearances in Baudelaire's poetry as a caricature or type representing the hold of the Enlightenment and the French Revolution over Baudelaire and his contemporaries. As a character in "Le Poème du hashisch" and the *Petits Poèmes en prose*, "Rousseau" gives the grotesque a human form. Swain's literary, cultural, and historical analysis deepens our understanding of Baudelaire and of nineteenth-century aesthetics by relating Baudelaire's poetic theory and practice to Enlightenment debates about allegory and the grotesque in the arts. Offering a novel reading of Baudelaire's ambivalent engagement with the eighteenth-century, *Grotesque Figures* examines nineteenth-century ideological debates over French identity, Rousseau's political and artistic legacy, the aesthetic and political significance of the rococo, and the presence of the grotesque in the modern.

A History of the Ancient Working People - Cyrenus Osborne Ward 1889

In Defiance of Painting - Christine Poggi 1992-01-01
The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth-century art. Collage has traditionally been viewed as a new expression of modernism, one allied with modernism's search for purity of means, anti-illusionism, unity, and autonomy of form. This book - the first comprehensive study of collage and its relation to modernism -

challenges this view. Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism. She focuses on the ways Cubist collage – and the Futurist multimedia work that was inspired by it – undermined prevailing notions of material and stylistic unity, subverted the role of the frame and pictorial ground, and brought the languages of high and low culture into a new relationship of exchange.

Days Near Rome – Augustus J. C. Hare 1875

The Wretched of the Earth – Frantz Fanon 2007-12-01

The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text

stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

The Flight of the Angels – Alistair Charles Rolls 1999

It is a close study of four novels by Boris Vian. It aims to show how *L'Écume des jours*, *L'Automne à Pékin*, *L'Herbe rouge* and *L'Arrache-cœur* form a unified and coherent tetralogy. By establishing close links between these four texts, it becomes possible to achieve a more comprehensive understanding, not only of the significance of the tetralogy in exposing a complex and multi-layered novelistic strategy at the heart of the vianesque, but of the individual novels as autonomous creations. An examination of the novels reveals that they are not merely joined to one another via a superficial network of textual similarities (that which I refer to as intratextuality), but that this intertwining is emblematic of a common method of narrative construction. Each Vian novel is dependent, for a thorough understanding of the text to be possible, upon the multiple lines of external influence running through it. The sources of this influence (which I refer to as intertextuality) are located in various major texts of twentieth century literature, anglophone as well as francophone. Thus, in each instance the narrative is driven by a complicated interaction of intratextuality and intertextuality."

Mapping a Tradition – Sam Haigh 2000

In recent years, critical interest in francophone literature has become increasingly pronounced. In the case of the French Caribbean, the work of several

writers (Aime Cesaire, Frantz Fanon, Edouard Glissant and Patrick Chamoiseau, for example) has gained international recognition, and has formed a vital part of more general debates on history, culture, language and identity in the post colonial world. The majority of such writers, however, have been male and, perhaps recalling the preference that France has always shown for the island, have come in large part from Martinique. Mapping a Tradition: Francophone Women's Writing from Guadeloupe aims to explore a different side of francophone Caribbean writing through the examination of selected novels by Jacqueline Manicom, Michele Lacrosil, Maryse Conde, Simone Schwarz-Bart and Dany Bebel-Gisler. Placing the work of these writers in the context of that of their better-known, male counterparts, this study argues that it has provided an important mode of intervention in, and disruption of, a literary tradition which has failed to address questions of sexual difference and has often excluded issues relating to French Caribbean women. At the same time, this study suggests that Guadeloupean women's writing of the last thirty years may be seen to constitute a 'tradition' in itself, replete with its own influences and inheritances. At once within, and outside the 'dominant' tradition, women's writing from Guadeloupe - and Martinique - has come to occupy a position at the forefront of contemporary efforts to expand and redefine a still-burgeoning corpus of literary and theoretical work.

The Voynich Manuscript - M. E. D'Imperio 1978
In spite of all the papers that others have written about the manuscript, there is no complete survey of all

the approaches, ideas, background information and analytic studies that have accumulated over the nearly fifty-five years since the manuscript was discovered by Wilfrid M. Voynich in 1912. This report pulls together all the information the author could obtain from all the sources she has examined, and to present it in an orderly fashion. The resulting survey will provide a firm basis upon which other students may build their work, whether they seek to decipher the text or simply to learn more about the problem.

A Thesaurus of English Word Roots - Horace Gerald Danner 2014-03-27

Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odynacisus.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there

are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

Autumn in Peking - Boris Vian 2005

Fiction. Translated from the French by Paul Knobloch. Originally published in 1947. "In the Exopotamian desert, where hepatrols blossom and children collect little animals called sandpeepers, the sun shines in an unusual way: it produces eerie black zones whose mysteries remain unexplained. Above all, Vian's peculiar way with language proves that, indeed, life in the desert is equal to none. Since unusual language is bound to produce unusual fiction, it follows that the story does not take place in the fall, nor is it set in

China" - from the Foreword by Marc Lapprand. The fourth novel by Vian, who was a contemporary of Sartre and Beauvoir. His innovative style, cutting-edge during his lifetime, but only successful in the sixties, made him an icon of the May 1968 student movement.

Absorption and Theatricality - Michael Fried 1988-09-15
With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.
