Analyse your Date of Birth synthesises all three to help you predict accurately a person's character, behaviour and even his / her future. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

Chronicles of Hindu Astrology the concept of Overlapping - Santanu Dey
2021-08-23

The Chronicles of Hindu Astrology, the concept of overlapping is a detailed research work on imposed planetary influences to predict our life events. Planetary Influence is not a new word in the language of astrology. Generally, we judge a native's horoscope with the individual's natal chart, and Dasha system. We compute all the planetary influences and associations present in the specific Janma Kundali. But, practically, each and every event of a Native's life gets influenced by the activities of his environment and the people around him. Specially, some qualities like motivation, demoralization, moral support, and financial support from others may create a huge change in the lifestyle of a native. Also, it is observed that sometimes some special events like marriage, child birth may create huge change in native's fate. Overlapping is a very significant but simple way to understand the mutual effects of various surrounding charts over the main natal chart of a native. Exactly which happens in calculation of the effects of Transit. The transitional planets introduce beneficial or malefic effects depending upon their relative position with respect to the natal planets. A beneficial and friendly planet introduces more strength and positivity when passing over the beneficial places, like Trikona. Any person carries the properties and effects of planetary placements in his or her birth chart. When he or she makes a close relationship with another person these effects create some influence on that person. These effects are called overlapping. Concept of Overlapping Theory is a new idea in predictive astrology which is based on traditional and general Vedic astrological concepts and ideas. The rules and functionalities of Parasharian Astrology adopted here. But this is totally a new thought and very much effective for prediction and remedial measures without any external remedy.

Astronomy Relevant to Astrology - Mullappilly Parameswaran 2015-03-31

ZODIAC "It is a broad band or belt in the heavens extending 9 degrees on either side of the ecliptic, and known to the Hindus as Bhachakra or the Circle of Light. It is a circle and as such it knows no beginning or end. In order to measure the distance, an arbitrary point is established, which is called the first point of Aries. The zodiac revolves once in a day on its axis, from east to west." --Dr. B.V. Raman, A Manual of Hindu Astrology So the Zodiac is an imaginary road in the sky, stretching about 80 north and 90 south of the apparent path of the Sun in the sky, within which the planets move around the Earth, once in a day, from east to west. The zodiac is divided into twelve equal parts called Signs (Rasis) (30o x 12 = 360o.). These twelve divisions are called Aries (Mesha), Taurus (Vrisha) etc. Signs of the Zodiac 1. 0o - 30o Aries Mesha Medam 2. 30 - 60 Taurus Vrishabha Edavam 3. 60 - 90 Gemini Mithuna Mithunam 4. 90 - 120 Cancer Kataka Karkatakam 5. 120 - 150 Leo Simha Chingam 6 150 - 180 Virgo Kanya Kanni 7. 180 - 210 Libra Thula Thulam 8. 210 - 240 Scorpio Vrischika Vrischikam 9. 240- 270 Sagittarius Dhanus Dhanu 10. 270 - 300 Capricorn Makara Makaram 11. 300 - 330 Aquarius Kumbha Kumbham 12. 330 - 360 Pisces Meena Meenam There are two zodiacs: one moving (Tropical) and the other fixed (Sidereal). . In the case of the Tropical Zodiac, each of these signs formerly occupied the similarly named constellations (groups of stars), but now, by precession of the equinoxes, they coincide with the constellations that bears the names of the preceding signs, that is, the constellation Pisces is now in Aries Sign. The zodiac (rasi chakra) which reckons the Aries 0o (imaginary starting point of the zodiac) from the equinoctial point and which has precession, is the 'movable', 'tropical' or 'sayana' zodiac. Modern astronomy follows this zodiac. But the zodiac considered in India for astrological purposes is a fixed one. In this case, the first point or 0o is based on a fixed star. In the Chitra paksha ayanamsa, it is a point between Revati and Aswini nakshatras, i.e., 180o from Chitra nakshatra. So the zodiac considered in India for astological purposes is 'fixed', 'sidereal' or 'nirayana'. This book contains: 1) Introduction (General information about Indian astrology). 2) Astronomy relevant to Astrology 3) Mathematical Astrology 4) Predictive Astrology, prepared with reference to the original classical texts, Brihat Jataka, Phaladeepika and Brihat Parasara Hora Sastra.

Ancient Hindu Astrology for the Modern Western Astrologer - James T. Braha 1993-10

"Ever since my first journey to India I have desired to share the knowledge I was fortunate enough to receive. I have also felt a need to dispel some rather major misconceptions, the main one being the fact that Hindu astrology is extraordinarily difficult. This is not true, as will soon hopefully be revealed. Although I have always been most fascinated with astrology because of the philosophical implications and revelations which can be extracted. I have done my best to keep philosophy from this work, as that is not my present purpose. It is my intention only to present Hindu

astrology in a way that it deserves to be presented, which is long overdue -- a way which western astrologers can understand and utilise, and which will clear away the mystery and finally put into perspective the enormously complex techniques which make up the bulk of most textbooks on the subject. Having worked with both Hindu and western systems, it is my experience that the two greatly complement each other and together form the basis for a complete and profound astrology." -- taken from the Introduction.
